UBUNTU Contributionism Michael Telling, 2013 *UBUNTU Contributionism A Blueprint For Human Prosperity* The path that brought us here as a species is not only filled with lies and deception of unimaginable proportion but also with continuous manipulation of the human race that goes back thousands of years all controlled by money Michael Telling has come full circle since his epic *Slave Species of god* in 2006 by proposing a blueprint for the emancipation of the slave species called humanity Telling exposes the previously misunderstood origins of money and the rise of the royal banking elite that have controlled the world for millennia and continue to do so today through the modern banking families He points out that money did not evolve from thousands of years of barter and trade but that it was maliciously introduced to the human race as a tool of absolute control and enslavement Telling makes a strong case that if we do not understand our human origins we cannot come to terms with why the world is so messed up in the 21st century He demonstrates that our current situation presents us with a unique opportunity to change the course of our destiny Michael Telling describes how the ancient African philosophy of UBUNTU will allow us to seamlessly move from a divided money driven society to united communities driven by people their passion for life and their God given talents Coming to terms with our enslavement as a species is critical to discovering the path to full enlightenment UBUNTU Contributionism presents a solid foundation for a new social structure to take us into a new era of true freedom from financial tyranny and real prosperity on every level of human endeavour Find out about the UBUNTU Movement's plan of action called ONE SMALL TOWN Will Change The World Get involved and become a seed of consciousness and real change in your community www.ubuntuplanet.org **Earthrise:**

Translation Revisited Mamadou Diawara, Elísio S. Macamo, Jean-Bernard Ouédraogo, 2019-01-17 How realistic is it to expect translation to render the world intelligible in a context shaped by different historical trajectories and experiences Can we rely on human universals to translate through the unique and specific webs of meaning that languages represent If knowledge production is a kind of translation then it is fair to assume that the possibility of translation has largely rested on the idea that Western experience is the repository of these human universals against the background of which different human experiences can be rendered intelligible The problem with this assumption however is that there are limits to Western claims to universalism mainly because these claims were at the service of the desire to justify imperial expansion This book addresses issues arising from these claims to universalism in the process of producing knowledge about diverse African social realities It shows that the idea of knowledge production as translation can be usefully deployed to inquire into how knowledge of Africa translates into an imperial attempt at changing local norms institutions and spiritual values Translation in this sense is the normalization of meanings issuing from a local historical experience claiming to be universal The task of producing knowledge of African social realities cannot be adequately addressed without a prior critical engagement with how translation has come to shape our ways of rendering Africa intelligible

The Self-Explorer's Handbook Caspar de Rijk, 2015-12-21 This book offers a new and simplified approach to explore the mind with the imagination The book is Volume 1 of a planned series with the title Multi Genius Technology for Consciousness The main thesis is that by use of the imagination any and all limiting mental conditions can be resolved and consciousness itself can be infinitely expanded The book opens with a sketch of the underlying philosophical principles defines a multiple viewpoint

