Twilight Saga Movie Guide:

The Binge Watcher's Guide to the Twilight Saga Rachel Zimny, 2022-04-21 In 2008 the first Twilight movie was released in the United States The book series it was based on had already gained best seller status and a devoted fanbase but the five movies known as The Twilight Saga propelled this supernatural romance to unbelievable heights Everyone had something to love hate or comment about regarding the forbidden love story between paranormal creatures and humans More than a decade since the last of the films was released the Twilight Saga remains a pop culture sensation Much of the conversation around it has changed over the years as its primary fanbase has grown into adulthood Many have called into question the details that kept the public swooning The implications of so much that makes the series what it is looks much different in public opinion than they did while it was in the height of its popularity The Binge Watcher's Guide to the Twilight Saga aims to explore this work with a critical and respectful eye as you watch Consider it your slightly judgmental best friend This guide also includes movie trivia soundtrack lists and the series Lore It's a one stop shop to all you need to know about the films Whether you're a first time watcher or a long time fan the book will accompany you on the journey that is the Twilight movies
