of film histories to the persistent strictures of rhetorical language used to mark women filmmakers and their labor Kozma traces these imbrications across historical archives Adopting a diverse methodological approach The Cinema of Stephanie Rothman shines a needed spotlight on the problems and successes of the memorialization of women s directorial labor connecting historical and contemporary patterns of gendered labor disparity in the film industry This book is simultaneously the first in depth scholarly consideration of Rothman the debut of the most substantive archival materials collected on Rothman and a feminist political intervention into the construction of film histories **Emerging Research on Networked**
