ecosocialist journal Climate and Capitalism and Simon Butler is co editor of Green Left Weekly **Winston's War** Max Hastings, 2010-04-27 A vivid and incisive portrait of Winston Churchill during wartime from acclaimed historian Max Hastings Winston's War captures the full range of Churchill's endlessly fascinating character At once brilliant and infuriating self important and courageous Hastings's Churchill comes brashly to life as never before Beginning in 1940 when popular demand elevated Churchill to the role of prime minister and concluding with the end of the war Hastings shows us Churchill at his most intrepid and essential when by sheer force of will he kept Britain from collapsing in the face of what looked like certain defeat Later we see his significance ebb as the United States enters the war and the Soviets turn the tide on the Eastern Front But Churchill Hastings reminds us knew as well as anyone that the war would be dominated by others and he managed his relationships with the other Allied leaders strategically so as to maintain Britain's influence and limit Stalin's gains At the same time Churchill faced political peril at home a situation for which he himself was largely to blame Hastings shows how Churchill nearly squandered the miraculous escape of the British troops at Dunkirk and failed to address fundamental flaws in the British Army His tactical inaptitude and departmental meddling won him few friends in the military and by 1942 many were calling for him to cede operational control Nevertheless Churchill managed to exude a public confidence that brought the nation through the bitter war Hastings rejects the traditional Churchill hagiography while still managing to capture what he calls Churchill's appetite for the fray Certain to be a classic Winston's War is a riveting profile of one of the greatest leaders of the twentieth century **Bighorn National Forest (N.F.), Land and Resource(s)**

The Letters of Marmot Brown Malgorzata Dunning Publishing,2005 Sissinghurst Victoria Sackville-West,Vita Sackville-West,Sarah Raven,2014-11-04 From 1946 to 1957 Vita Sackville West wrote a weekly column in the Observer about her gardening ideas drawing on her experiments and experiences at Sissinghurst Now Sarah Raven takes Vita s writings and adds her own to tell us th story of the garden Longevity and Quality of Life Robert N. Butler,Claude Jasmin,2012-12-06

Nations around the world are experiencing a spectacular increase in longevity Society as a whole is being challenged by issues arising from this revolution in longevity Although the specter of the loneliness and existential suffering of older citizens is such that some people under the age of 65 find it difficult to conceive of a long term future persons over 85 have proven that aging does not necessarily preclude a healthy and productive life Extraordinary progress in both curative and preventive medicine justifies optimism about the quality of life and state of well being that can be enjoyed even in great old age We should look to professionals in diverse fields to develop creative solutions to the inevitable issues that will arise with aging Governments must prepare for the future health of their citizens by making long term investments to educate all sectors of society in the value of good nutrition exercise and lifestyles that enhance well being throughout life Also governments should realize that the main cause of health care expenditure is serious illness which occurs in persons of all ages and not predominantly in older people Early detection can help save lives as well Health and longevity of life will

ultimately end as a political issue What is needed is long term government investments necessary for a viable health policy The question arises will world leaders be able to commit to such a policy Two major socioeconomic phenomena may have a regulating effect on this issue The first is the emergence of pressure groups that have come into being in response to a particular health issue such as AIDS The second is the emergence of ethics committees in developed nations that deal solely with health issues

Take It Easy, Vol 1 Talks on Zen Buddhism Osho, 2023-03-07 Religion is the vast sky of existence Reason is a tiny human phenomenon The reason has to be lost has to be dropped Only by going beyond the mind does one start understanding what is That s the radical change No philosophy can bring that radical change only religion Religion is non philosophic anti philosophic and Zen is the purest form of religion Zen is the very essence of religion Hence it is irrational it is absurd If you try to understand it logically you will be bewildered It can only be understood illogically It has to be approached in deep sympathy and love YOU CANNOT approach Zen through empirical scientific objective concepts They all have to be dropped It is a heart phenomenon You have to feel it rather than think it You have to BE it to know it Being is knowing And there is no other knowing
