Tut Application Forms For 2015:

Proceedings of the 10th World Congress on Engineering Asset Management (WCEAM 2015) Kari T. Koskinen, Helena Kortelainen, Jussi Aaltonen, Teuvo Uusitalo, Kari Komonen, Joseph Mathew, Jouko Laitinen, 2016-03-25 This book comprises refereed papers from the 10th World Congress on Engineering Asset Management WCEAM 2015 held in Tampere Finland in September 2015 These proceedings include a compilation of state of the art papers covering a comprehensive range of subjects equally relevant to business managers and engineering professionals alike With a focus on various aspects of engineering asset management ranging from strategic level issues to detail level machine health issues these papers address both industry and public sector concerns and issues as well as advanced academic research Proceedings of the WCEAM 2015 is an excellent reference and resource for asset management practitioners researchers and academics as well as undergraduate and postgraduate students at tertiary institutions or in the industry

Pervasive Computing Technologies for Healthcare Dario Salvi, Pieter Van Gorp, Syed Ahmar Shah, 2024-06-03 This book constitutes the refereed proceedings of the 17th EAI International Conference on Pervasive Computing Technologies for Healthcare PervasiveHealth 2023 held in Malm Sweden during November 27 29 2023 The 29 full papers and 6 short papers were selected from 90 submissions and are organized in thematic sessions as follows Pervasive Mental Health Privacy Ethics and Regulations Datasets and Big data Processing Pervasive health for Carers Pervasive Health in Clinical Practice Remote Monitoring Patient and User Aspects Motion and rehabilitation Workshop on the Internet of Things in Health Research Posters and demos non indexed annex

Intelligent Technologies and Applications Imran Sarwar Bajwa, Fairouz Kamareddine, Anna Costa, 2019-03-11 This book constitutes the refereed proceedings of the First International Conference on Intelligent Technologies and Applications INTAP 2018 held in Bahawalpur Pakistan in October 2018 The 68 revised full papers and 6 revised short papers presented were carefully reviewed and selected from 251 submissions The papers of this volume are organized in topical sections on AI and health sentiment analysis intelligent applications social media analytics business intelligence Natural Language Processing information extraction machine learning smart systems semantic web decision support systems image analysis automated software engineering

The Evolution of Knowledge Jürgen Renn, 2022-05-03 A fundamentally new approach to the history of science and technology This book presents a new way of thinking about the history of science and technology one that offers a grand narrative of human history in which knowledge serves as a critical factor of cultural evolution Jürgen Renn examines the role of knowledge in global transformations going back to the dawn of civilization while providing vital perspectives on the complex challenges confronting us today in the Anthropocene this new geological epoch shaped by humankind Renn reframes the history of science and technology within a much broader history of knowledge analyzing key episodes such as the evolution of writing the emergence of science in the ancient world the Scientific Revolution of early modernity the globalization of knowledge industrialization and the profound transformations wrought by

modern science He investigates the evolution of knowledge using an array of disciplines and methods from cognitive science and experimental psychology to earth science and evolutionary biology The result is an entirely new framework for understanding structural changes in systems of knowledge and a bold new approach to the history and philosophy of science Written by one of today's preeminent historians of science The Evolution of Knowledge features discussions of historiographical themes a glossary of key terms and practical insights on global issues ranging from climate change to digital capitalism This incisive book also serves as an invaluable introduction to the history of knowledge **Signal**

