Liabilities and Modern Artificial Intelligence Estelle Wallingford, 2025-09-09 This book addresses how private law liability should be assigned in contexts where modern forms of AI are deployed AI as a technology holds the potential to radically improve global society yet the pace of its advancement far outstrips the pace at which legal systems are responding This book explores legal approaches to AI how AI should be legally characterised and proposes an overarching theoretical liability framework termed the Tri Phase AI Liability Model This framework is flexible in nature and considers the type of AI the context in which it is deployed who has the most control over the AI system and the capacity of a deployed AI In response this book brings greatly needed clarity to the evolving landscape of AI governance aiding in resolving existing and emerging private law challenges This book is a timely response to the urgent need to resolve private law liabilities and will appeal to legal professionals policy makers and scholars looking to understand or contribute to the current and future governance of AI within private law

Routledge Handbook of Policy Design Michael Howlett, Ishani Mukherjee, 2018-07-17 Uniting theoretical bases and advancements in practice the Routledge Handbook of Policy Design brings together leading experts in the academic field of policy design in a pioneering effort of scholarship Each chapter provides a multi topic overview of the state of knowledge on how why where or when policies are designed and how such designs can be improved These experts address how a new emphasis on effective policy design has re emerged in public policy studies in recent years and clarify the role of historical policy decisions policy capacities and government intentions in promoting a design orientation towards

policy formulation and policy making more generally They examine many previously unexplored aspects of policy designs and designing activities which focus upon analyzing and improving the sets of policy tools adopted by governments to correct policy problems Ranging from the fundamentals of policy design and its place in greater policy studies to new questions regarding policy design content and effectiveness to contemporary design trends such as the use of digital tools and big data the Routledge Handbook of Policy Design is a comprehensive reference for students and scholars of public policy public administration and public management government and business *Corporate Governance in Africa* Victor Edidiagbonya, 2024-12-31 This book discusses the issue of limited stakeholder recognition and protection of stakeholder interests within the Anglo Saxon corporate governance model practised in many sub Saharan African countries The volume argues that the relative success of the Anglo Saxon model in developed economies is attributed to the presence of functional institutions such as effective legal systems active external markets for corporate control and organised civil societies among others Many African countries such as Nigeria and South Africa have adopted the UK corporate governance framework despite facing challenges occasioned by an inefficient legal system plagued by systemic corruption Given the challenging institutional contexts in African countries this book proposes an alternative corporate governance framework the functional stakeholder model FSM for the banking industry in countries facing similar institutional challenges the FSM aims to promote stakeholder recognition and the protection of stakeholders interests The book draws on stakeholder and institutional theories in designing an alternative corporate governance model the FSM for banks operating in challenging institutional contexts The book will interest regulators bankers auditors academia policymakers and researchers in comparative corporate governance and financial regulation especially banking regulation and stakeholders in developing and emerging markets

The Dynamics of Regulation George Gantzias, 2001 The new technologies and the liberalization of the broadcasting and telecommunications market together with the digitalization and globalization of new services have challenged irrevocably not only the traditional markets and instructional structures but also the legal systems of broadcasting and telecommunication sectors in the 21st century This text examines and analyzes how regulations have been developed mainly at national level and in particular the regulation of British broadcasting and television advertising in the deregulation re regulation and liberalization era It takes into account changes in digital broadcasting and telecommunication by pointing out that convergence is the process through which broadcasting telecommunication press and information sectors are transformed into new sectors info com arteries info com products info com services and info com content in order to be fully compatible

with the emerging new info communication industry in the digital transformation and info communication era It also recommends a new definition and a set of global principals of public interest in info communication policy together with the regulatory model process and product regulation as useful analytical tools for future research projects on the dynamics of regulation and the emerging new info communication policy in the 21st century *The King's College Law Journal* ,2005

The Factory Acts in Ireland, 1802-1914 Desmond S. Greer,James W. Nicolson,2003 Working conditions in Irish industry prior to 1914 were frequently harsh and dangerous particularly for women young persons and children Successive Factory Acts designed primarily for industrial conditions in Great Britain sought to ameliorate the plight of these protected workers in the face of considerable opposition This book examines the development of this early health and safety legislation the system of inspection by which it was enforced and the peculiar problems which the factory inspectors encountered in Ireland while seeking to ensure that minimum standards were observed notwithstanding local social and economic constraints Publisher description *Environment & Planning* ,2005 *Governance in the European Union* Olivier de Schutter,Notis Lebessis,John Paterson,2001 **Communications** ,2007 *The Regulation of Organised Civil Society* Jonathan Garton,2009-06-30 This book considers from first principles when it is appropriate to regulate organised civil society and how that regulation can be accomplished **Federal Law Review** ,2007 **Political Economy of Energy in the Southern Cone** Anil Hira,2003-03-30 Hira explores the impact of the neoliberal revolution in Latin America which claims the superiority of markets that are freed from government intervention and restrictions on trade and investment He examines changes in the energy policy of the Southern Cone Argentina Bolivia Brazil Chile Paraguay and Uruguay and finds that contrary to what is claimed and expected there is a great deal of state intervention that continues through regulatory policy All around the world economic markets are in flux Policies to change these markets are part of the neoliberal revolution that claims the superiority of markets freed from government intervention and restrictions on trade and investment The general conclusion among most academic and policy analysts who study developing countries is that market liberalization is a foregone conclusion Developing countries choices are constrained by two primary factors first the burden of massive external debt that forces them to court international finance and second the need to gain access to the world s largest markets in Europe and or the United States optimally through free trade agreements The effects of market liberalization including deregulation privatization and integration require further scrutiny Hira examines the effects of international market pressures on energy policy at the national regional and sectoral levels in Latin America s Southern Cone Argentina Bolivia Brazil Chile Paraguay and Uruguay who belong to the MERCOSUR common market Contrary to what is claimed and expected he finds that a great deal of state intervention continues through regulatory policy He also provides an thorough set of comparative political economy case studies along with a discussion of the MERCOSUR process with regards to energy His analysis of the political economy of electricity and natural gas deregulation is especially relevant in the wake of

the California energy crisis the Enron debacle and international discussions about energy deregulation This book is of particular interest to scholars students and other researchers involved with Latin American economic development and energy policy □□□□□□ ,2013
