UFO Crash at Roswell Benson Saler, 2009 **UFO Crash at Roswell** Benson Saler, 1997 **UFO Crash at Roswell** Benson Saler, Charles A. Ziegler, Charles Moore, 2010-06-22 In the summer of 1947 something mysterious crashed in the New Mexican desert near the town of Roswell Whether it was an alien spacecraft manned by tiny humanlike beings or the US government's official explanation a scientific research balloon has long been a subject of passionate debate Transcending the believer versus skeptic debate anthropologists Benson Saler and Charles A Ziegler contend that the Roswell story is best understood as a modern American myth They show how the story and its continual retelling tap into modern fears about the power of technology the duplicity of the government and the power of the media *UFO Crash at Roswell* also includes physicist Charles Moore's meticulous account of how 1947 experiments to launch balloon borne radar reflectors may have led to the Roswell UFO myth Science and Nonbelief Taner Edis, 2009-12-02 In this wide ranging overview physicist and acclaimed science writer Edis examines the relationship between today's sciences and religious nonbelief He provides a very readable nontechnical introduction to the leading scientific ideas that impinge upon religious belief **Hunger for the Wild** Michael L. Johnson, 2007 Americans have had an enduring yet ambivalent obsession with the West as both a place and a state of mind Michael L Johnson considers how that obsession originated how it has determined attitudes toward and activities in the West and how it has changed over the centuries *UFOs and the National Security State* Richard Dolan, 2002-06-01 The documentation is spectacularly good the best ever on the UFO subject And the conclusion is overwhelmingly powerful Whitley Strieber New York Times bestselling author Richard M Dolan is a gifted historian whose study of US Cold War strategy led him to the broader context of increased security measures and secrecy since World War II One aspect of such government policies that has continued to hold the public's imagination for over half a century is the question of unidentified flying objects *UFOs and the National Security State* is the first volume of a two part detailed chronological narrative of the national security dimensions of the UFO phenomenon from 1941 to the present Working from hundreds of declassified records and other primary and secondary sources Dolan centers his investigation on the American military and intelligence communities demonstrating that they take UFOs seriously indeed Included in this volume are the activities of more than fifty military bases relating to UFOs innumerable violations of sensitive airspace by unknown craft and analyses of the Roswell controversy the CIA sponsored Robertson Panel and the Condon Committee Report Dolan highlights the development of civilian anti secrecy movements which flourished in the 1950s and 1960s until the adoption of an official government policy and subsequent closing of the door during the Nixon administration A thorough and monumental undertaking Dr Edgar Mitchell Apollo 14 astronaut If there ever had been a must read must have book on the subject *UFOs and the National Security State* is it I promise you that once you've read it you'll never view the subject of UFOs or the American military intelligence establishment in the same light again Don Ecker senior editor *UFO Magazine* *Stalking the*

Tricksters Christopher O'Brien, 2011-08-11 Manifestations of the Trickster persona such as cryptids elementals werewolves demons vampires and dancing devils have permeated human experience since before the dawn of civilization But today very little is publicly known about The Tricksters Who are they What is their agenda Known by many names including fools sages Loki men in black skinwalkers shapeshifters jokers jinn sorcerers and witches Tricksters provide us with a direct conduit to the unknown in the 21st century Can these denizens of phenomenal events be attempting to communicate a warning to humanity in this uncertain age of prophesied change Take a journey around the world stalking the tricksters Since 1992 Christopher O'Brien has investigated the mysterious San Luis Valley in CO NM possibly America's most anomalous region Among the many high strange events he has investigated there and elsewhere are dozens of reports of unusual trickster characters including Bigfoot devils crypto creatures and witches He also has experience with other fantastic trickster like phenomena worldwide O'Brien's Mysterious Valley book series and numerous TV and radio appearances have been appreciated by millions Join him on this intriguing quest to identify the tricksters impacting the world in the modern age

