Elisabeth Kapferer, Andreas Koch, Clemens Sedmak, 2016-05-11 In the light of the globalization post modernization social fragmentation and economization of many of today s living contexts local knowledge is receiving increasing attention in various sciences Commonly local knowledge indicates a counterpart to both rational forms of an explicit knowledge of facts and knowledge of universal validity Local knowledge attempts to appreciate a more comprehensive view of people s skills capabilities experience and sophistication On the other hand the reference to local implies an idea of bounded applicability of knowledge in a specific environment Beyond this scope of application local knowledge can be acknowledged either as instrumental in order to achieve specific goals or as an intrinsic value in order to deal with social relations solidarity common values and norms accordingly Social and spatial settings are influential for everybody s quality of life personal identity and political commitment and local knowledge is the essential foundation in turning these settings into a vivid arena This volume is a result of a two day conference held in November 2013 in Salzburg Austria dedicated to bringing together researchers from different scientific disciplines including sociology philosophy social geography economics history interpersonal communication studies cultural studies and theology in order to draw distinct trains of thought about local knowledge in a

transdisciplinary fashion the phenomenon its epistemic and philosophical reflection its methodological comprehension and its practical application
