Visibility In Social Theory And Social Research:

Visibility in Social Theory and Social Research A. Mubi Brighenti, 2010-07-21 What is social visibility How does it affect people and public issues How are visibility regimes created organized and contested Tackling both social theory and social research the book is an exploration into how intervisibilities produce crucial sociotechnical and biopolitical effects **The Transparency Paradox** Ida Koivisto, 2022 Transparency has become an unquestionable good in modern society spreading from its origins in governance to most arenas of the modern world But is it always good This book turns a critical eye towards transparency deconstructing its theoretical preconceptions and seeking a more nuanced view of what it means to be transparent **Media Activism, Artivism and the Fight Against Marginalisation in the Global South** Andrea Medrado, Isabella Rega, 2023-05-26 This book analyses a South to South connection between media activists and artists artists who are activists in the Global South The authors Andrea Medrado and Isabella Rega emphasise the urgent need to engage in South to South dialogues in order to create more sustainable connections between Global South communities and as an essential step towards identifying and facing global problems such as state repression social inequality and climate crises Medrado and Rega analyse the characteristics of this connection identify its unique contributions to the study of media and social change and discuss its long term sustainability They do so by focusing on instances when media narratives in countries of different Global South s intertwine and transform each other specifically the exchanges between Latin America Brazil and Africa Kenya They explore how media activism and artivism can be used as tools for global movement building and to challenge colonial legacies They also discuss how to connect people with varied skill sets in different Global South contexts promoting South to South solidarity in a cross continental challenge to marginalisation Crucial reading for students and scholars of media activism social movements global media and communication development studies and international studies as well as activists and social movement organisations Transparency and Critical Theory Jorge I. Valdovinos, 2022-02-26 This book takes an interdisciplinary approach to the critique of contemporary ideology offering an innovative genealogy of one of its most fundamental discursive manoeuvres the ideological effacement of mediation Providing a comprehensive historical revision of media from the Greeks to the Internet this book identifies several critical junctures at which the tension between visibility and invisibility has overlapped with conceptions of neutrality a tension best incarnated in today s use of the word transparency Then it traces this term s evolving semantic constellation through a variety of intellectual discourses exposing it as a key operator in the revaluation of ideals sensibilities and modalities of perception that lie at the core of our contemporary attention based economy *Urban Interstices: The Aesthetics and the Politics of the In-between* Andrea Mubi Brighenti, 2016-02-11 Bringing together a team of international scholars with an interest in urban transformations spatial justice and territoriality this volume questions how the interstice is related to the emerging processes of partitioning enclave making and zoning showing how in between spaces are intimately related to larger flows networks territories and boundaries

Illustrated with a range of case studies from places such as the US Quebec the UK Italy Gaza Iraq India and South east Asia the volume analyses the place and function of interstitial locales in both a disciplined urban space and a disordered space conceptualized through the notions of excess danger and threat Warning not to romanticize the interstice the book invites us to study it as not simply a place but also a set of phenomena events and social interactions How are interstices perceived and represented What is the politics of visibility that is applied to them How to capture their peculiar rhythms speeds and affects On the one hand interstices open up venues for informality improvisation challenge and bricolage playful as well as angry statements on the neoliberal city and enhanced urban inequalities On the other hand they also represent a crucial site of governance even governance by withdrawal and urban management where an array of techniques ranging from military urbanism to new forms of value extraction are experimented At the point of convergence of all these tensions interstices appear as veritable sites of transformation where social forces clash and mesh prefiguring our urban future The book interrogates these territories proposing new ways to explore the dynamics events and visibilities that define them

Media and the Image of the Nation during Brazil's 2013 Protests César Jiménez-Martínez, 2020-04-30 This book explores the struggles over the mediated construction and projection of the image of the nation at times of social unrest Focussing on the June 2013 protests in Brazil it examines how different actors authorities activists the national media foreign correspondents disseminated competing versions of what Brazil was during that pivotal episode The book offers a fresh conceptual approach supported by media coverage analysis and original interviews that demonstrates the potential of digital media to challenge power structures and establish new ways of representing the nation It also highlights the vulnerability of both old and new media to forms of inequality and disruption due to political interferences technological constraints and continuing commercial pressures Contributing to the study of media and the nation as well as media and social movements the author throws into sharp relief the profound transformation of mediated nationhood in a digital and global media environment

