The Glaucoma Book Paul N. Schacknow, John R. Samples, 2010-06-10 Putting together a comprehensive multiauthored text is a daunting task However the benefits may justify the effort Such is the case with regards to the present Glaucoma Book It is not likely that many ophthalmologists or others will decide at the end of a busy day to pour themselves a cocktail and settle into a comfortable chair with this large tome in hand with the intent of reading it from start to finish A pity It would make several enjoyable and profitable days of good reading The text starts with comments by an individual who is strongly grounded in the fundamentals of being a good physician Ivan Goldberg has used his brilliance his wide international experiences and knowledge and his commitment to

assuring that physicians know their craft to provide a penetrating perspective on ophthalmology today and tomorrow The Glaucoma Book ends with commentaries by the editors John Samples a true physician scientist and Paul Schacknow an experienced community based clinician Samples essay What Really Causes Glaucoma nicely describes the leading theories underlying the cell biology of gl coma In What Do We Know Now What Do We Need to Know About Glaucoma Schacknow offers an essay on some of the controversial ideas raised within the book and speculates on future research

The Chicago Eye and Emergency Manual Thomas John, 2011-06 This manual is introduced globally to the ophthalmic community with the primary focus on the practicing eye care provider and all those involved in or interested in the management of ocular diseases Ocular management issues are complex and inter related to basic science and to clinical presentations of a large spectrum of ocular diseases Of equal importance is the recognition and diagnosis of the individual patient s ocular disease state Proper diagnosis will then channel the clinician in the correct direction to engage in the optimal management of the ocular condition and thus relieve the patient s signs and symptoms and possibly improve the way the patient sees the world All these clinical activities are often performed within a very narrow time slot with limited chair time for the individual patient It is of paramount importance to maximally utilize this limited time segment to deliver the best possible care to our patients At the same time it is important not to compromise eye care at the expense of speed Hence a clinician often needs the diagnostic and therapeutic reference materials that can be used in a short time to answer his clinical question s With this in mind the text is written in an easy to read quick reference format while at the same time providing an extensive and most comprehensive material that the clinician will find extremely useful Also practical images are inserted throughout the text to complement the process of clinical patient care This book helpful for practising ophthalmologists and students
