Marianne Hanson, William T. Tow

The Warriors Honor Ethnic War And The Modern Conscience:

The Warrior's Honor Michael Ignatieff, 1998-10-15 Since the early 1990s Michael Ignatieff has traveled the world's war zones from Bosnia to the West Bank from Afghanistan to central Africa. *The Warrior's Honor* is a report and a reflection on what he has seen in the places where ethnic war has become a way of life. Ignatieff charts the rise of the new moral interventionists: the relief workers, reporters, delegates, and diplomats who believe that other people's misery is of concern to us all. And he brings us face to face with the new ethnic warriors: the warlords, gunmen, and paramilitaries who have escalated postmodern war to an unprecedented level of savagery. Hard hitting and passionate, *The Warrior's Honor* is a profound and searching exploration of the perils and obligations of moral citizenship in a world scarred by war and genocide. **The**

Warrior's Honour Michael Ignatieff, 2006 *The Warrior's Honour* is a profound and searching exploration of the troubled connection between the zones of safety and the zones of danger that configure the modern world. Reporting from places where ethnic conflict has become a way of life from the West Bank to Bosnia from Afghanistan to central Africa, Ignatieff brings astute analysis and insight to the complexity of the modern world. Few have probed ethnic conflict more deeply than Michael Ignatieff. *The Warrior's Honour* combines superior reporting with provocative and troubling insights. *The New York Review of Books* Ignatieff is a public intellectual at his journalistic best here dedicating his academically trained mind to marshalling the facts, interpreting the world, and forcing us to care about horrors we might otherwise not see. *The Warrior's Honour* enlarges our understanding of the moral dilemmas of global society. *The Financial Post* Ignatieff grounds his painful insights and liberal analysis in a penetrating assemblage of facts, voices, and pathos that is worthy of comparison with the literary reportage of Rebecca West, Edmund Wilson, and Janet Flanner. *The Boston Globe* [Rethinking the Nature of War](#)

Isabelle Duyvesteyn, Jan Angstrom, 2005 Have globalization, virulent ethnic differences, and globally operating insurgents fundamentally changed the nature of war in the last decade? Interpretations of war as driven by politics and state rationale formulated most importantly by the 19th-century practitioner Carl von Clausewitz have received strong criticism. Political explanations have been said to fall short in explaining conflicts in the Balkans, Africa, Asia, and the attacks of 11 September 2001 in the United States. This book re-evaluates these criticisms not only by scrutinising Clausewitz's arguments and their applicability but also by a careful reading of the criticism itself. In doing so, it presents empirical evidence on the basis of several case studies addressing various aspects of modern war such as the actors' conduct and purposes of war. **Warrior's Dishonour** George Kassimeris, 2016-02-17 The characteristic act of men at war is not killing. It is killing by committing shocking and unspeakable atrocities when circumstances permit. What drives ordinary people into hatred, genocide, inhumanity, and evil? What turns friends and neighbours against each other with such savagery? Where does such barbarity come from? This collection examines the anarchy, cruelty, and overwhelming confusion of modern warfare. In particular, it analyzes what happens when morality vanishes from the battlefield and why torture is endemic in modern warfare. How

human rights in times of war lose meaning as a set of principles whether official propaganda and enemy demonization make barbaric behaviour easier how we can develop cultures opposed to torture that damage the legitimacy of our societies Through a wealth of case studies that have been carefully selected in terms of their themes approaches and methodologies this comprehensive volume provokes discussion and enhances understanding from a variety of disciplinary perspectives

War and Peace in the Caucasus Vicken Cheterian, 2011-03-12 After the collapse of the Soviet Union the Caucasus was wracked by ethnic and separatist violence as the peoples of the region struggled for self determination Vicken Cheterian who spent many years as a reporter and analyst covering the region s conflicts asks why nationalism emerged as a dominant political current and why of the many nationalist movements that emerged some led to violence while others did not He explains also why minority rebellions were victorious against larger armies in mountainous Karabakh Abkhazia and in the first war of Chechnya and discusses the ongoing instability and armed resistance in the North Caucasus He concludes his book by examining chapters the great power competition between Russia the US and the EU over the oil and gas resources of the Caspian region

