*Gun Violence and Mental Illness* Liza H. Gold, M.D., 2015-11-17 Perhaps never before has an objective evidence based review of the intersection between gun violence and mental illness been more sorely needed or more timely *Gun Violence and Mental Illness* written by a multidisciplinary roster of authors who are leaders in the fields of mental health public health and public policy is a practical guide to the issues surrounding the relation between firearms deaths and mental illness Tragic mass shootings that capture headlines reinforce the mistaken beliefs that people with mental illness are violent and responsible for much of the gun violence in the United States This misconception stigmatizes individuals with mental illness and distracts us from the awareness that approximately 65% of all firearm deaths each year are suicides This book is an apolitical exploration of the misperceptions and realities that attend gun violence and mental illness The authors frame both pressing social issues as public health problems subject to a variety of interventions on individual and collective levels including utilization of a novel perspective evidence based interventions focusing on assessments and indicators of dangerousness with or without indications of mental illness Reader friendly well structured and accessible to professional and lay audiences the book Reviews the epidemiology of gun violence and its relationship to mental illness exploring what we know about those who perpetrate mass shootings and school shootings Examines the current legal provisions for prohibiting access to firearms for those with mental illness and whether these provisions and new mandated reporting interventions are effective or whether they reinforce negative stereotypes associated with mental illness Discusses the issues raised in accessing mental health treatment in regard to diminished treatment resources barriers to access and involuntary commitment Explores novel interventions for addressing these issues from a multilevel and multidisciplinary public health perspective that does not stigmatize people with mental illness This includes reviews of suicide risk assessment increasing treatment engagement legal social and psychiatric means of restricting access to firearms when people are in crisis and when appropriate restoration of firearm rights Mental health clinicians and trainees will especially appreciate the risk assessment strategies presented here and mental health public health and public policy researchers will find *Gun Violence and Mental Illness* a thoughtful and thought provoking volume that eschews sensationalism and embraces serious scholarship

*Do Guns Make Us Free?* Firmin DeBrabander, 2015-05-19 This study investigates the relationship between gun ownership and democracy exposing the dubious claims of the NRA and other gun rights supporters One of the most vital and polarizing debates in American society today concerns the Second Amendment of the Constitution and the rights of citizens to bear arms The core argument of gun advocates like the National Rifle Association is that the proliferation of firearms is essential to maintaining freedom in America They contend that access to guns gives private citizens a defense against possible government tyranny thereby safeguarding all our other rights But is this argument valid Do guns indeed make us free Firmin DeBrabander examines claims offered in favor of unchecked gun ownership in this insightful and eye

opening analysis By exposing the contradictions and misinterpretations presented by gun rights supporters DeBradander concludes that an armed society is not a free society but one that in fact actively hinders democratic participation
