Berry has argued that our most pressing ecological and cultural need is a renewed formal intelligence a mode of thinking and acting that fosters the health of the earth and its beings Yet the present industrial economy prioritizes a technical self centered way of relating to the world that often demands and rewards busyness over thoughtful observation independence over relationships and replacing over repairing Such a system is both unsustainable and results in destructive far reaching consequences for our society and land In *Virtues of Renewal* Wendell Berry's *Sustainable Forms* Jeffrey Bilbro combines textual analysis and cultural criticism to explain how Berry's literary forms encourage readers to practice virtues of renewal While the written word alone cannot enact change Bilbro asserts that Berry's poetry essays and fiction can inspire people to as Berry writes practice resurrection Bilbro examines the distinct yet symbiotic features of these three genres demonstrating the importance of the humanities in supporting tenable economies He uses Berry's pieces to suggest the need for more robust language for discussing conservation ecology and the natural and regenerative process of death Bilbro additionally translates Berry's literature to a wider audience putting him in conversation with philosophers and theologians such as Ivan Illich Willie Jennings Charles Taylor and Augustine The lessons that Berry and his work have to offer are not only for those

interested in cultivating the land but also for those who cultivate their communities and live mindfully In short these lessons are pertinent to all who are willing to make an effort to live the examined life Such formative work is not dramatic or quick but it can foster the deep and lasting transformation necessary to develop a more sustainable culture and economy

Wendell Berry and Higher Education Jack R. Baker, Jeffrey Bilbro, 2017-06-13 Why the university should focus on community An enlightening interpretation of Wendell Berry's philosophy for the pursuit of a holistic higher education Publishers Weekly Prominent author and cultural critic Wendell Berry is well known for his contributions to agrarianism and environmentalism but his commentary on education has received comparatively little attention Yet Berry has been eloquently unmasking America's cultural obsession with restless mobility for decades arguing that it causes damage to both the land and the character of our communities The education system he maintains plays a central role in this obsession inculcating in students minds the American dream of moving up and moving on Drawing on Berry's essays fiction and poetry Jack R Baker and Jeffrey Bilbro illuminate the influential thinker's vision for higher education in this path breaking study Each chapter begins with an examination of one of Berry's fictional narratives and then goes on to consider how the passage inspires new ways of thinking about the university's mission Throughout Baker and Bilbro argue that instead of training students to live in their careers universities should educate students to inhabit and serve their places The authors also offer practical suggestions for how students teachers and administrators might begin implementing these ideas Baker and Bilbro conclude that institutions guided by Berry's vision might cultivate citizens who can begin the work of healing their communities graduates who have been educated for responsible membership in a family a community or a polity
