Yugoslavia's Bloody Collapse Causes Course And Consequences:

Yugoslavia's Bloody Collapse Christopher Bennett, 1997 An incisive and revealing history of how Yugoslavia plunged into violence in the 1990s Over the past two years the entire world watched in horror as one of Europe's most stable countries plunged into an orgy of violence and bloodshed that has invoked comparisons to the Holocaust Aside from empty threats and diplomatic hand wringing the West has done little to stop the ethnic cleansing the sieges and the brutality that has characterized the conflict in the former Yugoslavia Contrary to common wisdom the hyper violent disintegration of the former Yugoslavia is not simply and exclusively the product of inherent and irrational ethnic animosities and centuries of strife In this engaging book journalist Christopher Bennett traces the turning point to the 1987 struggle within the Serbian Communist party which was between adherents of a Serb nationalist ideology embodied by Slobodan Milosevic and the other Yugoslavs who clung to the vision of a multinational state As soon as Milosevic gained the upper hand he ruthlessly purged his rivals and launched a massive campaign of media indoctrination to stir up Serb nationalism This new nationalism which has repelled the world since 1991 is primarily Milosevic's creation and not merely the result of historical enmity As a student at two different Yugoslav universities in the 1980s Bennett witnessed firsthand many of the critical events which contributed to Yugoslavia's destruction He renders an incisive and accessible history covering the period from Tito's dictatorship to the present day

Yugoslavia's Bloody Collapse Christopher Bennett, 1996 **Democratic Transition in Croatia** Sabrina P. Ramet, 2007 With the fall of communism and the breakup of Yugoslavia the successor states have faced a historic challenge to create separate modern democracies from the ashes of the former authoritarian state Central to the Croatian experience has been the issue of nationalism and whether the Croatian state should be defined as a citizens state with members of all nationality groups treated as equal or as a national state of the Croats with a consequent privileging of Croatian culture and language but also with a quota system for members of national minorities Sabrina P Ramet and Davorka Matić have gathered here a series of studies by important scholars to examine the development of Croatia in the aftermath of communism and the war that marred the transition Sixteen scholars of the region discuss the values and institutions central to Croatia's transformation from communism and toward liberal democracy They discuss economic change political parties and the uses of history since 1989 To understand the patterns in Croatia they examine how civic values have been expressed reinforced and sometimes challenged through religion education and the media The implications of nationalism in its various manifestations are treated thematically in all the analyses This book is a companion volume to a similar study on Slovenia edited by Sabrina P Ramet and Danica Fink Hafner and released in fall 2006 Together these two works form an important case study in comparison and contrast between two countries in the same region going through the transition from communism to liberal democracy Scholars and policy makers will find a wealth of material in these two volumes

Charting a New Diplomatic Course
Cecil V. Crabb, Jr., Leila S. Saredine, Glenn J. Antizzo, 2001-08-01 America s victory in the Cold War is a milestone in the nation s diplomatic experience The disintegration of the Soviet Union and the defeat of communism have made containment policy the foundation of U S foreign relations for almost a half century obsolete and policymakers and political scientists alike struggle to decide what new strategy should guide the country s involvement on the international stage In this pathbreaking work Cecil V Crabb Jr Leila E Saredine and Glenn J Antizzo identify and analyze six distinct approaches to America s diplomatic course after the Cold War addressing perhaps the most important question of our time what should U S foreign policy be in the twenty first century First the authors examine the familiar doctrine of American isolationism and consider an alternative approach conservative neo isolationism which encourages policymakers to use careful discrimination but decisive action in assuming commitments abroad Liberal neo isolationism a third possible course resists active interventionist strategies because of the dangers they pose to congressional power and America s democratic system At the opposite end of the spectrum are conservative interventionism the belief that America must maintain a strong military arsenal and engage in preventative diplomacy liberal interventionism the conviction that America has a responsibility to actively promote the cause of democracy and defend human rights beyond its own borders and pragmatic interventionism an approach taken by the Clinton Administration that relies on a cost benefit analysis of policy as problems arise Elegantly written and authoritatively researched Charting a New Diplomatic Course provides a much needed frame of reference for anyone interested in America s future in international affairs

Ethnic Conflict in Asymmetric Federations Gorana Grgić, 2016-12-19 In the last years of their existence the Union of Soviet Socialist Republics USSR and the Socialist Federal Republic of Yugoslavia SFRY found themselves facing a similar and very grim state of affairs After their disintegration the former Yugoslav republics spiralled into a set of ethnic conflicts that did not leave a single one of them unscathed and in the ex Soviet space conflicts were far

more limited This book offers an in depth analysis of the difference in state collapses and ensuing conflicts in the Soviet Union and Yugoslavia by focusing on their asymmetric ethnofederal structure and the different dynamics of ethnic mobilization that the federal units experienced Moreover it explores the links between identity politics and international relations as the latter has been a latecomer in research on ethnonationalism and ethnic conflict Finally it contributes to the literature on the democratization conflict nexus by proposing that the sequencing of ethnic mobilization and political liberalization has significant effects on the likelihood of conflict This text will be of key interest to scholars and students of Post Soviet politics Balkan politics ethnic conflict peace and conflict studies federalism and more broadly to comparative politics and international relations

Crampton, 2014-07-15 Since the collapse of Eastern European communism the Balkans have been more prominent in world affairs than at any time since before the First World War Crises in the area have led NATO to fire its first ever shots in anger whilst international forces have been deployed on a scale and in a manner unprecedented in Europe since World War Two An understanding of why this happened is impossible without some knowledge of the history of the area before the fall of communism of how the communists came to power and how they used their authority thereafter Covering the communist states of Albania Bulgaria Romania and Yugoslavia and including Greece Richard Crampton provides a highly readable introduction to that history one that will be read by journalists diplomats and anyone interested in the region and its impact on world politics today

awareness of global inequality the current crises in many parts of South East Europe have received scant attention in literary and cultural studies The Balkans and the West addresses this deficiency Ranging in focus from Serbian cinema to Romanian travel literature from Western economic writings to Yugoslav fiction and from public discourse in Albania to NATO s vast propaganda machine the essays offer wide insight into representation and power in the contemporary European context