Processing for 5G Fa-Long Luo, Charlie Jianzhong Zhang, 2016-08-04 A comprehensive and invaluable guide to 5G technology implementation and practice in one single volume For all things 5G this book is a must read Signal processing techniques have played the most important role in wireless communications since the second generation of cellular systems It is anticipated that new techniques employed in 5G wireless networks will not only improve peak service rates significantly but also enhance capacity coverage reliability low latency efficiency flexibility compatibility and convergence to meet the increasing demands imposed by applications such as big data cloud service machine to machine M2M and mission critical communications This book is a comprehensive and detailed guide to all signal processing techniques employed in 5G wireless networks Uniquely organized into four categories New Modulation and Coding New Spatial Processing New Spectrum Opportunities and New System level Enabling Technologies it covers everything from network architecture physical layer down link and up link protocols and air interface to cell acquisition scheduling and rate adaption access procedures and relaying to spectrum allocations All technology aspects and major roadmaps of global 5G standard development and deployments are included in the book Key Features Offers step by step guidance on bringing 5G technology into practice by applying algorithms and design methodology to real time circuit implementation taking into account rapidly growing applications that have multi standards and multi systems Addresses spatial signal processing for 5G in particular massive multiple input multiple output massive MIMO FD MIMO and 3D MIMO along with orbital angular momentum multiplexing 3D beamforming and diversity Provides detailed algorithms and implementations and compares all multicarrier modulation and multiple access schemes that offer superior data transmission performance including FBMC GFDM F OFDM UFMC SEFDM FTN MUSA SCMA and NOMA Demonstrates the translation of signal processing theories into practical solutions for new spectrum opportunities in terms of millimeter wave full duplex transmission and license assisted access Presents well designed implementation examples from individual function block to system level for effective and accurate learning Covers signal processing aspects of emerging system and network architectures including ultra dense networks UDN software defined networks SDN device to device D2D communications and cloud radio access network C RAN **The Knowledge Triangle** Dirk Meissner, Leonid Gokhberg, Yaroslav Kuzminov, Mario Cervantes, Sylvia Schwaag Serger, 2021-12-02 This book helps readers understand how universities position themselves in the innovation landscape and the implications for national

policies It provides a scholarly discussion and best practice based insights to help answer questions like To what extent do funding and governance policies support activities within the knowledge triangle How should policies for universities be designed in countries with different industrial and higher education structures Are there ways to effectively link universities with regional enterprises and social actors And finally what are the new institutional models and best practices for overcoming obstacles to interaction collaboration and co creation

RNA-Based Cancer Therapeutics Narendra Kumar Sharma,Tikam Chand Dakal,Pawan Kumar Maurya,Gulshan Wadhwa,2025-04-17 By consistently dedicating efforts to multi omic and other high throughput technologies it is expected that RNA therapies will have a vital role in future personalized medicine approaches for cancer therapy Within this framework analyzing the genetic sequence of a patient s tumor would allow for the detection of crucial driver mutations or changes that cause resistance to drugs These mutations may then be targeted with RNA therapies that are particularly designed to treat those particular variations Recent clinical trials have shown that RNA based therapies hold great potential for treating several illnesses However further investigations are required to improve the delivery materials and understand the RNA alterations linked to these groundbreaking drugs in order to facilitate their integration into clinical practice Ideally these therapeutic substances would be specifically administered to the tumor cells of interest using a targeted delivery agent In this hypothetical situation the choice of medications for cancer patients would differ depending on the precise abnormalities detected in each person potentially including inhibitors that target circuits known to cause resistance to treatments However doing a more thorough assessment of the challenges and potential benefits discussed in each chapter would enhance the capacity to critically analyze this rapidly evolving field of therapies This book largely examines the latest developments and clinical studies related to RNA based medications while also examining the challenges and future possibilities linked with them This method shows potential for greatly improving the prognosis of cancer patients

Climate Change and Energy Dynamics in the Middle East Hassan Qudrat-Ullah,Aymen A. Kayal,2019-03-28 This edited volume presents chapters on the dynamics of global climate change and global warming in the Middle East In this region it should be noted that even slightly warmer weather can result in an increased demand of energy along with its lower supply as well as lower labor productivity This text focuses on modeling simulation system dynamics and agent based modeling in dealing with these issues The latest decision making tools techniques and innovative solutions used to overcome these challenges are presented Many distinguished researchers contribute their work herein The audience for this volume includes policy makers researchers and students unified by the common goal of making better decisions in the sustainable production and consumption of energy The practical orientation of the chapters within each part is intended to suit the practitioners managers and decision makers in the energy sector of the Middle East region

African Languages in Classrooms and Academia: Intellectualisation and Empowerment through Formal Education Xolisa Tshongolo, 2024-12-02 To date there have been few comprehensive books published which deal specifically with the role of African languages in academia and formal education Motinyane Mletshe and Tshongolo as editors have produced a book that fills this gap In this timely collection of 21 chapters written in African languages and English the contributors offer a critique of both language practice in the classroom as well as language planning policy creation and implementation challenges A timely and innovative contribution in the area of language in education teaching pedagogy as well as multilingualism