New and Old Wars Mary Kaldor, 2013-04-26 Mary Kaldor s *New and Old Wars* has fundamentally changed the way both scholars and policy makers understand contemporary war and conflict In the context of globalization this path breaking book has shown that what we think of as war that is to say war between states in which the aim is to inflict maximum violence is becoming an anachronism In its place is a new type of organized violence or new wars which could be described as a mixture of war organized crime and massive violations of human rights The actors are both global and local public and private The wars are fought for particularistic political goals using tactics of terror and destabilization that are theoretically outlawed by the rules of modern warfare Kaldor s analysis offers a basis for a cosmopolitan political response to these wars in which the monopoly of legitimate organized violence is reconstructed on a transnational basis and international peacekeeping is reconceptualized as cosmopolitan law enforcement This approach also has implications for the reconstruction of civil society political institutions and economic and social relations This third edition has been fully revised and updated Kaldor has added an afterword answering the critics of the New Wars argument and in a new chapter Kaldor shows how old war thinking in Afghanistan and Iraq greatly exacerbated what turned out to be in many ways archetypal new wars characterised by identity politics a criminalised war economy and civilians as the main victims Like its predecessors the third edition of *New and Old Wars* will be essential reading for students of international relations politics and conflict studies as well as to all those interested in the changing nature and prospect of warfare

The International Committee of the Red Cross David P. Forsythe, Barbara Ann Rieffer-Flanagan, Barbara Ann J. Rieffer-Flanagan, 2007-05-07 The International Committee of the Red Cross ICRC has a complex position in international relations being the guardian of international humanitarian law but often acting discretely to advance human dignity Treated by most governments as if it were an inter governmental organization the ICRC is a non governmental organization all Swiss at the top and it is given rights and duties

in the 1949 Geneva Conventions for Victims of War Written by two formidable experts in the field this book analyzes international humanitarian action as practiced by the International Red Cross explaining its history and structure as well as examining contemporary field experience and broad diplomatic initiatives related to its principal tasks Such tasks include ensuring that detention conditions are humane for those imprisoned by reason of political conflict or war providing material and moral relief in conflict promoting development of the humanitarian part of the laws of war improving the unity and effectiveness of the movement

Heroism and the Changing Character of War S. Scheipers,2014-04-01 Post heroism is often perceived as one of the main aspects of change in the character of war a phenomenon prevalent in western societies According to this view demographic and cultural changes in the west have severely decreased the tolerance for casualties in war This edited volume provides a critical examination of this idea

The Northern Ireland experience of conflict and agreement Robin Wilson,2018-07-30 The Northern Ireland Experience of Conflict and Agreement presents a salutary warning to the international community against the fashionable view that there is an Irish model which can be exported to cauterise ethnic troubles around the globe The book draws on extensive archive research in London and Dublin on the 1970s power sharing experiment and on interviews with senior officials and political figures from the two capitals as well as reconciliation practitioners about the negotiation and chequered implementation of the Belfast agreement It shows how stereotyped conceptions of the problem as a product of ancient hatreds allied to solutions based on Realpolitik have failed to transform Northern Ireland from a fragile peace following the exhaustion of protracted paramilitary campaigns to genuine reconciliation The book concludes with practical proposals for constitutional reforms which would favour genuine power sharing rather than merely sharing power out and set Northern Ireland on the road to the normal civic society its long suffering residents desire It will be essential reading not only for academics and postgraduates interested in ethnic conflict but also for policy makers who confront it in practice

