Building Healthy Communities for Positive Youth Development Michael J. Nakkula, Karen C. Foster, Marc Mannes, Shenita Bolstrom, 2010-07-23 It is a great pleasure to offer this volume from Michael J Nakkula Karen C Foster Marc Mannes and Shenita Bolstrom as the latest in the Search Institute Series on Developmentally Attentive Community and Society Its importance to the series and this eld of inquiry and practice is readily evident in its title

Building Healthy Communities for Positive Youth Development Since the early 1990s Search Institute has invited and encouraged communities of all shapes and sizes to use its framework of Developmental Assets and principles of asset building to create strong vibrant and welcoming communities for children and youth We have operated largely at the grassroots level encouraging innovation and adaptation around a shared vision rather than proposing a program or model for replication We seek to learn as much from the communities as they learn from us This book offers in depth case studies of what happened in eight diverse communities that took up our invitation In them we see a wide array of strategies and approaches that on the surface seem to have little coherence But as Nakkula and colleagues found underlying each of these distinct efforts was a deep commitment to transforming the social norms of community life to more effectively attend to young people's healthy development throughout the first two decades of life There have been many ambitious efforts aimed at comprehensive community change on behalf of young people

Youth Beyond the Developmental Lens Wesley W. Ellis, 2024 Wesley Ellis exposes the harmful impact of developmental psychology in youth ministry proposing a theological anthropology that frees us for deeper relationship with young people Propelled by the conviction that we must see youth as beings rather than becoming Ellis reorients us toward relational inclusion and away from rigid developmentalism

Make Me! Eric Toshalis, 2015-02-01 In this groundbreaking book Eric Toshalis explores student resistance through a variety of perspectives arguing that oppositional behaviors can be not only instructive but productive All too often treated as a matter of compliance student resistance can

also be understood as a form of engagement as young people confront and negotiate new identities in the classroom environment The focus of teachers efforts Toshalis says should not be about managing adolescents but about learning how to read their behavior and respond to it in developmentally productive culturally responsive and democratically enriching ways Noting that the research literature is scattered across fields Toshalis draws on four domains of inquiry theoretical psychological political and pedagogical The result is a resource that can help teachers address this pervasive classroom challenge in ways that enhance student agency motivation engagement and academic achievement The coauthor of *Understanding Youth Adolescent Development for Educators* Harvard Education Press 2006 Toshalis blends accessible explanations of theory and research with vignettes of interactions among educators and students In *Make Me* Toshalis helps teachers perceive possibility rather than pathology in student resistance
