Social Networking in South-Eastern Europe Maria Baramova,Grigor Boykov,Ivan Parvev,2021 Social Networking in South Eastern Europe in the 15th 19th centuries exhibits specific characteristics the Ottomans and the Habsburgs for example each have their pattern of building and using social networks with the Third South Eastern Europe i e the vassal principalities in the Balkans and the re created national states staying closer in the Ottoman pattern It seems that the Muslim Oriental social traditions established in the Balkans during Ottoman rule had a clear impact on the building of networks and the exercising of social influence The specific regional practices once established were very hard to overcome or to replace by other patterns of social networking These practices
