Dao Companion to Xuanxue 道 (Neo-Daoism) David Chai, 2020-09-29 This comprehensive volume surveys an important but neglected period of Chinese intellectual history Xuanxue Neo Daoism It provides a holistic approach to the philosophical and religious traits of this movement via the concepts of non being being and oneness Thinkers and texts on the periphery of Xuanxue are also examined to show readers that Xuanxue did not arise in a vacuum but is the result of a long and continuous evolution of ideas from pre Qin Daoism The 25 chapters of this work survey the major philosophical figures and arguments of Xuanxue a movement from the Wei Jin dynastic period 220 420 CE of early medieval China It also examines texts and figures from the late Han dynasty whose influence on Xuanxue has yet to be made explicitly clear In order to fully capture the multifaceted nature of this movement the contributors brilliantly highlight its more socially oriented characteristics Overall this volume presents an unrivaled picture of this exciting period It details a portrait of intellectual and cultural vitality that rivals if not surpasses what was achieved during the Warring States period Readers of the Yijing Daodejing and Zhuangzi will feel right at home with the themes and arguments presented herein while students and those coming to Xuanxue for the first time will acquire a wealth of knowledge

Ritual Voices of Revelation James J. Fox, 2024-11-26 This is a study of a collection of oral compositions of the Rotenese of eastern Indonesia Recited in semantic parallelism these compositions require a strict pairing of all words to produce correspondingly ordered verses These narrative verses create an elevated discourse a scriptural voice intended to reveal the origins of Rotenese cultural life The translations and exegeses of these origin narratives offer a work of world class poetic imagination that recounts a dynastic contest between the Sun and Moon and Lords of the Ocean Sea and its epic consequences As background to the presentation of these narratives this study provides a description of Rotenese life expressed in the complementary pairs that the Rotenese themselves use to categorise their world A concluding chapter examines the Rotenese acquisition of Christianity and the subsequent retelling of the Biblical Genesis in Rotenese parallel verse thus continuing the general examination of the use of parallelism as elevated ritual discourse Gathered from poets from two domains on the island most of these compositions date from fieldwork in 1965 66 and in 1973 The publication of these materials represents the summation of more than fifty years of research

Wen,2009-04-16 This engaging work of comparative philosophy brings together American pragmatism and Chinese philosophy in a way that generates new interpretations of Chinese philosophy and a fresh perspective on issues in process philosophy Through an analysis of key terms Haiming Wen argues that Chinese philosophical terminology is not simply a retrospective language that through a process of stipulation promises us knowledge of an existing world but is also an open prospective vocabulary that through productive associations allows philosophers to realize a desired world Relying on this productive power of Chinese terminology Wen introduces a new term Confucian pragmatism Wen convincingly shows that although there is much that distinguishes American pragmatism from Confucian philosophy there is enough conceptual overlap to make Confucian pragmatism a viable and exciting field of study

The Emergence of Word-Meaning in Early China Jane Geaney,2022-07-01 The Emergence of Word Meaning in Early China makes an innovative contribution to studies of language by historicizing the Chinese notion that words have meaning content independent of instances of use Rather than presuming that the concept of word meaning had always existed Jane Geaney explains how and why it arose in China To account for why a normative term yi duty morality appropriateness came to be used for meanings found in dictionaries Geaney examines interrelated patterns of word usage threading through and across a wide range of genres These patterns show that by the first millennium as textual production exploded and as radically different writing forms in Buddhist sutras were encountered yi already functioned as an externally accessible model for semantic interpretation of texts and sayings The book has far reaching implications Because the idea of word meaning is fundamental to theorizing the book illuminates not only semantic ideas and the normativity of language in Early China but also aspects of early Chinese philosophy and intellectual history As the internet supplants one form of media print thereby reducing knowledge to vast digital databases so too this book explains two thousand years ago a culture that prized oral and visual balance became an empire of the text

Historical Dictionary of Daoism Ronnie L. Littlejohn,2019-11-29 Daoism is the oldest indigenous philosophic spiritual tradition of China and one of the most ancient of the world s spiritual structures The name Daoism comes from the term dao which means a way or a road through the field or woods to one s village It is also means the way to do something such as how a master craftsman carves wood makes a bell or even butchers an ox But dao is also a nominative in the history of Daoism referring to the energizing process that permeates and animates all of reality and moves it along However both text and practice in this tradition insist that dao itself cannot be described in words it is not God in the sense of Western philosophy or religion Daoism has no supreme being even if there is an extensive grammar about nominally self conscious entities and powers for which the Chinese use the word spirit shen For example the highest powers of Daoism are variously called Taishang Laojun the deified Laozi the Celestial Worthy of Primordial Beginning Yuanshi tianzun the Jade Emperor Yuhuang Shangdi or the Perfected Warrior Zhenwu But these are expressions of dao in specific shen they are not identical to Dao except in the most unique case when Laozi the putative founder of Daoism and author of its major work Daodejing is said to