Settlements and Displacement in Turkey Özlem Erdoğan Erkarıslan, Ela Alanyalı Aral, 2023-09-29 This book explores the complex relationship between urban space and displacement in Turkey It evaluates how the displacement of people and cultures has affected the spatiotemporal landscapes of the nation at different periods of contemporary Turkey with an emphasis on various narratives of the relocating population and their relationship to the environment Contemporary cities are constantly changing due to the movement of people from different regions resulting in shifting population patterns globally Understanding displacement and its effects on space are crucial in studying this phenomenon as it not only involves the physical relocation of individuals but also the transfer of cultural practices within a condensed timeframe This process changes the destination of settlements irreversibly This book takes a methodological approach and disciplinary approach examining the migration and displacement of people and its effects upon art architecture culture and politics in Turkish cities This book will be of interest to students and scholars interested in migration and its effects on cities urban planning and

architecture Exclusion and Inclusion in International Migration: Power, Resistance and Identity Armağan Teke Lloyd, 2019-04-30 People on the move face new barriers in a globalizing world Some of these barriers are related with the rise of an increasingly security oriented approach towards international migrants Notwithstanding the forces of globalization states have maintained their monopoly power over whom to admit and whom to deny within their borders In other words they remain the sovereign authority regulating the entry and exit of people However in recent years a number of states have singled out international immigration as the greatest political and social threat to their cultural and national security The securitization of immigration is founded upon the premise that the international movement of people represents an exceptional risk for the survival of the nation and this is often associated with terrorism instability and criminality The securitization of immigration is also based on the idea that the traditional authority vested in states to regulate immigration is somehow insufficient and needs to be enhanced These assumptions correspond with a real policy shift in some countries such as the United States where the government is planning to spend approximately 23 Billion Dollars on border security and immigration enforcement in 2019 alone This edited volume is an exploration of the global landscapes inhabited by refugees and labour migrants although the focus is largely on the former Despite the fact that most of the empirical studies are drawn from within Europe the book also includes research on Nepal Australia the Middle East and Japan in order to reveal the truly global dimensions of migration and the regimes governing this Content INTRODUCTION by Arma an Teke Lloyd PART A Ideology and Governance of Migration CHAPTER 1 Coming to Terms with Liberal Democracy by the Populist Radical Right Parties of Western Europe Evidence from European Parliament Speeches over Minorities and Migration by Caner Tekin CHAPTER 2 A Forest with many trees Mapping migration governance and the dispersion of authority in Europe by Lisa Marie Borrelli Rebecca Mavin and Giorgia Trasciani CHAPTER 3 Policing Migrants in Transit and Upon Arrival The Bordering Tactic of Integration in Austria and Germany by Olivia Johnson PART B Regulations Suspension of Human Rights CHAPTER 4 Borders Exception and Sovereignty Australia s Migration Policies as Instruments of Suspension of Human Rights and International Obligations by Ana Carolina Macedo Abreu CHAPTER 5 Power and Sandwiched Sovereignty Nepali Migrant Workers in the Gulf Countries by Hari KC CHAPTER 6 The Body and Embodied Experiences in the British Asylum System Developing a Conceptual Perspective by Rebecca Mavin CHAPTER 7 Eritrean Unaccompanied Refugee Minors in The Netherlands Wellbeing and Health by Anna de Haan Yodit Jacob Trudy Mooren and Winta Ghebreab PART C Migrants Strategies and Identities CHAPTER 8 Social Inclusion Processes for unaccompanied minors in the city of Palermo Fostering Autonomy through a New Social Inclusion Model by Roberta Lo Bianco and Georgia Chondrou CHAPTER 9 Urban Resistances and Migrant Activism Challenging the Border Regime in Madrid City by Ana Santamarina and Almudena Cabezas CHAPTER 10 RefConnect A Mobile Social Network for Refugees by Evdokia Kogia Styliani Liberopoulou Nikolaos Alamanos Vasilis Pierros and Christos Michalakelis CHAPTER 11 Halo Halo Nostalgia and Navigating Life for Overseas Filipino