system and concepts such as absolute consciousness truth the true self causation and reality The general science and theory is given in the second part of this book answering questions and covering subjects like the following Is there a science of consciousness or mind What is known about the subject What can we be sure of What is the structure of consciousness and minds What do we know about thought the self the unconscious A view is presented of an ideal state of man as well as a theory of personal harmony and the cause of distress Different methods are described in detail but it is also made clear that some training will be needed for most to practice the type of self exploration advised in the book Meditation is stripped to the bare bone essentials of pure perception which the author calls Basic Meditation Stressed is the importance and quality of communication in processing The main technique is called Universal Imagination Processing and uses principles going back to Freud and Jung s active imagination The term Quantitative Easing known otherwise from central bank monetary policy is given an entirely new meaning in the context of reprocessing unfortunate past experiences Self exploration is given a programmed sequence of steps and techniques which are called Consciousness Exploration Routes which culminate in an approach to unity consciousness The final part of the book shows how a heightened consciousness would translate over into life and introduces concepts of integral beingness and integral thinking The Golden Rule and the Games People Play Rami Shapiro,2015-10-19 This philosophical game changer looks critically at the Golden Rule in the context of game theory to see where it works and where it doesn t when it is applicable and when it isn t It shows you why knowing the difference can offer you a powerful way to transform your life from one driven by fear to one driven by love Who Am I? What Am I? Why Am I Here? Geoffrey Barraclough,2015-11-18 Your fate your destiny your inner energy vibrations has led you to this life changing book As you peruse this cover and try to decide whether this information is for you or not at this moment in time the decision has already been made If you are ready you will read it if you are not yet ready you will put it down unread As one day you may find out there are no flukes in your life everything that happens to you is predetermined is for a purpose Of course you unconsciously cause things to happen in one way or another by your actions reactions or nonactions But nothing ever happens by random accident Your life is full of limitless potentials that are restricted only by your mind set So now you are here do you read this book or not Whatever path you are currently on will answer that question for you no need to cogitate over the choice Simply trust your innate feelings right now and go with them and whatever you chose to do was meant to be at this point in your current life experience *Society After Money* Project Society After Money,2019-04-18 Project Society After Money is an interdisciplinary project between commons theory evolutionary political economy media studies and sociology that enter into a dialogue with one another in order to look at their specific theories and criticisms of money Conceived as the beginning of a necessary interdisciplinary dialogue the possibilities of post monetary forms of organization and production are taken into account and examined On one hand there is a lot of talk about digital revolution mediatized society networks Industry 4 0 On the other hand the present is described in terms of crisis financial crisis

economic crisis planetary boundaries At once there is the description of a media technological change along with massive social and ecological disruptions Society After Money is based on the premise that there might be a conflict between digital media digital technology and the medium of money and perhaps new digital possibilities that allow alternative forms of economy It criticizes what is normally seen as self evident and natural namely that social coordination has to be done by the medium of money We re left with a highly innovative collection of contributions that initiates a broader social discourse on the role of money in the global society of the 21st century **Vistopía** Clare Mann,2021-07-14 Hace una d cada despu s de volverse vegana Clare Mann comenz a defender los derechos de los animales en conferencias festivales y en l nea Los veganos vinieron a verla directamente o le dijeron a sus m dicos que s lo quer an ver a practicantes veganos ya que sus dolores aumentaron cuando les dijeron que ten an depresi n o que no juzgaran al mundo con tanta dureza Clare cree que no eran necesariamente enfermos mentales pero que demostraron las reacciones normales de sentirse humanos despu s de descubrir el encubrimiento del abuso animal industrializado Clare es un testigo contundente de la angustia de conocer el abuso sistematizado de los animales en la sociedad Necesitaba un nombre para lo que ella cree que es una desesperaci n existencial y encontrar soluciones para los veganos evitando la medicalizaci n de la enfermedad Vistop a es el nombre que Clare cre para explicar la experiencia del vegano y este libro le ofrece a los veganos una forma de navegar por su dolor y convertirse en los campeones necesarios para crear un mundo m s compasivo **Integral Renewal** Dr Alexander Schieffer,Professor Ronnie Lessem,2015-06-28 In 2010 Ronnie Lessem and Alexander Schieffer published their seminal work on Integral Research and Innovation whereby they identified the four R s relational and renewal reason and realization based research paths that altogether encompass the major qualitative research methods and methodologies Within each path they identified a trajectory from origination to transformation via foundation and emancipation However these paths underlying the research process conventionally termed method were disconnected from the integral economic and enterprise content conventionally termed literature with which they were concerned In this book Integral Renewal they seek to remedy such in two major respects As transformative masters and PhD programs are focused on the Global South where the vast majority of the world s population is based as well as those developmental agencies focused on such the great majority of the people with whom the authors deal select the relational research path and the path of renewal over and above the paths of reason and realization The focus of this book will be on these two paths of integral research now interconnected with integral enterprise and economics Uniquely the authors pursue research and innovation in a systematic way In that respect while their prior Integral Research book still provides the research foundation for the four southern and eastern northern and western paths this book will focus on the former two relational southern and renewal eastern from the combined perspectives of research process and economic and enterprise content **Literature and Culture in Global Africa** Tanure Ojaide,2017-07-06 Exploring the idea of a Global Africa this book examines how African literary and cultural productions
