spectrum of grammatical structures The Structure of English teaches why grammatical structures are important and how to use them through literary illustrations and clear explanations of grammar's effective use and communicative function It is directed at future English teachers as well as the new ESL/EFL teacher With an emphasis on discourse function throughout students are never expected to rely on lists of unrelated constructed example sentences Rather when major points of grammar are presented the structures are illustrated with rich real world contexts excerpted from literature mostly American including novels short stories poems essays and drama Exercises in the companion workbook are likewise based on naturally occurring stretches of discourse Though informed by modern linguistic theory explanations are framed in more traditional terminology and are designed to help build students confidence in using English grammar by deepening their understanding of its forms and functions For advanced ESL students and graduate TESOL and certificate programs
