fierce hatred of spoilers is associated with the Golden Age of television and the ubiquity of DVR Netflix Hulu and the like Today most people have their own personal horror story about the time when they were subject to the most unfair unjust outrageous and unforgivable spoiler A first definition of spoiler might be revealing any information about a work of fiction in any form such as a book TV show or movie to someone who hasn't encountered it But this isn't quite good enough It wouldn't be a spoiler to say The next Star Trek movie will include a Vulcan Nor would it be a spoiler to say The story of Shawshank Redemption comes from a short story by Stephen King There has to be something at least a bit unexpected or unpredictable about the information and it has to be important to the content of the work And you could perpetrate a spoiler by divulging information about something other than a work of fiction for example details of a sports game to someone who has tivoed the game but not yet watched it Timing and other matters of context may make the difference between a spoiler and a non spoiler It could be a spoiler to say There's a Vulcan in the next Star Trek movie if spoken to someone raised in North Korea and knowing absolutely nothing about Star Trek It can also be a spoiler to say something about a movie or TV show when it's new and not a spoiler when it has been around for some years This raises the distinction between personal spoilers and impersonal spoilers Personal spoilers are spoilers for some particular individual because of their circumstances You should never give personal spoilers such as when someone says that they have never seen a particular movie even though the plot is common knowledge You can't tell them the plot Sometimes facts other than facts about a story can be spoilers because they allow people to deduce something about the story To reveal that a certain actor is not taking part in shooting the next episode may allow someone to jump to conclusions about the story Spoilers need not be specific they can be very vague If you told someone there was a big surprise ending to The Sixth Sense or Fight Club that might spoil these movies for people who haven't seen them You can spoil by mentioning things that are common knowledge if someone has missed out on that knowledge Luke and Darth Vader are related but you usually can't be blamed for this People have some obligation to keep up This means that in general you can't be blamed for spoilers about stories that are old Both Romeo and Juliet are dead at the end could be a spoiler for someone but you can't be blamed for it This is a rule that's often observed many publications have regulations forbidding the release of some types of spoilers for a precisely fixed time after a movie release However some spoilers never expire either because the plot twist is so vital or the work is so significant So if you're talking to young kids you probably should never say Darth Vader is Luke's father Norman Bates is Mother Dorothy's trip to Oz was all a dream All the passengers on the Orient Express collaborated in the murder in The Murder of Roger Akroyd the narrator did it Soylent Green is people To Serve Man is a cookbook and finally what many consider to be the greatest and worst spoiler of them all The Planet of the Apes is really Earth Some famous spoilers are not true spoilers It's not going to spoil Citizen Kane for anyone to say Rosebud is his sled This piece of information is not truly significant It's more of a McGuffin than a plot twist A paradox about spoiling is that people often enjoy a work of fiction such as a Sherlock Holmes story over and over again They

remember the outline of the story and who did the murder but this doesn't stop them re-reading. This demonstrates that the spoilage generated by spoilers is less than we might imagine. It's bad to spoil but how bad? People do seem to exaggerate the dreadfulness of spoiling compared with other examples of inconsiderateness or rudeness. Are there occasions when it's morally required to spoil? Yes, you might want to dissuade someone from watching or reading something you believed might harm them somehow. Also, you might issue a spoiler in order to save the world from a terrorist attack. Yes, this is a philosophy book, so it has to include at least one totally absurd example. A more doubtful case is deliberate spoiling as a protest, as occurred with *Basic Instinct*. The book ends with three spoiler lists: the Most Outrageous Spoiler Horror Stories, the Greatest Spoilers of All Time, and the Greatest Spoilers in Philosophy. **Trick, Treat, Transgress** Sandra Danneil, 2021-09-01. The Simpsons are not only the world's most famous TV family; they are also the protagonists of one of the longest-lasting animation programs in US television. Over the course of the past thirty years, the yellow five from Springfield have become an indispensable part of American popular culture, which still turns academics into fans and inspires fans to research the objects of their fascination. This book focuses on the Halloween Special *TREEHOUSE OF HORROR*, a part of *THE SIMPSONS* which research has largely left unnoticed. If *THE SIMPSONS* revolutionized how we look through television at US American culture and society, *TREEHOUSE OF HORROR* has changed the way we remember popular culture history by way of horror traditions. This study demonstrates how Matt Groening's cartoon shows have painted a yellow archive of the digital age.

Petrinovich, *The Cannibal Within* offers an evolutionary account of the propensity of human beings in extreme circumstances to eat other human beings despite the strong Western taboo against such practices What sets this volume apart from the large body of literature on cannibalism both popular and anthropological is the underlying premise cannibalism as an alternative to starvation is tacitly condoned by the same biological morality that would condemn cannibalism of other sorts in non threatening situations Deep as the taboos may be the survival instinct runs even deeper The title of the book reflects the author's belief that cannibalism is not a pathology that erupts in psychotic individuals but is a universal adaptive strategy that is evolutionarily sound The cannibal is within all of us and cannibals are within all cultures should the circumstances demand cannibalism's appearance and usage Petrinovich's work is rich in historical detail and rises to a level of theoretical sophistication in addressing a subject too often dealt with in sensationalist terms The major instances in which survival cannibalism has occurred convinced the author that there is a consistent pattern and a uniform regularity of order in which different kinds of individuals are consumed In considering who eats whom when and under what circumstances this regularity appears and it is consistent

with what would be expected on the basis of evolutionary or Darwinian theory In short he concludes that starvation cannibalism is not a manifestation of the chaotic psychotic behavior of individuals who are driven to madness but reveals underlying characteristics of evolved human beings Lewis Petrinovich is professor emeritus in the Department of Psychology of the University of California Riverside and is currently a resident of Berkeley California **TV Guide: TV on DVD 2006** TV Guide,2005-10 From the foremost authority on TV viewing comes a complete guide to television shows on DVD **Rod Serling** Nicholas Parisi,2018-10-24 Long before anyone had heard of alien cookbooks gremlins on the wings of airplanes or places where pig faced people are considered beautiful Rod Serling was the most prestigious writer in American television As creator host and primary writer for The Twilight Zone Serling became something more an American icon When Serling died in 1975 at the age of fifty he was the most honored most outspoken most recognizable and likely the most prolific writer in television history Though best known for The Twilight Zone Serling wrote over 250 scripts for film and television and won an unmatched six Emmy Awards for dramatic writing for four different series His filmography includes the acclaimed political thriller Seven Days in May and cowriting the original Planet of the Apes In great detail and including never published insights drawn directly from Serling s personal correspondence unpublished writings speeches and unproduced scripts Nicholas Parisi explores Serling s entire massive body of work With a foreword by Serling s daughter Anne Serling Rod Serling His Life Work and Imagination is part biography part videography and part critical analysis It is a painstakingly researched look at all of Serling s work in and out of The Twilight Zone *Journey to Success* Steven A.