The Saucerian Gabriel McKee, 2025-04-22 The strange but true biography of the colorful founder of Saucerian Books a central purveyor and promoter of flying saucer and conspiracist knowledge in the mid twentieth century Gray Barker 1925 1984 was an eccentric literary outsider filled with ideas that were out of step with the world An author and unreliable narrator of implausible stories Barker founded and operated Saucerian Books an independent publisher of books about flying saucers and other ideas at the fringes of popular discourse In *The Saucerian* Gabriel McKee tells the fascinating story of Barker's West Virginia based press the unique corpus of materials it published and how office copying and self publishing techniques influenced the spread of paranormal beliefs and conspiratorial worldviews over the last century Following the development of UFO subculture McKee explores the life and career of a larger than life hoaxer and originator of pseudoscientific ideas Ever an entertainer Barker established his reputation with one of the first flying saucer fanzines *The Saucerian* and with his first book the conspiratorial and sensationalistic *They Knew Too Much about Flying Saucers* By the close of the 1950s he had established a publishing imprint that brought out some of the strangest UFO related books of the era with a particular emphasis on flying saucer contactees Saucerian Books became a platform for those whose stories were too unusual implausible or crudely written for more mainstream publishers Though Barker himself was a skeptic he viewed the world of occult believers as a source of ongoing entertainment He also may have used the perceived eccentricity of flying saucer research or ufology to obscure his homosexuality from his small town neighbors From his place on the fringes of midcentury American culture Barker left an unmatched legacy in conspiratorial concepts that have become prominent pop cultural folklore including the Men in Black the Mothman and the Philadelphia Experiment As a mastermind behind the fantastical Barker's promotional efforts were the precursor to contemporary conspiracism **Alien Worlds** Diana Tumminia, 2022-09-01 This intriguing collection of essays presents reflections upon the birth proliferation enduring appeal

and future of extraterrestrial mythology Highly respected authors and researchers representing the varied and sometimes competing perspectives of ufology and the sociology of religion provide a fascinating and instructive voyage into the social worlds of UFOs abductees and contactees Reports of aliens and the changing nature of abduction experience even its sexual dimension are explored in relation to literature cultural practices and ideology The influence of abduction therapy and support groups is considered as are new religious movements with extraterrestrial themes Alien Worlds will enlighten anyone wanting to understand what and how the academic world thinks about UFOs contactee groups and alien phenomena

They Know Us Better Than We Know Ourselves Bridget Brown,2007-08-01 What's really behind Americans persistent belief in alien abductions Since its emergence in the 1960s belief in alien abduction has saturated popular culture with the ubiquitous image of the almond eyed alien appearing on everything from bumper stickers to bars of soap Drawing on interviews with alleged abductees from the New York area Bridget Brown suggests a new way for people to think about the alien phenomenon one that is concerned not with establishing whether aliens actually exist but with understanding what belief in aliens in America may tell us about our changing understanding of ourselves and our place in the world They Know Us Better Than We Know Ourselves looks at how the belief in abduction by extraterrestrials is constituted by and through popular discourse and the images provided by print film and television Brown contends that the abduction phenomenon is symptomatic of a period during which people have come to feel increasingly divested of the ability to know what is real or true about themselves and the world in which they live The alien abduction phenomenon helps us think about how people who feel left out create their own stories and fashion truths that square with their own experience of the world

Conspiracy Culture Dr Peter Knight,Peter Knight,2013-04-15 Conspiracy theories are everywhere in post war American culture From postmodern novels to The X Files and from gangsta rap to feminist polemic there is a widespread suspicion that sinister forces are conspiring to take control of our national destiny our minds and even our bodies Conspiracy explanations can no longer be dismissed as the paranoid delusions of far right crackpots Indeed they have become a necessary response to a risky and increasingly globalized world in which everything is connected but nothing adds up Peter Knight provides an engaging and cogent analysis of the development of conspiracy culture from 1960s countercultural suspicions about the authorities to the 1990s where a paranoid attitude is both routine and ironic Conspiracy Culture analyses conspiracy narratives about familiar topics like the Kennedy assassination alien abduction body horror AIDS crack cocaine the New World Order as well as more unusual ones like the conspiracies of patriarchy and white supremacy Conspiracy Culture shows how Americans have come to distrust not only the narratives of the authorities but even the authority of narrative itself to explain What Is Really Going On From the complexities of Thomas Pynchon's novels to the endless mysteries of The X Files Knight argues that contemporary conspiracy culture is marked by an infinite regress of suspicion Trust no one because we have met the enemy and it is us *The Trickster and the Paranormal* George P. Hansen,2001-08-20 Paranormal and

