Tracking Universal Health Coverage Monitoring:

Tracking Universal Health Coverage World Health Organization, 2015-07-21 This report is the first of its kind to measure health service coverage and financial protection to assess countries progress towards universal health coverage It shows that at least 400 million people do not have access to one or more essential health services and 6% of people in low and middle income countries are tipped into or pushed further into extreme poverty because of health spending Universal health coverage UHC means that all people receive the quality essential health services they need without being exposed to financial hardship A significant number of countries at all levels of development are embracing the goal of UHC as the right thing to do for their citizens It is a powerful social equalizer and contributes to social cohesion and stability Every country has the potential to improve the performance of its health system in the main dimensions of UHC coverage of quality services and financial protection for all Priorities strategies and implementation plans for UHC will differ from one country to another Enhanced and expanded monitoring of health under the Sustainable Development Goals SDGs should seek to build on that experience sharpening our focus on the key health service and financial protection interventions that underpin UHC Effective UHC tracking is central to achieving the global goals for poverty alleviation and health improvement set by the World Bank Group and WHO Without it policymakers and decision takers cannot say exactly where they are or set a course for where they want to go They cannot know whether they are focussing their efforts in the right areas or whether their efforts are making a difference Monitoring is thus fundamental to the achievement of UHC objectives It will also be vital to the realization of the SDGs This report is a critical step to show how monitoring progress can be done telling us what the state of coverage of interventions and financial protection is and telling us where to focus most [Tracking universal health coverage](#)

The World Bank, World Health Organization, 2023-11-14 The world is off track to make significant progress towards universal health coverage UHC SDG target 3.8 by 2030 as improvements to health services coverage have stagnated since 2015 and the proportion of the population that faced catastrophic levels of out of pocket OOP health spending has increased

[Tracking universal health coverage](#) World Health Organization, The World Bank, 2023-11-07 *Tracking universal health coverage: 2021 global monitoring report* World Health Organization, The World Bank, 2021-12-12 The Tracking Universal Health Coverage 2021 Global Monitoring Report by the World Health Organization and the World Bank provides a comprehensive overview of the progress towards universal health coverage UHC globally It evaluates key Sustainable Development Goal indicators related to health service coverage and financial hardship from healthcare costs The report highlights trends inequalities and the impact of the COVID 19 pandemic on health services It aims to inform policymakers healthcare professionals and international organizations on the state of UHC and offers insights into improving health systems The intended audience includes researchers policy analysts and public health officials **Tracking universal health coverage: 2021 global monitoring report. Executive summary** World Health Organization, The World

Bank,2022-03-31 The Road to Universal Health Coverage Jeffrey L. Sturchio,Ilona Kickbusch,Louis Galambos,2019-01-15

How can countries chart their own course toward universal health coverage Like many ambitious global goals universal health coverage UHC remains an aspiration for many countries The World Health Organization estimates that half the world's population lacks access to basic health services Moreover this already staggering number masks inequities that exist between and within countries gaps between rich and poor men and women young and old and among people of different ethnic backgrounds UHC promises to give all people greater access to higher quality health services without the fear of financial hardship But the task of turning this vision into reality poses a significant challenge for countries at all stages of economic development In The Road to Universal Health Coverage Jeffrey L Sturchio Ilona Kickbusch Louis Galambos and their contributors explore the ways in which the private sector is already helping countries achieve universal health coverage Stressing the many positive aspects of UHC developments the book focuses on the new health economy and the sometimes controversial dimensions of the private sector helping countries achieve UHC Theoretical chapters are complemented by a series of case studies that explore the myriad ways in which private sector actors are already addressing UHC What are the conditions required for countries to translate their successful experiences and policy promises into practical results for improved population health In answering this question the contributors examine the relationship between health employment and economic growth They also analyze the critical success factors for private sector engagement in UHC the role of healthy women in creating and sustaining healthy economies and the role of the pharmaceutical sector Looking to the political economic and social implications of moving from aspiration to implementation The Road to Universal Health Coverage points the way to the many opportunities ahead as companies continue to work with governments and civil society partners to help achieve UHC Jean Louise Arcand Hector Arreola Ornelas Nathan J Blanchet Christine Bugos Jim Campbell John Campbell Jr Ibadat Dhillon Donika Dimovska Christian Franz Michael Frost Louis Galambos Belén Garijo Adeel Ishtiaq Sowmya Kadandale Ilona Kickbusch Felicia Marie Knaul Jeremy Lauer Robert Marten Justin McCarthy Harald Nusser K Srinath Reddy Yasmine Rouai Jeffrey L Sturchio Cicely Thomas Tana Wuliji Snow Yang Pascal Zurn **Global monitoring report on financial protection in health 2021** World Health Organization,World Bank,2021-12-10 The 2021 Global monitoring report on financial protection in health shows that before the COVID 19 pandemic the world was off track to reduce financial hardship due to health expenditures because trends in catastrophic health spending were going in the wrong direction and the number of people incurring impoverishing health spending remained unacceptably high Chapter 1 Chapter 2 summarizes emerging evidence on the consequence of the pandemic and the related macroeconomic and fiscal crisis that points to the likely worsening of financial protection for households particularly as a result of declining income and consumption along with rising poverty and inequality **Evaluation of the WHO Special Programme on Primary Health Care** World Health Organization,2025-07-25 The evaluation covers the period January 2020 to August 2023 The geographical scope of the

evaluation has involved the three levels of WHO global regional and country levels and external key partners The programmatic evaluation scope was concerned with assessing the SP PHC in the following areas evaluation criteria relevance coherence effectiveness efficiency added value sustainability and equity gender and human rights considerations The evaluation did not assess the Universal Health Coverage Partnership UHC P as it has its own separate governing body and reviews evaluations but instead considered how the SP PHC had enhanced the value of the UHC P and vice versa The resilience and essential public health functions REPHF team and Systems Governance and Stewardship SGS were also not within the scope of this evaluation However these workstreams were considered in the wider conclusions and recommendations for the SP PHC as appropriate Finally the evaluation was focused on the SP PHC its scope did not include assessing the configuration and capacity of WHO s departments and functions as they relate to UHC and health systems

Making Health Systems Work in Low and Middle Income Countries Sameen Siddiqi, Awad Mataria, Katherine D. Rouleau, Meesha Iqbal, 2022-12-29 The importance of health systems has been reinforced by the commitment of Low and Middle Income Countries L faculties of public health and population sciences policymakers managers and health professionals working for governments civil society organizations and development agencies in health Universal health coverage partnership annual report 2020 ,2022-04-05
