The Dark Ages and the Age of Gold Russell A. Fraser, 2015-03-08 In this original and provocative book Russell Fraser has set himself no less a task than the description and interpretation of one of the signal facts of Western history the breaking away of the present from the medieval past He locates this break in England in the sixteenth century and on the continent two hundred years earlier Unafraid to synthesize he weaves a rich fabric of quotations allusions and examples from art music philosophy theology and physical science to explain the cultural transition to the modern world Although the author ranges from Plato to the present

his focus is concentrated on the major figures of the Middle Ages and the Renaissance especially Shakespeare the last and greatest of medieval artists His intention is always to draw together and compare medieval Renaissance and contemporary attitudes so that the reader can see the past becoming the present how and when this transformation occurred and for what reasons Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The War Within - Between Good and Evil Bhimeswara Challa, The human has always prided himself as an exceptional moral species but has always been haunted by two questions Why am I not good when I want to be why do I do bad when I don't want to This is at the heart of what scriptures and sages have long alluded to as the eternal internal struggle between good and evil that wages in the human consciousness The book posits that much of our confusion and angst stems from our inability to recognize the ramifications of this war between two sides of our own self It is because we are ignoring this war between two sides of our own self It is because we are ignoring this war that we are losing all other wars of the world That ignorance is the primary source of all the horrors malevolence and violence that fill us with so much dread But a favorable outcome is possible only if the forces of goodness are aided to get an upper hand consistently and that calls for two cathartic changes consciousness change by inducing a turn from the mind to the heart and contextual change by radically reconstructing the roles of morality money and mortality in our everyday lives The book offers a menu of insights and options we all can use to tilt the scales in the war waging inside each of us
