A broad summary of engineer activities and contributions during the Vietnam War Vietnam Studies Robert Riles Ploger, 2005-01-01

The United States Army has met an unusually complex challenge in Southeast Asia In conjunction with the other services the Army has fought in support of a national policy of assisting an emerging nation to develop governmental processes of its own choosing free of outside coercion In addition to the usual problems of waging armed conflict the assignment in Southeast Asia has required superimposing the immensely sophisticated tasks of a modern army upon an underdeveloped environment and adapting them to demands covering a wide spectrum These involved helping to fulfill the basic needs of an agrarian population dealing with the frustrations of antiguerrilla operations and conducting conventional campaigns against well trained and determined regular units As this assignment nears an end the U S Army must prepare for other challenges that may lie ahead While cognizant that history never repeats itself exactly and that no army ever profited from trying to meet a new challenge in terms of the old one the Army nevertheless stands to benefit immensely from a study of its experience its shortcomings no less than its achievements Aware that some years must elapse before the official histories will provide a detailed and objective analysis of the experience in Southeast Asia we have sought a forum whereby some of the more salient aspects of that experience can be made available now At the request of the Chief of Staff a representative group of senior officers who served in important posts in Vietnam and who still carry a heavy burden of day to day responsibilities has prepared a series of monographs These studies should be of great value in helping the Army develop future operational concepts while at the same time contributing to the historical record and providing the American public with an interim report on the performance of men and officers who have responded as others have through our history to exacting and trying demands The reader should be reminded that most of the writing was accomplished while the war in Vietnam was at its peak and the monographs frequently refer to events of the past as if they were taking place in the present

Smith,U.S. Marine Corps History and Museums Division,2021-05-03 This volume details the change in United States policy for the Vietnam War After a thorough review President Richard M Nixon adopted a policy of seeking to end United States military involvement in Vietnam either through negotiations or failing that turning the combat role over to the South Vietnamese It was this decision that began the Vietnamization of the war in the summer of 1969 and which would soon greatly reduce and then end the Marine Corps combat role in the war The Marines of III Marine Amphibious Force continued the full range of military and pacification activities within I Corps Tactical Zone during this period of transition Until withdrawn the 3rd Marine Division employing highly mobile tactics successfully blunted North Vietnamese Army efforts to reintroduce troops and supplies into Quang Tri Province The 1st Marine Division concentrated in Quang Nam Province continued both mobile offensive and pacification operations to protect the city of Da Nang and surrounding population centers The 1st Marine Aircraft Wing provided air support to both divisions as well as other allied units in I Corps while Force Logistic Command served all major Marine commands Although written from the perspective of III MAF and the Marine ground war in I Corps an attempt has been made to place the Marine role in relation to the overall American effort The volume also treats the Marine Corps participation in the advisory effort the operations of the Seventh Fleet Special Landing Force and to a lesser extent the activities of the 101st Airborne Division Airmobile 23rd Infantry Americal Division and 1st Brigade 5th Infantry Division Mechanized There are separate chapters on Marine air artillery surveillance and logistics A Study of Strategic Lessons Learned in Vietnam: Conduct of the war. 2 pts. in 3 ,1981 *The United States and the Vietnam War, 1954-1975* Louis Peake,2007-11-13 The United States in the Vietnam War 1954 1975 is an invaluable reference guide to the costly and controversial war the U S waged in Vietnam over the course of five presidential administrations Focusing not only on the conflict in Southeast Asia but also on the tumult the war inspired on the domestic front Louis Peake provides an authoritative guide to the wide range of media available on the U S involvement in Vietnam From collections of art work and poetry about the soldiering experience to journalistic accounts of battles and military training films the entries consistently provide clear and concise descriptions allowing the reader to easily identify the value of any particular resource With revised and updated

The Tunnels of Cu Chi Tom Mangold, 2013-05-08

At the height of the Vietnam conflict, a complex system of secret underground tunnels sprawled from Cu Chi Province to the edge of Saigon. In these burrows, the Viet Cong cached their weapons, tended their wounded, and prepared to strike. They had only one enemy: U.S. soldiers, small and wiry enough to maneuver through the guerrillas' narrow domain. The brave souls who descended into these hellholes were known as tunnel rats. Armed with only pistols and K-bar knives, these men inched their way through the steamy darkness where any number of horrors could be awaiting them: bullets, booby traps, a tossed grenade. Using firsthand accounts from men and women on both sides who fought and killed in these underground battles, authors Tom Mangold and John Pencyate provide a gripping inside look at this fearsome combat. *The Tunnels of Cu Chi* is a war classic of unbearable tension and unforgettable heroes. Praise for *The Tunnels of Cu Chi*: A claustrophobic but fascinating tale. *The Wall Street Journal*. Chilling what war really was and how it was fought. *The New York Times*. Gripping, highly recommended. *The Philadelphia Inquirer*. Remarkable. *The Washington Post*.
