Technical Manual United States. War Department,1959 *Corpus Use and Translating* Allison Beeby,Patricia Rodríguez Inés,Pilar Sánchez-Gijón,2009-03-11 Professional translators are increasingly dependent on electronic resources and trainee translators need to develop skills that allow them to make the best use of these resources The aim of this book is to show how CULT Corpus Use for Learning to Translate methodologies can be used to prepare learning materials and how novice translators can become autonomous users of corpora Readers interested in translation studies translator training and corpus linguistics will find the book particularly useful Not only does it include practical technical advice for using and learning to use corpora but it also addresses important issues such as the balance between training and education and how CULT methodologies reinforce student autonomy and responsibility Not only is this a good introduction to CULT but it also incorporates the latest developments in this field showing the advantages of using these methodologies in competence based learning

Barrier-Free Design James Holmes-Seidle,2012-08-21 This book for architects interior designers building managers students conference organisers looks at first principles to provide the user with the tools to make their own

decisions rather than a cookbook approach It is intended that designs and product information can be taken straight from the manual and inserted into ongoing projects For the first time the book considers the needs of people with visual hearing and mental disabilities who make up the majority of disabled people in the population alongside those of people with physical mobility disabilities Practical low cost solutions to retro fitting existing buildings are discussed as well as the methods used to assess the suitability of an existing building and assembling a project to improve access for disabled people Specific products and designs are illustrated and discussed with full working technical drawings and full specification details These will reduce considerably the research time needed to produce a cost effective solution that will improve access for disabled people A perspective of the standards and legislation dealing with access issues in the UK is compared with those in other countries and the standards mentioned are compared with the realities of practical implementation carried out in 4 years of design in this area
