Beagle a ten gun brig under the command of Captain Fitz Roy R N sailed from Devonport on the 27th of December 1831 The object of the expedition was to complete the survey of Patagonia and Tierra del Fuego commenced under Captain King in 1826 to 1830 to survey the shores of Chile Peru and of some islands in the Pacific and to carry a chain of chronometrical measurements round the World On the 6th of January we reached Teneriffe but were prevented landing by fears of our bringing the cholera the next morning we saw the sun rise behind the rugged outline of the Grand Canary Island and suddenly illumine the Peak of Teneriffe whilst the lower parts were veiled in fleecy clouds This was the first of many delightful days never to be forgotten On the 16th of January 1832 we anchored at Porto Praya in St Jago the chief island of the Cape de Verd archipelago The Voyage of the Beagle (annotated) Charles Darwin,2015-11-08 This work was described on its first appearance by a writer in the Quarterly Review as One of the most interesting narratives of voyaging that it has fallen to our lot to take up and one which must always occupy a distinguished place in the history of scientific navigation This prophecy has been amply verified by experience the extraordinary minuteness and accuracy of Mr Darwin s observations combined with the charm and simplicity of his descriptions have ensured the popularity of this book with all classes of readers and that popularity has even increased in recent years The Voyage of the Beagle - a Naturalist's Voyage Round the World Charles Darwin,2009-03-01 The Voyage of the Beagle is a title commonly given to the book written by Charles Darwin published in 1839 as his Journal and Remarks which brought him considerable fame and respect The title refers to the second survey expedition of the ship HMS Beagle which set sail from Plymouth Sound on 27 December 1831 under the command of captain Robert FitzRoy While the expedition was originally planned to last two years it lasted almost five the Beagle did not return until 2 October 1836 Darwin spent most of this time exploring on land three years and three months on land 18 months at sea Odyssey Tom Chaffin,2022-02-01 An illuminating and lively narrative of Charles Darwin s formative years and adventurous voyage aboard the H M S Beagle Winner of the Georgia Author of the Year Award for Biography Memoir Charles Darwin alongside Isaac Newton and Albert Einstein ranks among the world s most famous scientists In popular imagination he peers at us from behind a bushy white Old Testament beard This image of Darwin the Sage however crowds out the vital younger man whose curiosities risk taking and travels aboard HMS Beagle would shape his later theories and served as the foundation of his scientific breakthroughs Though storied the Beagle s voyage is frequently misunderstood its mission and geographical breadth unacknowledged The voyage s activities associated with South America particularly its stop in the Galapagos archipelago off Ecuador s coast eclipse the fact that the Beagle sailing in Atlantic Pacific and Indian ocean waters also circumnavigated the globe Mere happenstance placed Darwin aboard the Beagle an invitation to sail as a conversation companion on natural history topics for the ship s depression prone captain Darwin was only twenty two years old an unproven unknown aspiring geologist when the ship embarked on what stretched into its five year voyage Moreover conducting marine surveys of distance ports and coasts the Beagle s purposes were only

inadvertently scientific And with no formal shipboard duties or rank Darwin after arranging to meet the Beagle at another port often left the ship to conduct overland excursions Those outings lasting weeks even months took him across mountains pampas rainforests and deserts An expert horseman and marksman he won the admiration of gauchos he encountered along the way Yet another rarely acknowledged aspect of Darwin s Beagle travels he also visited often lingered in cities including Rio de Janeiro Buenos Aires Montevideo Santiago Lima Sydney and Cape Town and left colorful often sharply opinionated descriptions of them and his interactions with their residents In the end Darwin spent three fifths of his five year voyage on land three years and three months on terra firma versus a total 533 days on water Acclaimed historian Tom Chaffin reveals young Darwin in all his complexities the brashness that came from his privileged background the Faustian bargain he made with Argentina s notorious caudillo Juan Manuel de Rosas his abhorrence of slavery and his ambition to carve himself a place amongst his era s celebrated travelers and intellectual giants Drawing on a rich array of sources in a telling of an epic story that surpasses in breadth and intimacy the naturalist s own *Voyage of the Beagle* Chaffin brings Darwin s odyssey to vivid life

The Voyage of the Beagle Charles Darwin,1997 Darwin s notes from his 1831 trip provide an account of the HMS Beagle and the first hints of his theory of evolution and natural selection *Voyage of the Beagle* Charles Darwin,2017-06-02 The *Voyage of the Beagle* is the title most commonly given to the book written by Charles Darwin and published in 1839 as his *Journal and Remarks* bringing him considerable fame and respect This was the third volume of *The Narrative of the Voyages of H M Ships Adventure and Beagle* the other volumes of which were written or edited by the commanders of the ships *Journal and Remarks* covers Darwin s part in the second survey expedition of the ship HMS Beagle **The Voyage of the Beagle** Charles Darwin,2017-12-17 The *Voyage of the Beagle* Charles Darwin The Beagle sailed from Plymouth Sound on 27 December 1831 under the command of Captain Robert FitzRoy While the expedition was originally planned to last two years it lasted almost five the Beagle did not return until 2 October 1836 I have stated in the preface to the first Edition of this work and in the *Zoology of the Voyage of the Beagle* that it was in consequence of a wish expressed by Captain Fitz Roy of having some scientific person on board accompanied by an offer from him of giving up part of his own accommodations that I volunteered my services which received through the kindness of the hydrographer Captain Beaufort the sanction of the Lords of the Admiralty AFTER having been twice driven back by heavy southwestern gales Her Majesty s ship Beagle a ten gun brig under the command of Captain Fitz Roy R N sailed from Devonport on the 27th of December 1831 The object of the expedition was to complete the survey of Patagonia and Tierra del Fuego commenced under Captain King in 1826 to 1830 to survey the shores of Chile Peru and of some islands in the Pacific and to carry a chain of chronometrical measurements round the World On the 6th of January we reached Teneriffe but were prevented landing by fears of our bringing the cholera the next morning we saw the sun rise behind the rugged outline of the Grand Canary island and suddenly illuminate the Peak of Teneriffe whilst the lower parts were veiled in fleecy clouds This was the first of many delightful days never to be forgotten
