**TVR Performance Portfolio 2000-2005** R.M. Clarke, 2006-07-15 TVR sports cars could really only be English In so many ways they epitomize what sports cars ought to be in this day and age very fast exotically styled loud and politically incorrect That was all part of the allure of this quixotic range of English cars Where other makers of sports cars have sourced componentry from all over the world TVR has determinedly set about making as much of their cars in house as possible The arrival of the recent Tuscan Cerbera Sagaris Typhon and Tamora has seen the company phase out the venerable Rover alloy V8 in favor of its own DOHC in line 3 6 litre 350 bhp six cylinder engine that drives the rear wheels through a TVR made manual gearbox To say that the road performance of these sports cars is exhilarating would be some kind of enormous understatement They are electrifyingly fast to drive All TVRs run to top speeds of over 150 mph and will run the classic 0 60 mph sprint in 5 seconds or less These are supercar performance figures They are dynamic sports cars that are designed for extroverts who not only want to be noticed but really enjoy the thrill of driving on the edge whenever the opportunity presents itself and who enjoy the camaraderie of belonging to a car club where their interests are shared Cars & Parts, 1988 Portfolio Performance Measurement and Benchmarking: Fixed-Income Risk Jon A. Portfolio Performance Evaluation George O. Aragon, Wayne E. Ferson, 2008 This paper provides a review of the methods for measuring portfolio performance and the evidence on the performance of professionally managed investment portfolios Traditional performance measures strongly influenced by the Capital Asset Pricing Model of Sharpe 1964 were developed prior to 1990 We discuss some of the properties and important problems associated with these measures We then review the more recent Conditional Performance Evaluation techniques designed to allow for expected returns and risks that may vary over time and thus addressing one major shortcoming of the traditional measures We also discuss weight based performance measures and the stochastic discount factor approach We review the evidence that these newer measures have produced on selectivity and market timing ability for professional managed investment funds The evidence includes equity style mutual funds pension funds asset allocation style funds fixed income funds and hedge funds
