Easy Guide to Meditation Rekha Kale, 2005-12

Making A Healthy Baby Dr Bruce Miller, Every expectant mother deserves good health and every baby deserves a good start in life. What is alarming today is that infant mortality is on the decline but the percentage of children born with birth defects is on the rise. Your body is going to be your baby's home for nine months so the best birthday gift you can give to your baby is to create a healthy environment well in advance of your pregnancy to reduce the risk of preventable birth defects and complications. This is as important as maintaining a healthy body during pregnancy. When you discover that you are pregnant, you are already in your 10th to 12th week of pregnancy. By this time the organs of your baby are forming and the healthy growth of your baby depends on the state of your health then. So before you plan to have a baby, it is vital to ask yourself whether your body is ready for pregnancy. This book outlines 15 important things all pregnant women, mothers-to-be as well as all women of reproductive age need to do if they want to have a safe pregnancy and a healthy baby. Not all birth defects can be prevented but a woman who takes good care of herself long before her pregnancy increases her odds of a healthy pregnancy. Today

having a healthy baby is most of the time more up to us than up to chance
