The Wages Of Seeking Help Sexual Exploitation By Professionals:

The Wages of Seeking Help Carol Bohmer, 2000-03-30 Because women are more likely to seek professional help and because they are more likely to be the victims of abuse by people in positions of power women who do seek professional assistance may end up being victims of sexual exploitation by the very people from whom they seek help Unlike other problems which primarily affect women such as rape and domestic violence this issue has received little public attention and has had little success in building a social movement to combat it Bohmer analyzes the social construction of this unique problem and the response it has received from individuals groups and various institutions such as the law and the regulatory process Bohmer explains why this problem has a different history from other problems facing primarily women and why it has not had much success in stirring social movement for addressing the problem Using other issues of feminist concern Bohmer connects the problem of professional sexual exploitation to issues of gender and power and shows the ways in which women seeking help are punished for doing so In addition the available self help groups and organizations are examined in light of their benefits and relative lack of success in combating the problem The legal and regulatory systems in place are also discussed in terms of the ways in which society responds to new social problems as they receive public attention

Issues and Dual Relationships in the Human Services Frederic G. Reamer, 2020-11-24 Should a therapist disclose personal information to a client accept a client's gift or provide a former client with a job Is it appropriate to exchange e mail or text messages with clients or correspond with them on social networking websites Some acts such as initiating a sexual relationship with a client are clearly prohibited yet what about more subtle interactions such as hugging or accepting invitations to a social event Is maintaining a friendship with a former client or a client's relative a conflict of interest Frederic G Reamer offers a frank analysis of a range of boundary issues that human service practitioners may confront He confronts the ethics of intimate relationships with clients and former clients the healthy parameters of practitioners self disclosure the

giving and receiving of gifts and favors and the unavoidable and unanticipated circumstances of social encounters and geographical proximity With case studies addressing challenges in the mental health field school contexts child welfare addiction programs home health care elder services and prison rural and military settings Reamer offers effective practical risk management models that prevent problems and help balance dual relationships Since the publication of the previous edition of *Boundary Issues and Dual Relationships in the Human Services* in 2012 digital technology has transformed how human service professionals deliver services to clients This third edition brings the book up to date adding discussion of the ways in which practitioners online communications and technology based relationships with clients can violate ethical standards and providing practical advice for how to resolve boundary issues

None so Fit to Break the Chains: Marx's Ethics of Self-Emancipation Dan Swain, 2019-09-02 In *None so Fit to Break the Chains* Dan Swain offers an interpretation of Marx's ethics that foregrounds his commitment to working class self emancipation and argues for the continued relevance of this principle for contemporary politics Self emancipation is frequently overlooked in discussions of Marx's ethics but it deeply influenced his criticism of capitalism his approach towards an alternative and his conception of his own role as activist and theorist Foregrounding self emancipation offers new perspectives on existing debates in the interpretation of Marx such as the meanings of concepts like alienation exploitation and utopianism and can also offer broader insights into the relationship between critical theory and practice that have an enduring relevance today
