[Table of contents](#)

Quick start

- Microsoft Windows users: [Click here to learn how to unlock wordfast.dat if needed](#). This is necessary for downloaded files, and only you can perform this step.
- Double-click wordfast.dat to install WFC. This is done only once.
- If needed, see the [installation section](#).

Press **Ctrl+Alt+W** or **Alt+Down** to display the toolbar  then click the  icon to open the main Wordfast dialog box:

Click the "New TM" button to create a new translation memory. You will be prompted for TMD-compliant codes of the source and target language used in your TM. You will be prompted to name and save the new TM. Close the WFC dialog box, you're ready.

A basic translation session consists of two steps.

1. Translation & proofreading

Open the document to be translated, press **Alt+Down** or click the Next Segment icon . The first source segment appears against a blue background. Type your translation in the target segment, which is the lower (green, yellow, or grey) box:

Press **Alt+Down** or **Alt+Enter**, or click  to validate/close the current segment and open, then translate the next one. Translate the entire document that way. To pause or end translation, press **Alt+End** (or click ) , save the document, close Ms-Word if needed. To resume translation, click anywhere in the document and press **Alt+Down**.

Proofreading: to edit a segment, place the cursor anywhere in that segment, press **Alt+Down** to open it, edit it, then move to the next or previous segment (**Alt+Down**, **Alt+Enter**, or **Alt+Up**), or close the segment (**Alt+End**).

2. Clean-up

When proofreading is complete, click the Cleanup  icon.

You're done! The translated document can be delivered. There is more to learn, but the essentials are covered.

Wordfast Classic User Manual:

The Future of Translation Technology Chan Sin-wai, 2016-10-26 Technology has revolutionized the field of translation bringing drastic changes to the way translation is studied and done To an average user technology is simply about clicking buttons and storing data What we need to do is to look beyond a system's interface to see what is at work and what should be done to make it work more efficiently This book is both macroscopic and microscopic in approach macroscopic as it adopts a holistic orientation when outlining the development of translation technology in the last forty years organizing concepts in a coherent and logical way with a theoretical framework and predicting what is to come in the years ahead microscopic as it examines in detail the five stages of technology oriented translation procedure and the strengths and weaknesses of the free and paid systems available to users *The Future of Translation Technology* studies among other issues The Development of Translation Technology Major Concepts in Computer aided Translation Functions in Computer aided Translation Systems A Theoretical Framework for Computer Aided Translation Studies *The Future of Translation Technology* This book is an essential read for scholars and researchers of translational studies and computational linguistics and a guide to system users and professionals

The Routledge Handbook of Translation and Technology Minako O'Hagan, 2019-08-23 The Routledge Handbook of Translation and Technology provides a comprehensive and accessible overview of the dynamically evolving relationship between translation and technology Divided into five parts with an editor's introduction this volume presents the perspectives of users of translation technologies and of researchers concerned with issues arising from the increasing interdependency between translation and technology The chapters in this Handbook tackle the advent of technologization at both a technical and a philosophical level based on industry practice and academic research Containing over 30 authoritative cutting edge chapters this is an essential reference and resource for those studying and researching translation and technology The volume will also be valuable for translators computational linguists and developers of translation tools

Translation Tools and Technologies Andrew Rothwell, Joss Moorkens, María Fernández-Parra, Joanna Drugan, Frank Austermeuhl, 2023-04-18 To trainee translators and established professionals alike the range of tools and technologies now available and the speed with which they change can seem bewildering This state of the art copiously illustrated textbook offers a straightforward and practical guide to translation tools and technologies Demystifying the workings of computer assisted translation CAT and machine translation MT technologies *Translation Tools and Technologies* offers clear step by step guidance on how to choose suitable tools free or commercial for the task in hand and quickly get up to speed with them using examples from a wide range of languages Translator trainers will also find it invaluable when constructing or updating their courses This unique book covers many topics in addition to text translation These include the history of the technologies project management terminology research and corpora audiovisual translation website software and games localisation and quality assurance Professional workflows are at the heart of the narrative and due consideration

is also given to the legal and ethical questions arising from the reuse of translation data With targeted suggestions for further reading at the end of each chapter to guide users in deepening their knowledge this is the essential textbook for all courses in translation and technology within translation studies and translator training Additional resources are available on the Routledge Translation Studies Portal

