The Kurdish question is a long-standing protracted issue which gained regional and international significance largely in the last thirty years. Resolving Turkey's Kurdish Issue Fevzi Bilgin, 2012

Turkey's Kurdish Question Henri J. Barkey, Graham E. Fuller, 2000-01-01 The Kurds one of the oldest ethnic groups in the Middle East are reasserting their identity politically and through violence Divided mainly among Turkey Iran Iraq and Syria the Kurds have posed increasingly sharp challenges to all of these states in their quest for greater autonomy if not outright independence Turkey s essentially democratic structure and civil society_ideal tools for coping with and incorporating minority challenge_have so far been suspended on this issue which the government is treating almost exclusively as a security problem to be dealt with by force For the West the situation in Turkey is particularly significant because of the country s importance in the region and because of the economic political and diplomatic damage that the conflict has caused If Turkey fails to find a peaceful solution within its current borders then the outlook is grim for ethnic and separatist challenges elsewhere in the region This study explores the roots dimensions character and evolution of the problem offers a range of approaches to a resolution of the conflict and draws broader parallels between the Kurdish question and other separatist movements worldwide

The Kurdish Question and Turkey Kemal Kirişci, Gareth M. Winrow, 1997 This volume provides a comprehensive examination of the Kurdish question in Turkey tracing its developments from the end of the Ottoman Empire to the present day

The Kurdish Question in Turkey Cengiz Gunes, Welat Zeydanlioglu, 2013-09-23 Almost three decades have passed

since political violence erupted in Turkey's south eastern regions where the majority of Turkey's approximately 20 million Kurds live. In 1984 the Kurdistan Workers Party (PKK) initiated an insurgency which intensified in the following decades and continues to this day. Kurdish regions in Turkey were under military rule for more than a decade and the conflict has cost the lives of 45 000 people including soldiers, guerrillas and civilians. The complex issue of the Kurdish Question in Turkey is subject to comprehensive examination in this book. This interdisciplinary edited volume brings together chapters by social theorists, political scientists, social anthropologists, sociologists, legal theorists and ethnomusicologists to provide new perspectives on this internationally significant issue. It elaborates on the complexity of the Kurdish question and examines the subject matter from a number of innovative angles. Considering historical, theoretical and political aspects of the Kurdish question in depth and raising issues that have not been discussed sufficiently in existing literature, this book is an invaluable resource for students and scholars of Nationalism and Conflict, Turkish Politics and Middle Eastern politics more broadly.

The Peace Process Between Turkey and the Kurds Burak Bilgehan Özpek, 2018. This book addresses the question of why the peace building attempts that culminated between 2013 and 2015 failed. It deals with the historical background of the Kurdish Question and contemporary complexities of the Turkish politics to explain how they eventually jeopardized the peace process.

Turkey's Kurdish Question Hamid Akin Ünver, 2015-05-22. The Kurdish question is one of the most complicated and protracted conflicts of the Middle East and will never be resolved unless it is finally defined. The majority of the Kurdish people live in Turkey which gives the country a unique position in the larger Kurdish conundrum. Society in Turkey is deeply divided over the definition and even existence of the Kurdish question and this uncertainty has long manifested itself in its complete denial or in accusations of political rivals of separatism and even treason. Turkey's Kurdish Question explores how these denial and acknowledgement dynamics often reveal pre-existing political ideology and agenda priorities themselves becoming political actions. While the very term Kurdish question is discussed in the academic literature as a given, a new and systemic study is required to deconstruct and analyze the constitutive parts of this discursive construct. This book provides the first comprehensive study and analysis of the discursive constructions and perceptions of what is broadly defined as the Kurdish question in Turkish, European and American political cultures. Furthermore, its new methodological approach to the study of discourse and politics of secessionist conflicts can be applied to many similar intra-state conflict cases. Turkey's Kurdish Question would suit students and scholars of Middle East studies, Conflict studies and Comparative Politics as well as Turkish or Kurdish studies. H. Akin Ünver is an assistant professor of international relations at Kadir Has University. This book is based on his dissertation *Defining Turkey's Kurdish Question* which has won the Middle East Studies Association (MESA) 2010 Malcolm H. Kerr award for the best dissertation in the field of social sciences.

the Banner of Islam Gèulay Tèurkmen, How do religious ethnic and national identities interact in religiously homogenous ethnic conflicts Is it possible for religion to act as a resolution tool in such conflicts Why Why not In search for answers to these questions Under the Banner of Islam focuses on the ambivalent role Sunni Islam has played in Turkey s Kurdish conflict both as a conflict resolution tool and as a tool of resistance in the last two decades Relying mainly on participant observation in Civil Friday Prayers and 62 interviews conducted in three different cities in Turkey Istanbul and the majority Kurdish Diyarbakir and Batman between June 2012 and June 2013 it demonstrates that Sunni Islam has had a very limited impact as a conflict resolution tool in Turkey Blending interview data with a detailed historical institutional analysis that goes back as early as the nineteenth century it argues that the strength of Turkish and Kurdish nationalisms the symbiotic relationship between Turkey s religious and political fields religious elites varying conceptualizations of religious and ethnic identities and the recent political developments in the region particularly the establishment of an autonomous Kurdish region Rojava in Syria have all contributed to this outcome The resulting narrative is not only a record of religion ethnicity and nationalism in Turkey s Kurdish conflict but also an investigation of how ethnic and religious identities are negotiated in conflict resolution and how symbolic boundaries are drawn in ethnic conflict zones