Workers OFW s in the Kingdom of Saudi Arabia by Simeon S Magliveras *Seeing Whole* Asbjørn Grønstad, Mark Ledbetter, 2016-02-08 *Seeing Whole* Toward an Ethics and Ecology of Sight explores the ways in which seeing as an embodied process is always a multivalent ambiguous and holistic undertaking Looking at an image entails the mobilization of a range of affordances that together produce sight and insight as a phenomenological experience namely cultural predispositions geographical situatedness medium specificity personal biography socio political relationality and corporeal affectibility In their own diverse ways the essays in this book suggest that acts of seeing make up a visual ecology that in turn introduces a new ethical horizon distinct from but in continuous interaction with conventional ethics Spanning a great variety of media forms from painting and photography to film video literature fashion graffiti and installation art this interdisciplinary collection offers a thorough reconceptualization of the relation between the aesthetics and the ethics of images and represents an innovative addition to the field of visual culture studies *Engaging Ambience* Brian McNely, 2024-04-22 *Engaging Ambience* is an in depth exploration of contemporary rhetorical theory drawing from rich traditions of visual and sensory research It is the first book to develop comprehensive empirical approaches to ambient rhetoric and the first to offer systematic approaches to visual research in studies of rhetoric and writing These approaches address the complexities of everyday life and offer practical advice for understanding the factors that shape individuals and communities how they understand one another and the kind of world they envision By articulating theoretically sound methodologies and methods for the empirical study of rhetoric conceived as originary immanent and enveloping Brian McNely contributes a methodological perspective that furthers new materialist theories of rhetoric McNely demonstrates how scholars emergent theories of rhetoric call for new methodologies that can extend their reach and in the process he proposes a new conception of visual rhetoric *Engaging Ambience* delineates methodologies and methods that help researchers in rhetoric and writing studies discover the ambient environments that condition and support everyday communication in all its forms *Engaging Ambience* details and demonstrates visual and multisensory methodologies and methods for exploring the wondrous complexity of everyday communication It will appeal to scholars and students of rhetorical theory visual and multisensory rhetorics and composition and writing studies **Police on Camera** Bryce Clayton Newell, 2020-10-18 Police body worn cameras BWCs are at the cutting edge of policing They have sparked important conversations about the proper role and extent of police in society and about balancing security oversight accountability privacy and surveillance in our modern world *Police on Camera* address the conceptual and empirical evidence surrounding the use of BWCs by police officers in societies around the globe offering a variety of differing opinions from experts in the field The book provides the reader with conceptual and empirical analyses of the role and impact of police body worn cameras in society These analyses are complimented by invited commentaries designed to open up dialogue and generate debate on these important social issues The book offers informed critical commentary to the ongoing debates about the

implications that BWCs have for society in various parts of the world with special attention to issues of police accountability and discretion privacy and surveillance This book is designed to be accessible to a broad audience and is targeted at scholars and students of surveillance law and policy and the police as well as policymakers and others interested in how surveillance technologies are impacting our modern world and criminal justice institutions

Women in Business Families Jarna Heinonen, Kirsi Vainio-Korhonen, 2018-03-28 For centuries almost all economic activity was family based The family business rested on the division of labor among family members Therefore the family was both socially and economically the foundation of the family business Families were not only production units but also education and consumption units that conveyed norm structures values and professional identity to next generation Although female family members have always been active participants in family businesses over the centuries their role has often been neglected in previous studies Women in Business Families From Past to Present presents both conceptual and theoretically informed empirical papers addressing three related themes relevant for family business and gender in past and in present heroic women entrepreneurs invisibility visibility of women in businesses and business succession The book Women in Business Families From Past to Present balances between both historical and contemporary analyses The chapters integrate the notions of time and gender in focusing on family businesses or business families in past and in present This volume will be of vital reading to researchers and academics in the fields of Gender Studies Family Business Organizational studies Entrepreneurship and the various related disciplines

