Weis, 2016-09-19 Thomas Merton and the Celts

offers a new lens through which to view Merton's life and spirituality. By examining unpublished letters, notebooks and taped conferences for the Trappist novices previously unavailable to the general reader, the author breaks new ground in Merton studies, revealing Merton's growing fascination with his Welsh ancestry, Celtic monasticism and early Irish hermit poetry. Merton having immersed himself in reading about Celtic Christianity, not just about liturgy but about household rituals, illuminated manuscripts, high crosses and hermit poetry as well, recognized in these ancient hermits who lived on water and herbs, experienced kinship with creatures and wrote poems about the birds, a mirror of his own desires. Indeed, in a profound way and at a deep level, Merton discovered himself in Celtic Christianity. **Celtic Saints of Ireland** Elizabeth

Rees, 2013-05-01 Most books about Celtic saints are based on their legendary medieval lives. This book, however, is based upon our earliest surviving information: an examination of the sites where these early Christians lived and worked. Archaeology combined with the study of place names, inscribed stones and early texts offers us important clues which help us to piece together something of the fascinating world of early Irish Christianity. Elizabeth Rees, an acknowledged authority on Celtic Christianity, has produced this insightful history, which is the first in an exciting new series. Illustrated throughout with her own evocative photographs of where these saints resided and worked, the reader is drawn into the beautiful world which these men and women inhabited. **The Routledge Handbook of Religion and Animal Ethics** Andrew Linzey, Clair

Linzey, 2018-09-29 The ethical treatment of non-human animals is an increasingly significant issue, directly affecting how people share the planet with other creatures and visualize themselves within the natural world. The Routledge Handbook of Religion and Animal Ethics is a key reference source in this area, looking specifically at the role religion plays in the formation of ethics around these concerns. Featuring thirty-five chapters by a team of international contributors, the handbook is divided into two parts. The first gives an overview of fifteen of the major world religions' attitudes towards animal ethics and protection. The second features five sections addressing the following topics: Human Interaction with Animals; Killing and Exploitation; Religious and Secular Law; Evil and Theodicy; Souls and Afterlife. This handbook demonstrates that religious traditions, despite often being anthropocentric, do have much to offer to those seeking a framework for a more enlightened relationship between humans and non-human animals. As such, The Routledge Handbook of Religion and Animal Ethics is essential reading for students and researchers in religious studies, theology and animal ethics, as well as those studying the philosophy of religion and ethics more generally. *The Spirituality of the Celtic Saints* Richard

Woods, 2015-01-16 The inspired wisdom of the saints and scholars who made the Celtic lands a lamp of learning and holiness.
