Traduction Et Veille Stratégique Multilingue French Edition:

Translation and Interdisciplinarity Faruk Yücel, Mehmet Tahir Öncü, 2022-12-12 Interdisciplinarity is significant in the age of globalization and digitalization. It creates new opportunities through comparison and analysis of different findings and methods. Furthermore, it expands the boundaries of each discipline; each topic or phenomenon can be viewed under a whole new light. Instead of conventional or traditional methods, interdisciplinary cooperation can lead to innovative approaches that can contribute to the value of each discipline involved. It also requires respect and recognition between disciplines; their independent positions could be questioned or justified based on their interrelationship. Moreover, interdisciplinary work brings together diverse experts who cooperate and share their findings with each other. In this sense, interdisciplinarity can be seen as a dialogue between disciplines. In this complex interaction, a third field may emerge that transcends the boundaries of each independent discipline. Since relatively young Translation Studies has long been influenced by other disciplines, its boundaries could be defined through interdisciplinarity. In this book, numerous translation scholars engage with the relationship between translation and other disciplines. Translation here is not only to be understood as a transmission of texts but in a broader sense as denoting a transformation of different phenomena that could be studied both as a product and as a process.

Traduction et Veille stratégique multilingue, **Language for Specific Purposes** Giuliana Elena Garzone, Dermot Heaney, Giorgia Riboni, 2017-01-06 This volume brings together work by both well-known scholars and emerging researchers in the various areas of Language for Specific Purposes (LSP) such as political, legal, medical, and business discourse. The volume is divided into three parts in order to align rather than separate three different but related aspects of LSP: namely, translation, linguistic research, and domain-specific communication on the web. Underlying all the contributions here is the growing awareness of the ever-increasing multiformity of specialised communication and the ever-wider social implications of the communicative situations in which it is embedded, especially where it involves the need to move across languages, cultures, and modes as in translation and interpreting. The contributions consistently bear witness to the need to review received notions, pose new questions, and explore fresh perspectives. The picture that emerges is one of extreme complexity in which researchers, into specifically linguistic aspects of LSPs and their translation across languages and media, declare their awareness of the pressing need to come to terms with a wide range of social, pragmatic, intercultural, and political factors above and beyond socio-technical knowledge of the domains under investigation.