How to Translate Nicolae Sfetcu, 2015-04-19 A guide for translators about the translation theory the translation process interpreting subtitling internationalization and localization and computer assisted translation A special section is dedicated to the translator's education and associations The guide includes as annexes several independent adaptations of the corresponding European Commission works freely available via the EU Bookshop as PDF and via SetThings.com as EPUB MOBI Kindle and PDF For a smart sensible translation you should forget not the knowledge acquired at school or university but the corrective standards Some people want a translation with the touch of the source version while another people feel that in a successful version we should not be able to guess the original language We have to realize that both people have right and wrong and that their only fault is to present requirement as an absolute truth Teachers agree at least on this principle If a sentence is ambiguous the translation must also be There is another critical less easy to argue based on an Italian phrase with particularly strong wording Traduttore traditore This critique argues that any translation will betray the author's language spirit style because of the choices on all sides What to sacrifice clarity or brevity if the formula in the text is brief and effective but impossible to translate into so few words with the exact meaning One could understand this criticism that it encourages us to read in the text It seems obvious that it is impossible to follow this advice into practice

Routledge Encyclopedia of Translation Technology Chan Sin-wai, 2014-11-13 The Routledge Encyclopedia of Translation Technology provides a state of the art survey of the field of computer assisted translation It is the first definitive reference to provide a comprehensive overview of the general regional and topical aspects of this increasingly significant area of study The Encyclopedia is divided into three parts Part One presents general issues in translation technology such as its history and development translator training and various aspects of machine translation including a valuable case study of its teaching at a major university Part Two discusses national and regional developments in translation technology offering contributions covering the crucial territories of China Canada France Hong Kong Japan South Africa Taiwan the Netherlands and Belgium the United Kingdom and the United States Part Three evaluates specific matters in translation technology with entries focused on subjects such as alignment bitext computational lexicography corpus editing online translation subtitling and technology and translation management systems The Routledge Encyclopedia of Translation Technology draws on the expertise of over fifty contributors from around the world and an international panel of consultant editors to provide a selection of articles on the most pertinent topics in the discipline All the articles are self contained extensively cross referenced and include useful and up to date references and information for further reading It will be an invaluable reference work for anyone with a professional or academic interest in the subject

INTER-ENG 2020 Liviu Moldovan, Adrian Gligor, 2021-05-31 These proceedings contain research papers that were accepted for presentation at the 14th International Conference Inter Eng 2020 Interdisciplinarity in Engineering which was held on 8-9 October 2020 in Târgu Mureș, Romania. It is a leading international professional and scientific forum for engineers and scientists to present research works, contributions and recent developments as well as current practices in engineering which is falling into a tradition of important scientific events occurring at Faculty of Engineering and Information Technology in the George Emil Palade University of Medicine, Pharmacy, Science and Technology of Târgu Mureș, Romania. The Inter Eng conference started from the observation that in the 21st century the era of high technology without new approaches in research we cannot speak of a harmonious society. The theme of the conference proposing a new approach related to Industry 4.0 was the development of a new generation of smart factories based on the manufacturing and assembly process digitalization related to advanced manufacturing technology, lean manufacturing, sustainable manufacturing, additive manufacturing and manufacturing tools and equipment. The conference slogan was: Europe's future is digital, a broad vision of the Industry 4.0 concept beyond direct manufacturing in the company.

The Forty-Day Word Fast Tim Cameron, 2015-09-01 At some point in your Christian walk you may have fasted from food, television or other things in order to refocus and rekindle your relationship with Christ. Fasting may even be a frequent part of your prayer life. But have you ever fasted from words? The truth is that even if you consider yourself to be a positive person, you still use damaging words that plague your life and rob you of the spiritual growth you desire. Change your words. Change your life. The Forty Day Word Fast focuses on several biblically sound mechanisms to help you change your words and your life. Not only will your vocabulary change, your heart also will be transformed in just forty days. For out of the abundance of the heart the mouth speaks. Matt 12:34 NKJV. With this guaranteed effective form of fasting, you will be challenged to eradicate from your speech all words of judgment, criticism or sarcasm, negativity, complaining, gossip.
