Two Kinds Of Silence Two Kinds Of Silence:

TWO KINDS OF SILENCE. KATHRYN. LOMER,2015

Tracing Silences Ana Dragojlovic,Annemarie

Samuels,2023-06-06 Silence is crucial to our social world Responding to the growing scholarly interest in social sciences and humanities for more in depth engagements with social silence this book explores what it means to trace silences and to include traces of silences in our scholarly representations What qualifies as silence and how does it relate to articulation to voice visibility and representation How can silences be sensed and experienced viscerally as well as narratively And how do we think with and interpret silences in the face of potential unknowability Grounded in ethnographic research in the Netherlands Israel Turkey China and Indonesia the chapters all contribute to a theorization of silence that embraces multivocality unintelligibility and uncertainty of interpretation As a collection of cutting edge scholarly work at the intersection of anthropology and history *Tracing Silences* argues for an in depth engagement with the unspeakable and unspoken through a range of modes and methods and in the historical social and political ways in which they emerge and are enacted in the particularities of people s lives This book will be of interest to scholars and students of history anthropology sociology political science and archival studies The chapters in this book were originally published as a special issue of *History and Anthropology* *Dao Companion to Chinese Buddhist Philosophy* Youru Wang,Sandra A. Wawrytko,2019-01-31

Too often Buddhism has been subjected to the Procrustean box of western thought whereby it is stretched to fit fixed categories or had essential aspects lopped off to accommodate vastly different cultural norms and aims After several generations of scholarly discussion in English speaking communities it is time to move to the next hermeneutical stage Buddhist philosophy must be liberated from the confines of a quasi religious stereotype and judged on its own merits Hence this work will approach Chinese Buddhism as a philosophical tradition in its own right not as an historical after thought nor as an occasion for comparative discussions that assume the west alone sets the standards for or is the origin of philosophy and its methodologies Viewed within their own context Chinese Buddhist philosophers have much to contribute to a wide range of philosophical concerns including metaphysics epistemology ethics philosophy of language philosophy of mind and philosophy of religion even though Western divisions of philosophy may not exhaust the rich contents of Chinese Buddhist philosophy **Wisdom, You Are My Sister** Michael Barré SS,2023-11-29 This book is made up of 14 studies on wisdom related issues dedicated to a fine wisdom scholar Roland Murphy

In Memoriam Mary O'Hagan, Abbess and Foundress of the Convent of Poor Clares, Kenmar Mary Francis Cusack,1876 **Two Kinds of Silence** Mark Blayney,2003-08-01