Assessment in Open, Distance, and e-Learning Jessica Evans, Sally Jordan, Freda Wolfenden, 2020-05-06 Universities across the globe are attempting to change assessment practices to address challenges in student engagement and achievement and to respond to a global employability agenda demanding evidence of a broader range of skills and competencies In the UK this has acquired urgency given the shift of higher education over the last 20 years from the prerogative of an elite minority to mass participation in a highly diversified market system Integral to this interrogation of objectives for assessment is the identified need to develop and improve academics assessment practice Strategies frequently focus on attendance at formal Continuous Professional Development events and or implementation of institutional blueprints This book showcases how scholarship as part of academics practice can be part of an academic toolkit for change that expands awareness and knowledge of the purposes and effects of the pedagogy of assessment The case studies ranging from assessment in Massive Open Online Courses MOOCs to assessment design for students whose first language is not English to the effectiveness of peer learning to support academic integrity and programme level assessment strategies are framed by an introduction that explores a communities of practice approach to the institution wide improvement of assessment It argues through a case study from The Open University OU that academics professional expertise is best deepened through participation in authentic activities of teaching and scholarship The discussion identifies what is involved in such an approach including the role of an enabling principles based framework the constraints on

implementation and the implications for leaders of teaching and learning This book was originally published as a special issue of the Open Learning journal Writing As Intermediary Korn, Lorenz ,Metzler, Berenike,2022-12-20 For the cultural history of the Islamic World writing has long been recognized as a highly important form of art as calligraphy has traditionally held a particular place in the perception of Islamic elites and their artistic practices The culture of calligraphy was intimately connected with the production of prestigious book manuscripts but reached a climax in the creation of single leaf calligraphies that were also highly appreciated by collectors in centres of Islamic culture from the Ottoman Mediterranean to post Timurid Central Asia Safavid Iran and Mughal India At the same time writing by its very nature fulfilled its age old functions of encoding verbal language as text The present volume approaches the variegated aspects of writing fathoming its ambiguous character between text and image It contains ten contributions that originated from a conference held at the University of Bamberg in 2019 These studies range from text image relations in precious manuscripts through the use of Chinese decorated paper for artistic book production the training of calligraphers and the process of design to the iconic character of writing in the layout of books single leaf works of calligraphy iconic writing in contemporary art to more theoretical considerations on aesthetic perception **Sexual Orientation and Transgender Issues in Organizations** Thomas Köllen,2016-04-25 Over the last decade workforce diversity has attracted much scientific attention Given the shortage of literature on issues related to homosexual bisexual and transgender employees compared to other facets of workforce diversity this book opens up new perspectives on this issue Emphasis is placed on the equal consideration of gay lesbian bisexual and transgender issues Thus the predominance of lesbian and gay issues in LGBT research and practice will be contrasted by an explicit consideration of the unique experiences stressors and related needs of bisexual and transgender employees Contributions provide deeper insights into the differing experiences the whole spectrum of LGBT employees make in the workplace in different national and occupational contexts Furthermore the collection offers contextualized insights for evaluating and conceptualizing organizational initiatives aiming at a higher level of inclusion for LGBT employees Decolonising Journalism Education in South Africa Ylva Rodny-Gumede,Colin Chasi,Zubeida Jaffer,Mvuso Ponono,2023-05-19 This book is the culmination of several years of collaborative work It is a unique contribution to the field of journalism because of the depth and variety of contributions it makes to the field The scholars who contribute to this volume respond to the great need to rethink journalism from various perspectives including journalism training research the contents of the news media language media ethics the safety of journalists and gender inequities in the news media In doing this they recognise how the societies that journalism address should themselves change **Planning in Cold War Europe** Michel Christian,Sandrine Kott,Ondrej Matejka,2018-10-08 The idea of planning economy and engineering social life has often been linked with Communist regimes will of control However the persuasion that social and economic processes could and should be regulated was by no means limited to them Intense debates on these issues

