

Visual Finance: The One Page Visual Model to Understand Financial Statements and Make Better Business Decisions

Visual Finance is a powerful, simple tool that you can learn in just a couple of hours and easily apply to real life. Over the past five years, this model has been used in thousands of “finance for non-financial managers” training sessions in more than 30 countries. Accounting is often perceived as being tedious, complicated, and too theoretical. Non-financial managers are less than enthusiastic about accounting. One possible cause is the way business schools teach it. In a recent study only 46% of respondents had average or higher financial literacy and could understand financial statements. Stop avoiding financial topics during team meetings. Save your company from making costly mistakes and start maximizing all your valuable opportunities.