be one with the dao Historical Dictionary of Daoism contains a chronology an introduction appendixes an extensive bibliography and more than 400 cross referenced entries related to the Chinese belief and worldview known as Daoism including dozens of Daoist terms names and practices This book is an excellent resource for students researchers and anyone wanting to know more about Daoism **China Review International** ,2000 **Storehouse of Treasures** Nelson Foster,2024-09-10 Storehouse of Treasures unearths wise and beautiful elements of Chan and Zen still little known in the West revealing unexpected aspects of the tradition and new implications for practice Since the dawn of Chan and Zen in medieval China and Japan members of these schools have enlivened their teaching by creatively adopting and adapting terms images principles poetry and lore native to their societies Unfortunately so much of that cultural wealth has been lost in translation that Western practitioners have barely begun to discover and appreciate this extraordinarily rich legacy In Storehouse of Treasures second generation American Zen teacher Nelson Foster makes a series of adventuresome forays into the trove of material laid up by the Dharma ancestors bringing to light Masters delight in playing with words stories and inherited Buddhist concepts bending them to express the Dharma in inspired ways The powerful influence that Taoist and Confucian thought exerted in the formation of Chan and Zen The emphasis the two schools have laid on excellence of character as well as on profound awakening The experiential meaning and enduring importance to the tradition of ideals little associated with it today like integrity shame and contentment How knowing the tune of a fellow student a mentor or a teacher of old lies at the heart of transmitting the Dharma Lifting to attention a diverse set of ancient yet still luminous Dharma gems Foster urges their relevance and value to us as students of the Buddha Way and as citizens of a world increasingly fractious and imperiled **Daoism** Ronnie L. Littlejohn,2009-03-16 The way that can be told is not the eternal Way the name that can be named is not the eternal Name So begins the first verse of the mysterious Dao De Jing foundation text of the ancient Chinese religion of Daoism Often attributed to semi mythical sage Laozi the origins of this enigmatic document which probably came into being in the third century BCE are actually unknown But the tenets of Daoism laid down in the Dao De Jing and in later texts like the Yi Jing or Book of Changes continue to exert considerable fascination particularly in the West where in recent years they have been popularised by writers such as the novelist Ursula K LeGuin In this fresh and engaging introduction to Daoism Ronnie L Littlejohn discusses the central facets of a tradition which can sometimes seem as elusive as the slippery notion of Dao itself The author shows that fundamental to Daoism is the notion of Wu wei or non action a paradoxical idea emphasising alignment of the self with the harmony of the universe a universe in continual flux and change This flux is expressed by the famous symbol of Dao the taiji representing yin and yang eternally correlating in the form of a harmonious circle Exploring the great subtleties of this ancient religion Littlejohn traces its development and encounters with Buddhism its expression in art and literature its fight for survival during the Cultural Revolution and its manifestations in modern day China and beyond **Unlocking the Chinese Gate** Galia Dor,2024-05-01

Unlocking the Chinese Gate offers an innovative analysis of gates in early Chinese thought and material culture. Observing gates from various perspectives including philosophy, architecture and psychology and through the conceptual lens of Chinese correlative thinking, Galia Dor conceptualizes the Chinese gate as a membrane-like apparatus that from the space in between efficaciously manifests the Way (dao) into the ten thousand forms of actualized life. This methodology exposes an open to closed gradation between pairs of inside/outside (wai nei) that resonates throughout the Chinese model of psychocosmic concentric circles. The consequential strategies, e.g. continuity, break, chaos, order demonstrate how early Chinese cosmological, philosophical and political idealities as well as afterlife religious beliefs were applied, including the various approaches to and practices of self-cultivation. The book sheds new light on ancient Chinese thought and material culture and offers points of comparison to Western thought and modern science, including a model of decision-gating that carries relevant implications and insights to our current lives. *Southern Theories* Oliver Mutanga, Tendayi

Marovah, 2023-12-19. This book critically explores Global South perspectives, examining marginalised voices and issues whilst challenging the supremacy of Global North perspectives in literature. The unique value of this book lies in its extensive coverage of various Southern challenges, including disaster management, climate change, communication, resilience, gender, education and disability. It also underscores the relevance of indigenous philosophies such as animism, Buen Vivir, Buddhism, Confucianism, Daoism, Neozapatism, Qi vitality, Taoism and Ubuntu. Stemming from regions as diverse as Sub-Saharan Africa, Asia and Latin America, these philosophies are brought into public discourse. By demonstrating their practicality in designing intervention programs and influencing policy-making, the book fills a critical gap in global Southern literature while promoting context-specific knowledge for improving well-being in the Global South contexts. This book's content resonates with a diverse audience encompassing students, academics, researchers, NGOs and policymakers from postcolonial states in the Global South and those from Global North countries. Furthermore, it is highly relevant to communities within the Global North that mirror the Global South, those grappling with equity issues for indigenous populations. It has a versatile appeal that transcends disciplinary boundaries, encompassing cultural studies, sociology, international development, philosophy and postcolonial studies, thus making it accessible to all educational levels. It holds particular interest for those in development studies, indigenous studies, government departments, globally international organisations and universities worldwide. [The](#)