Soldiers and Civilization Reed R Bonadonna,2017-05-15 *Soldiers and Civilization* covers the history of the military profession in the Western World from the ancient Greeks to the present day Drawing from military history sociology and other disciplines it goes beyond traditional insights to locate the military profession in the context of both literary and cultural history Reed Bonadonna maintains that soldiers have made an unacknowledged contribution to the theory and practice of civilization and that they will again be called upon to do so in important ways The comprehensive nature of the book and the extent to which Bonadonna draws on the disciplines of the humanities to make his points set this volume apart from others on the subject The military profession in its broadest consideration might be viewed as an interdisciplinary branch of the humanities A soldier is made of the words of history poetry and the laws and language of his calling With each new conflict the military may be called upon to preserve the values of civilization To fulfill its future role the military professionals of today must know heed and apply the examples and narratives of the most successful and exemplary military professionals of the past at their best

Brian Ferguson, 2003-09-02 In this book a collection of experts investigate the varied forces from global systems to local beliefs that lead to civil violence chaos and perhaps a new political order The State Identity and Violence explores acts of mass violence occurring within national borders and examines the links such acts have to personal identities and how they challenge the character or very existence of the state Building upon the anthropological premises of holism and cross cultural comparison this volume shows how violent challenges to existing states should be conceptualized as layered problems with multiple kinds of causes It not only goes beyond the ancient hatreds explanation but shows the inadequacy of the concept of ethnic violence and of theories which treat interests and identities as separate sometimes opposed variables

The View from the Ground Aaron Sheehan-Dean, 2006-12-22 Civil War scholars have long used soldiers diaries and correspondence to flesh out their studies of the conflict s great officers regiments and battles However historians have only recently begun to treat the common Civil War soldier s daily life as a worthwhile topic of discussion in its own right The View from the Ground reveals the beliefs of ordinary men and women on topics ranging from slavery and racism to faith and identity and represents a significant development in historical scholarship the use of Civil War soldiers personal accounts to address larger questions about America s past Aaron Sheehan Dean opens The View from the Ground by surveying the landscape of research on Union and Confederate soldiers examining not only the wealth of scholarly inquiry in the 1980s and 1990s but also the numerous questions that remain unexplored Chandra Manning analyzes the views of white Union soldiers on slavery and their enthusiastic support for emancipation Jason Phillips uncovers the deep antipathy of Confederate soldiers toward their Union adversaries and Lisa Laskin explores tensions between soldiers and civilians in the Confederacy that represented a serious threat to the fledgling nation s survival Essays by David Rolfs and Kent Dollar examine the nature of religious faith among Civil War combatants The grim and gruesome realities of warfare and the horror of killing one s enemy at close range profoundly tested the spiritual convictions of the fighting men Timothy J Orr Charles E Brooks and Kevin Levin demonstrate that Union and Confederate soldiers maintained their political beliefs both on the battlefield and in the war s aftermath Orr details the conflict between Union soldiers and Northern antiwar activists in Pennsylvania and Brooks examines a struggle between officers and the Fourth Texas Regiment Levin contextualizes political struggles among Southerners in the 1880s and 1890s as a continuing battle kept alive by memories of and identities associated with their wartime experiences The View from the Ground goes beyond standard histories that discuss soldiers primarily in terms of campaigns and casualties These essays show that soldiers on both sides were authentic historical actors who willfully steered

Genocide and the Global Village K. Campbell, 2001-09-07 A half century ago the international community made a solemn promise to never again allow genocide to go unchallenged In the early days of the Post Cold War New World Order though international leaders failed to stop horrific genocides in Bosnia and Rwanda chiefly because Western leaders lack the political will to use decisive force to suppress ongoing genocide Despite increased attention to war crimes issues in the Clinton Administration and increased rhetoric about its commitment to halting genocide American military force policy still gives lowest priority to responding to gross abuses of human rights In *Genocide and the Global Village* Kenneth Campbell explains why the international community fails so miserably to prevent suppress and punish contemporary genocide The book integrates the scattered pieces of this complex problem political military legal and ethical into a more complete clearer picture of the challenge facing the world today Campbell engages in a complex multi level analysis of genocide s impact upon world order and the inter play of politics and morality in the international community s determination of the appropriate role for military force in halting genocide and securing an emerging global civil society Campbell recommends practical steps the international community can take to greatly improve its response the next time genocide occurs a next time that will occur
