The Ways Of Judgement Bampton Lectures:

The Ways of Judgement Oliver O'Donovan, 2008-01-29 In this probing book Oliver O'Donovan extends the exploration into the correspondence between theology and politics that he began in *The Desire of the Nations* While that earlier work took as its starting point the biblical proclamation of God's authority *The Ways of Judgment* approaches political theology from the political side Responsive to developments such as the uncertain role of the United Nations after the Cold War and the expansion of the European Union O'Donovan also draws on the extensive tradition of Christian political thought and a range of contemporary theologians Rather than supposing as does some political theology that the right political orientations are well understood and that theological beliefs should be renegotiated to fit them O'Donovan considers contemporary social and political realities to be impenetrably obscure and elusive Finding the gospel proclamation luminous by contrast O'Donovan sheds light from the Christian faith upon the intricate challenge of seeking the good in late modern Western society Pursuing his analysis in three movements O'Donovan first considers the paradigmatic political act the act of judgment and then takes up the question of forming political institutions through representation Finally he tackles the opposition between political institutions and the church provocatively investigating how Christians can be the community instructed by Jesus to judge not

Theology and the Future Trevor Cairney, David Starling, 2014-07-31 Theology was once queen of the sciences the integrating centre of Christendom's conceptual universe In our own time the very idea of systematic theology is frequently called into question derided as an arcane and superstitious pseudo discipline Even within the church it is commonly disregarded in favour of unreflective piety and pragmatism At the same time the southward shift in world Christianity's centre of gravity prompts crucial questions about the future form and content of theology Within this context Theology and

the Future offers a case for the continuing viability of theology exploring how it might adapt to changing circumstances and discussing its implications for how we are to imagine and help shape our shared human future Beginning with the question of God this book explores what might be meant by the future of God and what its implications are for Christian theology Chapters follow on the location of theology in global Christianity the church and the academy and on its sources and method The second half of the book explores a wide variety of dimensions of the human future that theology might address and illuminate The essays bring together a mix of specialist theologians and interdisciplinary thinkers to support the assertion that there can be no more critical endeavor to the future than understanding God and all things in relationship to him

The Righteous Judgment of God John Richard Coulson, 2016-12-22 This book seeks to fill a gap on the important topic of God's judgment It is written for Christians who desire to have a biblical worldview that helps them to live faithfully for Jesus Christ It investigates what the apostle Paul has to say in his letters about God's judgment The worldview that emerges is one that must not be ignored of judgment as fundamental to our human life as Adam's descendants of God's judgment at work in the world today and of the final judgment as the certain future for every person At the center is the decisive judgment of our sin in Christ at the cross which is God's answer to our judgment problem For each of these four aspects of judgment key questions are considered with the central question being How do we live in the light of this truth

Protestant Traditions and the Soul of Europe Gijsbert van den Brink, Gerard den Hertog, 2017-12-01 What binds contemporary Europeans together in terms of cultural values that go beyond a common interest in economic growth In a time of resurging nationalist movements all over Europe the need for what former President of the European Commission Jacques Delors called a soul for Europe has become more urgent than ever In this volume Delors's 25 years old appeal to the churches is taken seriously In particular contributions to a common sense of belonging that have been made by the traditions of European Protestantism are carefully investigated In nineteen case studies topics and areas as varied as theological identity religious tolerance political philosophy ethics the arts the scientific mentality and the economy are covered It appears that despite the rise of religious pluralism throughout Europe aspects of the Protestant ethos continue to be key to societal cohesion in many places Mit Beiträgen von Ibolya Balla Henk van den Belt Jasper Bosman Gijsbert van den Brink Ad de Bruijne Gerard den Hertog Zsolt G. r. zdi Theo L.
