The Failure to Prevent Genocide in Rwanda Frederik Grünfeld, Anke Huijboom, 2007 This volume is about the failure to prevent genocide in Rwanda in 1994 In particular the research focuses on

why the early warnings of an emerging genocide were not translated into early preventative action The warnings were well documented by the most authoritative source the Canadian U N peace keeping commander General Romeo Dallaire and sent to the leading political civil servants in New York The communications and the decisionmaking are scrutinized i e who received what messages at what time to whom the messages were forwarded and which non decisions were taken in response to the alarming reports of weapon deliveries and atrocities This book makes clear that this genocide could have been prevented Published under the Transnational Publishers imprint *The Human Rights Review* ,1981 Moral Issues in Military Decision Making Anthony E. Hartle,2004 Much has changed in warfare in recent years with America now dominant on the international scene and terrorism the new enemy In light of these changes the need for moral grounding in military actions is a more pressing concern than ever When it was originally published *Moral Issues in Military Decision Making* reflected the concerns posed by nuclear stalemate and the lessons of Vietnam In that highly praised work Anthony Hartle outlined the essential elements of the Professional Military Ethic created for American military forces In this new edition he reexamines the moral foundations for America s military leadership in the post 9 11 era Considering world affairs since the first edition the Gulf War Bosnia Afghanistan Iraq 9 11 and the emergence of the United States as an unrivaled military power Hartle explains how these events have raised ethical issues that differ dramatically from those of the Cold War by the war on terrorism homeland defense asymmetric warfare the proliferation of American military interventions and the UN s role in peacekeeping operations Using meticulously analyzed case studies twice as many as in the first edition he considers such moral dilemmas as torture challenging superior officers use of overwhelming force and responding to fire in the presence of civilian shields In this revision Hartle examines further the status of professional military ethics in light of current affairs changes in the articulation of military values and recent research In a new chapter on human rights he relates moral principles directly to values embedded in the Constitution and argues that overwhelming American military power cannot succeed unless it is accompanied by the moral force of the values it seeks to protect difficulties of applying conventional laws of war and human rights doctrine in military operations Hartle convincingly shows that national security is as much about the preservation of moral principles as it is about the protection of America s citizens and borders His book demonstrates that the American military must continue to observe those principles in order to be effective in its primary mission Politics of People's War and Human Rights in Nepal Bishnu Pathak,2005 *Health and Human Rights* ,1996

The Human Rights Movement Warren Holleman,1987-11-17 In *The Human Rights Movement* the author examines why human rights abuses have continued to exist and even increase in number According to Holleman the reason for this failure is that Western and non Western nations and cultures disagree as to the meaning of human rights and the means for promoting human rights from nation to nation and culture to culture Christian theological anthropology suggests a via media between Western and non Western points of view **Human Rights in International Law** Theodor Meron,1984 A A full
