haunted by the faces of the people he's cut from vehicles He knows one thing speed kills He's hoping not to see too much of it in small town Montana until he hears about the drag races taking place outside of town He knows Trinity Calhoun He's watched her race seen her win held his breath when her car somersaulted into barriers in Daytona Beach He doesn't like what she does but he can't stay away from the woman who's claiming his heart Previously titled *Fast Lane* **Futuristic Cars and Space Bicycles** Jeremy Withers,2020-06-04 Given the extensive influence of the transport revolution on the past two centuries a time when trains trams omnibuses bicycles cars airplanes and so forth were invented and given science fiction's overall obsession with machines and technologies of all kinds it is surprising that scholars have not paid more attention to transportation in this increasingly popular genre *Futuristic Cars and Space Bicycles* is the first book to examine the history of representations of road transport machines in nineteenth twentieth and twenty first century American science fiction The focus of this study is on two machines of the road that have been locked in a constant often bitter struggle with one another the automobile and the bicycle With chapters ranging from the early science fiction of the pulp magazine era in the 1920s and 1930s to the postcyberpunk of the 1990s and more recent media of the 2000s such as web television zines and comics this book argues that science fiction by and large perceives the car as anything but a marvelous invention of modernity Rather the genre often scorns and ridicules the automobile and instead promotes more sustainable more benign more restrained technologies of movement such as the bicycle **Scientific American**,1893 Monthly magazine devoted to topics of general scientific interest *Iron Age Communities in Britain* Barry Cunliffe,2006-08-23 Since its first publication in 1971 Barry Cunliffe's monumental survey has established itself as a classic of British archaeology This fully revised fourth edition maintains the qualities of the earlier editions whilst taking into account the significant developments that have moulded the discipline in recent years Barry Cunliffe here incorporates new theoretical approaches technological advances and a range of new sites and finds ensuring that *Iron Age Communities in Britain* remains the definitive guide to the subject *Through These Eyes* Lauren Ann Isaacson,2025-05-16 *Through These Eyes* by Lauren Ann Isaacson is an intimate and powerful personal memoir that delves deep into the heart of resilience hope and the indomitable spirit of the human experience With raw honesty and vulnerability Isaacson shares her life story one marked by immense challenges struggles and the journey towards self acceptance As readers turn the pages they are invited to witness the transformative power of facing adversity head on as well as the profound lessons learned along the way From childhood to adulthood Lauren provides a candid examination of her family dynamics relationships and the emotional scars that shaped her identity Each chapter serves as a reflection on pivotal moments in her life that brought both pain and inspiration As Isaacson navigates through her unique experiences she offers insights into how these elements have molded her perceptions presenting a tapestry of emotions that resonate deeply with anyone who has faced hardship For many readers the themes of overcoming adversity and resilience will strike a chord Lauren's ability to articulate her emotional journey not only fosters a connection with her
