Understanding Deaf Culture In Search Of Deafhood:

Understanding Deaf Culture Paddy Ladd, 2003-02-18 This book presents a Traveller's Guide to Deaf Culture starting from the premise that Deaf cultures have an important contribution to make to other academic disciplines and human lives in general. Within and outside Deaf communities there is a need for an account of the new concept of Deaf culture which enables readers to assess its place alongside work on other minority cultures and multilingual discourses. The book aims to assess the concepts of culture on their own terms and in their many guises and to apply these to Deaf communities. The author illustrates the pitfalls which have been created for those communities by the medical concept of deafness and contrasts this with his new concept of Deafhood a process by which every Deaf child, family and adult implicitly explains their existence in the world to themselves and each other. *Introduction to Deaf Culture* Thomas K. Holcomb, 2023 You are about to enter the realm of Deaf culture a world that may be completely new to you. Intriguingly insiders and outsiders to this world may regard it in two completely different fashions. Let us examine this contradiction with the proverbial glass of water that can be viewed as either half full or half empty. *In Search of Deafhood* Paddy Ladd, 1999 Deafness, community and culture in Britain Martin Atherton, 2018-02-28 Setting a case study of deaf people's leisure practices in north west England within a wider examination of communal deaf leisure across Britain this book offers new insights into a misunderstood and misrepresented community. The book provides a detailed analysis of deaf people's leisure during the second half of the twentieth century which questions perceptions of deafness as a disability, investigates the importance of shared leisure in community formation more generally and examines the ways in which changing patterns of socialisation are affecting British society. Although focusing on the British deaf community the concepts and principles explored in this book can be applied across a wide range of social, cultural and ethnic groups. This book draws upon a wide range of subject areas and will consequently be of interest to students and academics working in the fields of disability, history, community and cultural minority studies, sport, leisure and regional studies. **Encyclopedia of Disability** Gary L. Albrecht, 2006 Presents current knowledge of and experience with disability across a wide variety of places, conditions and cultures to both the general reader and the specialist. *Theology without Words* Wayne Morris, 2016-02-17 This book is a study of a Christian theology without words focussing on theology in the Deaf Community. Deaf people's first and preferred method of communication is not English or any other spoken language but British Sign Language a language that cannot be written down. Deaf people of faith attend church on a regular basis, profess faith in God and have developed unique approaches to doing theology. While most Western theology is word-centred and is either expressed through or dependent on written texts, theology in the Deaf Community is largely non-written. This book presents and examines some of that theology from the Deaf Community and argues that written texts are not necessary for creative theological debate, a deep spirituality or for ideas about God to develop. Communication and the Global Landscape of Faith Adrienne E. Hacker Daniels, 2016-04-27 In light of more

recent conversations about religion and its import as a factor in the global geopolitical and cultural spheres augmented by the contracting of relationship among people and nations Communication and the Global Landscape of Faith highlights geographical architectural and a partial issues as significant and edifying dimensions of the study of communication and religion Insights are gleaned through the prism of the philosophical built performative political and intercultural landscapes