The Digital Prism Mikkel Flyverbom, 2019-10-17 We live in times of transparency Digital technologies expose everything we do like and search for and it is difficult to remain private and out of sight Meanwhile many people are concerned about the unchecked powers of tech giants and the hidden operations of big data artificial intelligence and algorithms and call for more openness and insight How do we as individuals companies and societies deal with these technological and social transformations Seen through the prism of digital technologies and data our lives take new shapes and we are forced to manage our visibilities carefully This

book challenges common ways of thinking about transparency and argues that the management of visibilities is a crucial but overlooked force that influences how people live how organizations work and how societies and politics operate in a digital datafied world *Society of Singularities* Andreas Reckwitz,2020-04-21 Our contemporary societies place more and more emphasis on the singular and the unique The industrial societies of the early 20th century produced standardized products cities subjects and organizations which tended to look the same but in our late modern societies we value the exceptional unique objects experiences places individuals events and communities which are beyond the ordinary and which claim a certain authenticity Industrial society s logic of the general has been replaced by late modernity s logic of the particular In this major new book Andreas Reckwitz examines the causes structures and consequences of the society of singularities in which we now live The transformation from industrial to cultural capitalism the rise of digital technologies and their culture machine and the emergence of an educated urban new middle class form a powerful engine for the singularization of the social In late modernity what is singular is valorized and stirs the emotions while what is general has to remain in the background and this has profound social consequences The society of singularities systematically produces devaluation and inequality winner takes all markets job polarization the neglect of rural regions and the alienation of the traditional middle class The emergence of populism and the rise of aggressive forms of nationalism which emphasize the cultural authenticity of one s own people thus turn out to be the other side of singularization This prize winning book offers a new perspective on how modern societies have changed in recent decades and it will be of great value to anyone interested in the forces that are shaping our world today **Conceptualizing International Practices** Alena Drieschova,Christian Bueger,Ted

Hopf,2022-06-23 This book brings together the key scholars in the international practice debate to demonstrate its strengths as an innovative research perspective The contributions show the benefit of practice theories in the study of phenomena in international security international political economy and international organisation by directing attention to concrete and observable everyday practices that shape international outcomes The chapters exemplify the cross overs and relations to other theoretical approaches and thereby establish practice theories as a distinct IR perspective Each chapter investigates a key concept that plays an important role in international relations theory such as power norms knowledge change or cognition Taken together the authors make a strong case that practice theories allow to ask new questions direct attention to uncommon empirical material and reach different conclusions about international relations phenomena The book is a must read for anyone interested in recent international relations theory and the actual practices of doing global politics

Animated Lands Andrea Mubi Brighenti,Mattias Karrholm,2020-11 Andrea Mubi Brighenti and Mattias K rrrholm focus on territory as a living phenomenon and territoriality as an active and constantly reshaping force Hybrid Media Culture Simon Lindgren,2013-10-30 The distinction between online and offline realities is becoming more and more difficult to sustain As computer mediated communication evolves and as interaction becomes more and more dependent on the Internet

social cultural and political aspects begin to get caught and entangled in the web of contemporary digital communication technologies Digital tools and platforms for communication are progressively becoming commonplace while the cultural conceptions that surround these technologies immediacy constant accessibility availability are becoming increasingly mainstream Hybrid Media Culture is an interdisciplinary exploration of how the online and the offline interact in present day culture In the aftermath of all encompassing perspectives on postmodernisation and globalization there is now a pressing need for scholars of new media and society to come to terms with issues of place embodiment and materiality in a world of virtual flows and cyber culture This book explores ways of conceptualizing the intricate intermingling of the online and the offline through case studies of hybrid media places including user generated videos about self harm visibility surveillance and digital media digital communication tools and politics and physical and virtual churches This interdisciplinary edited collection investigates the effects of the internet and digital culture on perceptions and uses of identities bodies and localities It will be of interest to students and scholars of digital culture sociology media and communications studies new media body studies politics and science and technology studies