supernatural events have been reported for millennia They have fostered history s most important cultural transformations e g via the miracles of Moses Jesus Mohammed Paranormal phenomena are frequently portrayed in the world s greatest art and literature as well as in popular TV shows and movies Most adults in the U S believe in them Yet they have a marginal place in modern culture No university departments are devoted to studying psychic phenomena In fact a panoply of scientists now aggressively denounces them These facts present a deeply puzzling situation But they become coherent after pondering the trickster figure an archaic being found worldwide in mythology and folklore The trickster governs paradox and the irrational but his messages are concealed This book draws upon theories of the trickster from anthropology folklore sociology semiotics and literary criticism It examines psychic phenomena and UFOs and explains why they are so problematical for science

Aliens and Man Jerome A. Kroth,2010 When it comes to extraterrestrials UFOs crop circles and ancient astronaut literature most intelligent readers are repulsed by New Age hype turned off by Erik Van Daniken flustered by blatant pseudo science and deeply chagrined at how even the History Channel got dragged into the tabloid and sensational Yet many intelligent open minded readers harbor secret interests in the Great Pyramid and how it was built in mythic tales of sky gods coming and going from Ezekiel to the Rig Veda They are awed by the intricate fractals in crop circles and they more than take notice when a NASA astronaut says he was trailed in space by UFOs That questioning readership however swims in a vast sea of agnosticism curious but not convinced And there just aren t any books for them None they can trust None that reaches them None that transcends tabloid fantasies to authentically treat issues with enough dispassion and scholarly erudition not to insult their intelligence Here Dr Kroth gives the run down on a wide range of evidence and ponders how reliable any of it may be Readers are left with all the elements to form their own equation

Invented Knowledge Ronald H. Fritze,2009-05-15 This incredible exploration of the murky world of pseudo history reveals the mix of proven facts informed speculation and pure fiction behind lost continents ancient super civilizations and conspiratorial cover ups as well as the revisionist historical foundations of religions such as the Nation of Islam and the Church of Jesus Christ of Latter day Saints Drawing on the best scholarship available Ronald H Fritze shows that in spite of strong mainstream historical evidence to the contrary many of these ideas have proved durable and gained widespread acceptance As the examples in Invented Knowledge reveal pseudo historians capitalize on and exploit anomalies in evidence to support their claims rather than examining the preponderance of research as a whole

The Chaos Conundrum Aaron John Gulyas,2014-01-23 In The Chaos Conundrum historian Aaron John Gulyas examines how the paranormal has intersected and influenced our culture in myriad ways from the conspiracy beliefs of William Cooper and Exopolitics to the challenge that the stories of Gray Barker presented to our concept of self and time He looks at the maelstrom of personalities agendas impressions data confusion and contradictions that can be found in the world of the weird and demonstrates how they have become an integral part of our lives whether in the form of flying saucers hauntings religious revelations psychic abilities or dozens of other guises Gulyas

delves into the stories of the people who have attempted to create order out of the chaos Along the way he recounts his own journey from enthusiastic believer in the shadow government and their underground bases to jaded academic skeptic and then finally to someone who thinks there might just be something to the paranormal after all but not what we have been led to expect or believe *Elusive UFOs - a Solid Matter* Jaakko Närvä,2022-04-20 This is a book dealing with the fundamental

question of ufology Are UFOs real or not This problem has been studied for decades and it is still severely debated by ufologists and skeptics Most academics are skeptics What is the right answer This book goes systematically and thoroughly through the essential arguments for and against UFOs and enlightens the scientific grounds of ufology **UFOs,**

