Colin Gunton, Tim Keller, and the Trinitarian Challenge to Individualism Steve Pearson, 2025-08-05 In today's market driven world the relationship between faith and work is vital for every Christian in the workforce This book examines how much Christian thinking on the subject needs a radical shift Traditionally the focus has been on how Christians can influence the marketplace often overlooking the profound ways the market shapes our theology With a fresh perspective the book centers on identity contrasting today's individualism with the relational model of the Trinity It argues that the market can erode our Christian identity and distort our theology often without us being aware Through the insights of British theologian Colin Gunton who explored the Trinity's connection to identity and the work of Timothy Keller on faith and work the book reveals a crucial truth our understanding of identity is not relational enough To truly engage meaningfully at the intersection of faith and work our foundational theology must be reframed
