Weird Realism Lovecraft And Philosophy:

Weird Realism Graham Harman, 2012-09-16 As Holderlin was to Martin Heidegger and Mallarmé to Jacques Derrida so is H P Lovecraft to the Speculative Realist philosophers Lovecraft was one of the brightest stars of the horror and science fiction magazines but died in poverty and relative obscurity in the 1930s In 2005 he was finally elevated from pulp status to the classical literary canon with the release of a Library of America volume dedicated to his work The impact of Lovecraft on philosophy has been building for more than a decade Initially championed by shadowy guru Nick Land at Warwick during the 1990s he was later discovered to be an object of private fascination for all four original members of the twenty first century Speculative Realist movement In this book Graham Harman extracts the basic philosophical concepts underlying the work of Lovecraft yielding a weird realism capable of freeing continental philosophy from its current soul crushing impasse Abandoning pious references by Heidegger to Holderlin and the Greeks Harman develops a new philosophical mythology centered in such Lovecraftian figures as Cthulhu Wilbur Whately and the rat like monstrosity Brown Jenkin The Miskatonic River replaces the Rhine and the Ister while Holderlin's Caucasus gives way to Lovecraft's Antarctic mountains of madness

The Weird and the Eerie Mark Fisher, 2017-01-31 A noted cultural critic unearths the weird the eerie and the horrific in 20th century culture through a wide range of literature film and music references from H P Lovecraft and Daphne Du Maurier to Stanley Kubrick and Christopher Nolan What exactly are the Weird and the Eerie Two closely related but distinct modes and each possesses its own distinct properties Both have often been associated with Horror but this genre alone does not fully encapsulate the pull of the outside and the unknown In several essays Mark Fisher argues that a proper understanding of the human condition requires examination of transitory concepts such as the Weird and the Eerie Featuring discussion of the works of H P Lovecraft H G Wells M R James Christopher Priest Joan Lindsay Nigel Kneale Daphne Du Maurier Alan Garner and Margaret Atwood and films by Stanley Kubrick Jonathan Glazer and Christopher Nolan [The American Weird](#) Julius Greve, Florian Zappe, 2020-10-01 Hitherto classified as a form of genre fiction or as a particular aesthetic quality of literature by H P Lovecraft the weird has now come to refer to a broad spectrum of artistic practices and expressions including fiction film television photography music and visual and performance art Largely under theorized so far The American Weird brings together perspectives from literary cultural media and film studies and from philosophy to provide a thorough exploration of the weird mode Separated into two sections the first exploring the concept of the weird and the second how it is applied through various media this book generates new approaches to fundamental questions Can the weird be conceptualized as a generic category as an aesthetic mode or as an epistemological position May the weird be thought through in similar ways to what Sianne Ngai calls the zany the cute and the interesting What are the transformations it has undergone aesthetically and politically since its inception in the early twentieth century Which strands of contemporary critical theory and philosophy have engaged in a dialogue with the discourses of and on the weird And what is specifically

American about this aesthetic mode As the first comprehensive interdisciplinary study of the weird this book not only explores the writings of Lovecraft Caitl n Kiernan China Mi ville and Jeff VanderMeer but also the graphic novels of Alan Moore the music of Captain Beefheart the television show Twin Peaks and the films of Lily Amirpour Matthew Barney David Lynch and Jordan Peele

Giving the Devil His Due Jeffrey Andrew Weinstock,Regina M. Hansen,2021-10-05 Finalist 2021 Bram Stoker Awards Superior Achievement in Non Fiction The first collection of essays to address Satan s ubiquitous and popular appearances in film Lucifer and cinema have been intertwined since the origins of the medium As humankind s greatest antagonist and the incarnation of pure evil the cinematic devil embodies our own culturally specific anxieties and desires reflecting moviegoers collective conceptions of good and evil right and wrong sin and salvation Giving the Devil His Due is the first book of its kind to examine the history and significance of Satan onscreen This collection explores how the devil is not just one monster among many nor is he the prince of darkness merely because he has repeatedly flickered across cinema screens in darkened rooms since the origins of the medium Satan is instead a force active in our lives Films featuring the devil therefore are not just flights of fancy but narratives sometimes reinforcing sometimes calling into question a familiar belief system From the inception of motion pictures in the 1890s and continuing into the twenty first century these essays examine what cinematic representations tell us about the art of filmmaking the desires of the film going public what the cultural moments of the films reflect and the reciprocal influence they exert Loosely organized chronologically by film

