Visual Communication Theory And Research A Mass Communication Perspective:

Visual Communication Theory and Research S. Fahmy, M. Bock, W. Wanta, 2014-05-01 In today's multimedia environment visuals are essential and expected parts of storytelling. However, the visual communication research field is fragmented into several sub-areas making study difficult. Fahmy, Bock, and Wanta note trends and discuss the challenges of conducting analysis of images across print, broadcast, and online media. *Visual Communication Theory and Research*. Fahmy, M. Bock, W. Wanta, 2014-05-01 In today's multimedia environment visuals are essential and expected parts of storytelling. However, the visual communication research field is fragmented into several sub-areas making study difficult. Fahmy, Bock, and Wanta note trends and discuss the challenges of conducting analysis of images across print, broadcast, and online media. *Visual Communication* Georgia Aiello, Katy Parry, 2019-10-28 *Visual Communication: Understanding Images in Media and Culture* provides a theoretical and empirical toolkit to examine implications of mediated images. It explores a range of approaches to visual analysis while also providing a hands-on guide to applying methods to students' own work. The book illustrates a range of perspectives from content analysis and semiotics to multimodal and critical discourse analysis. It explores the centrality of images to issues of identity and representation, politics and activism, and commodities and consumption. It brings theory to life with a host of original case studies from celebrity videos on YouTube and civil unrest on Twitter to the lifestyle branding of Vice Media and Getty Images. Shows students how to combine approaches and methods to best suit their own research questions and projects. An invaluable guide to analysing contemporary media images, this is essential reading for students and researchers of visual communication and visual culture. **The Routledge Companion to Visual Journalism** Nicole Dahmen, T.J. Thomson, 2025-09-02 Representing the first collection of its kind, *The Routledge Companion to Visual Journalism* introduces fundamental topics and ideas, delineates the diversity and complexity of this growing field, and creates a foundation for future scholarship and study. In the contemporary digital media landscape, still and moving images, interactive visualizations, and virtual reality are increasingly important to attract attention, cultivate engagement, inform and influence opinions, and provide a more emotive and immediate viewing experience for news audiences. This Companion draws together leading voices from academia and industry to survey this dynamic and ubiquitous mode and inspire dialogue. Along with an introduction and conclusion, the volume is structured in five sections and covers people and identities, practices and processes, technologies, equipment and forms, theories, concepts and values, and audience interpretation and impact. Beginning by looking at the history of visual news, chapters go on to explore how visual news is created, how journalists visually represent gender, race, sexuality, disability, elites, and ordinary citizens, key ethical ideas, and theories behind the creation of visual news, and how visual news is processed, drawing in research from eye tracking, media psychology, and media literacy. The book ends with a critical look at the future of the field. *The Routledge Companion to Visual Journalism* is a recommended resource for all advanced students and researchers of visual journalism and communication.

Visual Journalism and Verification at War Maria Nilsson,Anne Hege Simonsen,2025-03-07 Considering the visual coverage of the war in Ukraine this book provides critical insights into how newsrooms make use of visual materials how visuals partake in journalistic storytelling in a modern wartime context and how visual journalism practices affect the news media s role as arbiter of accuracy and ethics Based on a mixed methods study

including analyses of selected visually driven news stories and interviews with media professionals in Norwegian and Swedish national media outlets houses this book examines the news media's approach to the visual coverage of the war in Ukraine following Russian invasion in 2022. The work is theoretically underpinned by ongoing boundary work within journalism and editorial negotiations over issues such as verification, source criticism and trust, witnessing and ways of seeing and ethical gatekeeping in photojournalism. At a juncture of rising concerns over AI, public distrust and propaganda, this study adds a real time aspect to these debates and reveals challenges as well as emerging strategies in the unfolding coverage. Furthermore, the comparative Scandinavian context serves to highlight points of tension between the global and the local, between those newsrooms relying on global image brokers and those conducting their own in-house reporting. Written for researchers and advanced students of Visual Journalism and Conflict Reporting, this book is a timely intervention.

Law and Culture Mateusz Stępień, Jan Bazyli Klakla, 2021-10-28 Divided into three parts, this book examines the relationship between law and culture from various perspectives, both theoretical and empirical. Part I outlines the framework for further considerations and includes new, innovative conceptualizations of two ideas that are essential to the topic of law and culture: legal culture and customary law. Both of these reappear later in the more empirically oriented chapters of Parts II and III. Part II includes chapters on the relationships between law, customs and culture, drawing heavily on the tradition and achievements of the anthropology of law and touching on important problems of multiculturalism, legal pluralism and cultural defense. It focuses on the more intangible meaning of culture, while Part III addresses its more material, tangible aspects and the issue of cultural production as well as its intersection with law.
