

Required Reporting

Violations of the code of conduct, ethics or any fraud, waste or abuse must be reported. Not reporting fraud or suspected fraud can make you a party to a case by allowing the fraud to continue.

- Your organization must have internal mechanisms for reporting compliance & FWA concerns (your compliance office or compliance hotline)
- Your report may be anonymous
- You may also report concerns to the respective Medicare Advantage Organization or Part D Plan sponsor
- 1-800-MEDICARE.
- Fraud or suspected fraud may also be reported anonymously as outlined by any health plans on their web portals or your internal reporting mechanisms, or the MEDICS.

Everyone has the right and responsibility to report possible fraud, waste, or abuse.

Remember: You may report anonymously and retaliation is prohibited when you report a concern in good faith.

Managing Legal Compliance in the Health Care Industry George B. Moseley III, 2013-09-20 The pressures are mounting for healthcare organizations to comply with a growing number of laws and regulations With the passage of the Affordable Care Act sophisticated compliance programs are now mandatory and the penalties for noncompliance are more severe Increasingly those who are trained in the fundamentals of healthcare laws and regulations and the complexities of designing and running compliance programs will be in high demand Managing Legal Compliance in the Health Care Industry is a comprehensive resource that will prepare you to build and manage successful compliance programs for any healthcare service or industry In three sections this unique title first examines all the key laws and regulations with which healthcare organizations must comply In section two the author explores in detail the seven essential ingredients for a good compliance program In the final section the book explains how the compliance program must be adapted to the special needs of different types of healthcare organizations Managing Legal Compliance in the Health Care Industry is filled with highly practical information about the ways that legal violations occur and how good compliance programs function Examines in detail the current laws and regulations with which all types of healthcare organizations must comply Explores the seven essential ingredients for a good compliance program Looks at compliance programs within twelve different types of healthcare organizations References real world cases of fraud and abuse Includes Study Questions and Learning Experiences in each chapter that are designed to encourage critical thinking Healthcare compliance or Managing Healthcare Compliance Designed for administrators and legal counsel in health care organizations as well graduate level students in programs of public health health administration and law c 2015 582 pages Implementing a Comprehensive Research Compliance Program Aurali Dade, Lori Olafson, Suzan M. DiBella, 2015-07-01 The senior research compliance administrator has emerged as a critically important position as universities and other research organizations face an increasingly intricate regulatory environment These administrators are tasked with a special challenge ensuring that their institutions conduct safe ethical and compliant research while also helping researchers understand and meet compliance requirements and achieve their research goals These competing responsibilities can make the role of the research administrator complex however those who serve in this role may find that they have limited preparation for the challenges and little or no formal education in the field Thus the goal of this handbook is to provide practical guidance to research administrators who are responsible for a wide variety of compliance programs Previous volumes on these topics have focused primarily on educating research faculty staff and students An assumption in many of these handbooks is that all additional questions related to research ethics and regulations should be directed to the senior research administrator yet the books have limited guidance intended for the senior research administrators themselves This handbook is designed therefore to serve as a detailed program implementation manual for these administrators who are expected to be conversant on a broad range of complex ethical and

regulatory topics and to provide guidance to those conducting research as well as upper administration and others interested in safe ethical and compliant research