developed already during the First World War in Europe and became globalized during the World Economic crisis During the Cold War such discussions fuelled competition between two models of economic and social organisation but they also revealed the convergences and complementarities between them This ambiguity so often overlooked in histories of the Cold War represents the central issue of the book organized around three axes First it highlights how know how on planning circulated globally and were exchanged by looking at international platforms and organizations The volume then closely examines specificities of planning ideas and projects in the Communist and Capitalist World Finally it explores East West channels generated by exchanges around issues of planning which functioned irrespective of the Iron Curtain and were exported in developing countries The volume thus contributes to two fields undergoing a process of profound reassessment the history of modernisation and of the Cold War Theoretical Computer Science and Discrete Mathematics S.

Arumugam,Jay Bagga,Lowell W. Beineke,B.S. Panda,2017-08-14 This volume constitutes the refereed post conference proceedings of the International Conference on Theoretical Computer Science and Discrete Mathematics held in Krishnankoil India in December 2016 The 57 revised full papers were carefully reviewed and selected from 210 submissions The papers cover a broad range of topics such as line graphs and its generalizations large graphs of given degree and diameter graphoidal covers adjacency spectrum distance spectrum b coloring separation dimension of graphs and hypergraphs domination in graphs graph labeling problems subsequences of words and Parike matrices lambda design conjecture graph algorithms and interference model for wireless sensor networks **Fees Must Fall** Susan Booysen,2016-10-01 This book explores the student discontent a year after the start of the 2015 South African FeesMustFall revolt FeesMustFall the student revolt that began in October 2015 was an uprising against lack of access to and financial exclusion from higher education in South Africa More broadly it radically questioned the socio political dispensation resulting from the 1994 social pact between big business the ruling elite and the liberation movement The 2015 revolt links to national and international youth struggles of the recent past and is informed by black consciousness politics and social movements of the international left Yet its objectives are more complex than those of earlier struggles The student movement has challenged the hierarchical top down leadership system of university management and it s double speak of professing to act in workers and students interests yet entrenching a regressive system for control and governance University managements while on one level amenable to change have also co opted students into their ranks to create co responsibility for the highly bureaucratised university financial aid that stands in the way of their social revolution This book maps the contours of student discontent a year after the start of the FeesMustFall revolt Student voices dissect colonialism improper compromises by the founders of democratic South Africa feminism worker rights and meaningful education In depth assessments by prominent scholars reflect on the complexities of student activism its impact on national and university governance and offer provocative analyses of the power of the revolt

Disability in Ancient Egypt and Egyptology Alexandra F. Morris,Hannah Vogel,2024-12-13 This book explores

disability across time and space from ancient Egypt as a culture to Egyptology as a contemporary field to go beyond simply identifying disability encouraging readers to thoughtfully consider the history of disabled people in ancient Egypt and Egyptology Through a critical investigation this volume reshapes often overlooked narratives of disability within the discipline of Egyptology and Egyptian Archaeology Chapters explore evidence of disability the historiographical ways in which disability has been approached and how disability histories are mis represented in various contemporary spaces Coverage stretches across Egypt and Nubia from the Predynastic to the Roman periods as well as receptions of these cultures and disability in museums Its editors and many of its authors are disability community members who are experts in their respective professions comprising an international authorship and including voices from typically underrepresented groups Contributors range from early career researchers to senior scholars as well as those working outside of and adjacent to academia While focusing on ancient Egypt and Egyptology this volume offers new ways to consider disability in the broadest possible sense It uses terminology informed by the disability community and offers guidance for disability inclusivity in curatorial and pedagogical museum and university contexts It prioritises disability as an essential area of research in ancient world studies and platforms both ancient and modern disabled voices The deep detailed exploration into disability in the past and in our discipline offered by this book inspires readers to further explore and appreciate the infinite diversity of the human experience in all its infinite combinations The first book length treatment of the subject Disability in Ancient Egypt and Egyptology provides a much needed resource for students and scholars of ancient Egypt Egyptology and disability in the ancient world It is also suitable for researchers in Disability Studies practitioners in broader ancient world studies and museum and heritage professionals Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
