Manual part number LIT 11612 14 99 for the DTI Series of motorcycles manufactured between 1968 and 1971 Based on our

research Yamaha published at least 7 service manuals and 3 supplements for the 1968 1971 DT1 series However the revised Combined workshop manual LIT 11612 14 99 is considered to be the most comprehensive as it was published after the introduction of the 1971 models and it includes the MX series and GYT modifications for racing It should be noted that the side by side landscape pages beginning with the DT1A 1968 Model Changes section have been re formatted into single pages for improved readability In addition the Motorcycle Service News page that deals with the installation of the lighting choke coil has been omitted as there were no legible versions published in any of the DT1 series of workshop manuals However the installation of the choke coil is addressed in both the wiring diagrams and the DT1A to DT1B Changes sections of the combined manual We encourage you to exercise caution when purchasing technical publications for your classic Yamaha DT Series motorcycle as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling Many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished In addition they are often advertised for the incorrect series and or model years While original manuals can also be sourced through on line sellers they are normally very expensive and we are pleased to be able to offer this reasonable priced alternative VelocePress com has been publishing reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality product