Conspiracy Theories and the New Age David G. Robertson,2016-02-25 How and why were UFOs so prevalent in both conspiracy theories and the New Age milieu in the post Cold War period In this ground breaking book David G Robertson argues that UFOs symbolized an uncertainty about the boundaries between scientific knowledge and other ways of validating knowledge and thus became part of a shared vocabulary Through historical and ethnographic case studies of three prominent figures novelist and abductee Whitley Strieber environmentalist and reptilian proponent David Icke and David Wilcock alleged reincarnation of Edgar Cayce the investigation reveals that millennial conspiracism offers an explanation as to why the prophesied New Age failed to arrive it was prevented from arriving by malevolent hidden others Yet millennial conspiracism constructs a counter elite a gnostic third party defined by their special knowledge An overview of the development of UFO subcultures from the perspective of religious studies **UFOs Conspiracy Theories and the New Age** is an innovative application of discourse analysis to the study of present day alternative religion **50 Popular Beliefs That**

People Think Are True Guy P. Harrison,2012-01-03 What would it take to create a world in which fantasy is not confused for fact and public policy is based on objective reality asks Neil deGrasse Tyson science popularizer and author of *Astrophysics for People in a Hurry* I don t know for sure But a good place to start would be for everyone on earth to read this book Maybe you know someone who swears by the reliability of psychics or who is in regular contact with angels Or perhaps you re trying to find a nice way of dissuading someone from wasting money on a homeopathy cure Or you met someone at a party who insisted the Holocaust never happened or that no one ever walked on the moon How do you find a gently persuasive way of steering people away from unfounded beliefs bogus cures conspiracy theories and the like This down to earth entertaining exploration of commonly held extraordinary claims will help you set the record straight The author a veteran journalist has not only surveyed a vast body of literature but has also interviewed leading scientists explored the most haunted house in America frolicked in the inviting waters of the Bermuda Triangle and even talked to a contrite Roswell alien He is not out simply to debunk unfounded beliefs Wherever possible he presents alternative scientific explanations which in most cases are even more fascinating than the wildest speculation For example stories about UFOs and alien abductions lack good evidence but science gives us plenty of reasons to keep exploring outer space for evidence that life

exists elsewhere in the vast universe The proof for Bigfoot or the Loch Ness Monster may be nonexistent but scientists are regularly discovering new species some of which are truly stranger than fiction Stressing the excitement of scientific discovery and the legitimate mysteries and wonder inherent in reality this book invites readers to share the joys of rational thinking and the skeptical approach to evaluating our extraordinary world *American Myths, Legends, and Tall Tales* Christopher R. Fee, Jeffrey B. Webb, 2016-08-29 A fascinating survey of the entire history of tall tales folklore and mythology in the United States from earliest times to the present including stories and myths from the modern era that have become an essential part of contemporary popular culture Folklore has been a part of American culture for as long as humans have inhabited North America and increasingly formed an intrinsic part of American culture as diverse peoples from Europe Africa Asia and Oceania arrived In modern times folklore and tall tales experienced a rejuvenation with the emergence of urban legends and the growing popularity of science fiction and conspiracy theories with mass media such as comic books television and films contributing to the retelling of old myths This multi volume encyclopedia will teach readers the central myths and legends that have formed American culture since its earliest years of settlement Its entries provide a fascinating glimpse into the collective American imagination over the past 400 years through the stories that have shaped it Organized alphabetically the coverage includes Native American creation myths tall tales like George Washington chopping down his father s cherry tree and the adventures of King of the Wild Frontier Davy Crockett through to today s urban myths Each entry explains the myth or legend and its importance and provides detailed information about the people and events involved Each entry also includes a short bibliography that will direct students or interested general readers toward other sources for further investigation Special attention is paid to African American folklore Asian American folklore and the folklore of other traditions that are often overlooked or marginalized in other studies of the topic **UFO Religions** Christopher Partridge, 2012-11-12 The spectre of the UFO as popularized by shows such as The X Files has brought an astonishing slant to the face of modern religious practice But what motivates the fantastical and sometimes sinister beliefs of UFO worshippers UFO Religions critically examines some of the fascinating issues surrounding UFO worship abduction narratives UFO based interpretations of other religions the growth of pseudo sciences purporting to explain UFOs and the responses of the core scientific community to such claims Focusing on contemporary global UFO groups including the Raelian Movement Heaven s Gate Unarius and the Ansaaru Allah Community it gives a clear profile of modern UFO controversies and beliefs
