Hydroclimatology of the Great Lakes Region of North America Julie A. Winkler, Galina Guentchev, Adam Burnett, 2022-11-14 The Union Pacific Magazine ,1927 Employee magazine of the Union Pacific System Russell's Official National Motor Coach Guide ,1945 Official publication of bus lines for United States and Canada **Official Guide of the Railways and Steam Navigation Lines of the United States, Porto Rico, Canada, Mexico and Cuba** ,1923

Chicago John F. McDonald, 2015-08-14 Chicago went from nothing in 1830 to become the second largest city in the nation in 1900 while the Midwest developed to become one of the world's foremost urban areas This book is an economic history of the Chicago metropolitan area from the 1820s to the present It examines the city in its Midwestern region and compares it to the other major cities of the North This book uses theories of the economics of location and other economic models to explain much of Chicago's history Chicago maintained its status as the second largest city through the first decades of the 20th century but rapid growth shifted to the Sunbelt following World War II Since the 1950s the city's history can be divided into four distinct periods growth with suburbanization 1950 1970 absence of growth continued suburbanization and central city crisis 1970 1990 rebound in the 1990s and financial crisis and deep recession after 2000 Through it all Chicago has maintained its position as the economic capital of the Midwest The book is a synthesis of available literature and public data and stands as an example of using economics to understand much of the history of Chicago This book is intended for the college classroom urban scholars and for those interested in the history of one of world's foremost urban areas **The Nature of the Page** Joshua Calhoun, 2019-12-27 An innovative study of books and reading that focuses on papermaking in the Renaissance In *The Nature of the Page* Joshua Calhoun tells the story of handmade paper in Renaissance England and beyond For most of the history of printing paper was made primarily from recycled rags so this is a story about using old clothes to tell new stories about plants used to make clothes and about plants that frustrated papermakers best attempts to replace scarce natural resources with abundant ones Because plants like humans are susceptible to the ravages of time it is also a story of corruption and the hope that we can preserve the things we love from decay Combining environmental and bibliographical research with deft literary analysis Calhoun reveals how much we have left to discover in familiar texts He describes the transformation of plant material into a sheet of paper details how ecological availability or scarcity influenced literary output in the sixteenth and seventeenth centuries and examines the impact of the various colors and qualities of paper on early modern reading practices Through a discussion of sizing the mixture used to coat the surface of paper so that ink would not blot into its fibers he reveals a surprising textual interaction between animals and readers He shows how we might read an indistinct stain on the page of an early modern book to better understand the mixed media surfaces on which readers writers and printers recorded and revised history Lastly Calhoun considers how early modern writers imagined paper decay and how modern scholars grapple with biodeterioration today Exploring the poetic

interplay between human ideas and the plant animal and mineral forms through which they are mediated The Nature of the Page prompts readers to reconsider the role of the natural world in everything from old books to new smartphones

Plastic Pollution François Galgani, Christopher K. Pham, Julia Reisser, 2017-11-15 The presence at sea of large amounts of plastic and microplastics which are sometimes invisible and results from the fragmentation of larger debris requires an in depth knowledge of the nature of ocean debris its transport mechanisms life cycle and effects on the environment This volume provides new insights in the topic of plastic pollution an actual and important problem for the marine environment