though some chapters address more than one film this collection studies such classic movies as Faust Rosemary's Baby The Omen Angel Heart The Witch and The Last Temptation of Christ as well as the appearance of the Devil in Disney animation Guiding the contributions to this volume is the overarching idea that cinematic representations of Satan reflect not only the hypnotic powers of cinema to explore and depict the fantastic but also shifting social anxieties and desires that concern human morality and our place in the universe Contributors Simon Bacon Katherine A Fowkes Regina Hansen David Hauka Russ Hunter Barry C Knowlton Eloise R Knowlton Murray Leeder Catherine O'Brien R Barton Palmer Carl H Sederholm David Sterritt J P Telotte Jeffrey Andrew Weinstock The Call of the Eco-Weird in Fiction, Films, and Games Brian Hisao Onishi, Nathan M. Bell, 2025-02-28 This edited volume identifies and analyses the Eco Weird as an interdisciplinary theoretical tool for engaging in fictional philosophical filmic and ludic texts It is the first volume to engage in the study of the Eco Weird which is a developing field at the intersection of environmental thought and Weird fiction broadly construed to include literature games films art and television shows The Eco Weird has intersections with other literary and scholarly fields including horror studies game studies phenomenology literary criticism and eco criticism but provides a unique set of tools to engage both its texts and the ongoing environmental crises of climate change environmental justice pollution and more *Literature and Materialisms* Frederic Neyrat, 2020-01-14 Literature and Materialisms sheds light on the current new wave of materialisms and assesses the impact on literary theory and criticism It maps the similarities and differences between speculative realism object oriented philosophy and vitalism A genealogy of materialisms vitalisms empiricisms and realist approaches from Heraclitus to Badiou including Lucretius Spinoza Marx Althusser Barad Spivak Deleuze Bennett Harman and other contemporary thinkers puts these new trends into perspective This book investigates the relations between literature from Marquis de Sade to objectivist poetry and materialism and analyses the material aspects of literature its structure and texture its commodification and its capacity to resist market imperatives It explores how literary style might be understood as a mediation between the immaterial and the concrete features of a text This volume provides students and academics with an accessible overview of the study of literature and materialism **Dark Pedagogy** Jonas Andreassen Lysgaard, Stefan Bengtsson, Martin Hauberg-Lund Laugesen, 2019-06-28 Dark pedagogy explores how different perspectives can be incorporated into a darker understanding of environmental and sustainability education Drawing on the work of the classic horror author H P Lovecraft and new materialist insights of speculative realism the authors link Lovecraft's tales of the horrible to the current spectres of environmental degradation climate change and pollution In doing so they draw parallels between how humans have always related to the horrible things that are scaled beyond our understanding and how education can respond to an era of climate catastrophe in the age of the Anthropocene A new and darker understanding of environmental and sustainability education is thus developed using the tripartite reaction pattern of denial insanity and death to frame the narrative the book subsequently examines the specific challenges of potentials of developing education and

pedagogy for an age of mass extinction This unflinching book will appeal to students and scholars of dark pedagogies as well as those interested in environment and sustainability education **Haunted Nature** Sladja Blazan, 2021-12-08 This volume is a study of human entanglements with Nature as seen through the mode of haunting As an interruption of the present by the past haunting can express contemporary anxieties concerning our involvement in the transformation of natural environments and their ecosystems and our complicity in their collapse It can also express a much needed sense of continuity and relationality The complexity of the question who and what gets to be called human with respect to the nonhuman is reflected in these collected chapters which in their analysis of cinematic and literary representations of sentient Nature within the traditional gothic trope of haunting bring together history race postcolonialism and feminism with ecocriticism and media studies Given the growing demand for narratives expressing our troubled relationship with Nature it is imperative to analyze this contested ground Chapter 6 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com **New Directions in Children's Gothic** Anna Jackson, 2017-03-27 Children's literature today is dominated by the gothic mode and it is in children's gothic fictions that we find the implications of cultural change most radically questioned and explored This collection of essays looks at what is happening in the children's Gothic now when traditional monsters have become the heroes when new monsters have come into play when globalisation brings Harry Potter into China and yaoguai into the children's Gothic and when childhood itself and children's literature as a genre can no longer be thought of as an uncontested space apart from the debates and power struggles of an adult domain We look in detail at series such as The Mortal Instruments Twilight Chaos Walking The Power of Five Skulduggery Pleasant and Cirque du Freak at novels about witches and novels about changelings at the Gothic in China Japan and Oceania and at authors including Celia Rees Frances Hardinge Alan Garner and Laini Taylor amongst many others At a time when the energies and anxieties of children's novels can barely be contained anymore within the genre of children's literature spilling over into YA and adult literature we need to pay attention Weird things are happening and they matter
