Pensamiento universitario. Propuesta educativa, 2006 **La educación y el proceso autonómico. Volumen X** Ministerio de Educación, 1995 Reconstruir la universidad a través del cambio cultural Marina Tomàs i Folch, Carme Armengol Asparó, 2006 Este libro recoge las principales aportaciones de las investigaciones del equipo de investigación Cambio de Cultura en las Universidades Catalanas Va dirigido a responsables de la docencia y de la gestión universitaria y estudiosos del cambio y la innovación así como a profesores y estudiantes de segundo y tercer ciclo que deseen profundizar sobre el presente y el futuro de la universidad **Manual para Tutores de MIR**, Enfoques y aplicaciones prácticas en Orientación y Acción Tutorial Pilar Blasco Calvo, Alfredo Pérez Boullosa, 2012-09 La escuela orientadora Jordi Longás Mayayo, Núria Mollá, 2007-02-02 The book proposes a school where the students and their development is the priority The teachers main task is to assist students in a personalised manner and to help them in their process of growth and development The entire school should be guidance oriented It should provide an environment where relationships among all staff members take place from the security guard to the principal In this environment students will find the help and resources needed by them to develop their autonomy and build their future The book suggests a credible program that can be recreated in other educational centres and demonstrates how guidance could be the soul of the school **La educación**

y el proceso autonómico. Volumen XIII Ministerio de Educación, 1982 *La escuela orientadora* Jordi Longás, Núria Mollá, 2023-05-22 Este libro coincide con la ya incuestionable necesidad de ampliar las funciones de la escuela y también con las voces que aseguran que mientras los centros educativos no procuren el bienestar socioafectivo de quienes la integran tienen cada vez más difícil su tarea Se propone una escuela más centrada en el alumno y sus procesos Se redimensiona el concepto de tutoría y de acción tutorial de manera que toda la escuela sea el espacio de relaciones en el que los diferentes profesionales desde el conserje a la dirección hagan posible que sus alumnos encuentren ayuda y recursos para desarrollar su autonomía y construir su itinerario personal Lo bueno de la propuesta es que no es teórica pues se trata de un proyecto real

que muestra cómo la orientación puede ser el motor de la escuela **Educación superior y Programa Nacional de Educación, 2001-2006**, 2005 **Investigación educativa ante los actuales retos migratorios** José María Romero Rodríguez, María Pilar Cáceres Reche, Magdalena Ramos Navas-Parejo, Juan Carlos de la Cruz Campos, 2021-12-31 Uno de los objetivos que se pretende con esta obra es que los investigadores y educadores se mantengan al tanto de la literatura trascendente en el campo de las experiencias e investigaciones en contextos educativos tanto en general como en relación con sus áreas particulares de interés más allá de las revisiones sistemáticas y metanálisis. La obra que se presenta aquí puede ayudar a los educadores e investigadores a comprender las áreas de interés relativas relacionadas con diferentes aspectos de la evaluación e investigación de tecnologías de aprendizaje por ejemplo aprendizaje comportamiento aspectos afectivos etc. También puede servir para saber qué hallazgos clave han surgido a través de varias revisiones sistemáticas de la literatura sobre investigaciones en contextos educativos de modo que podamos contribuir a desarrollar una comprensión de los temas y problemas que parecen trascender los diferentes contextos así como aquellos aspectos del uso de las nuevas experiencias educativas vinculadas con las tecnologías emergentes. Finalmente con las exposiciones de contenidos transversales los autores pueden proponer nuevas líneas de investigación que ayuden a resaltar los problemas educativos de nuestra cambiante sociedad. Por ejemplo se pueden proponer áreas disciplinarias en las que sería útil tener más evaluación e investigación de tecnologías de aprendizaje o aspectos de la evaluación de tecnologías de aprendizaje aprendizaje comportamiento elementos afectivos etc que se revisan con menos frecuencia en niveles particulares de educación o cómo mejorar la calidad de las futuras experiencias educativas.
