Library Science and Administration: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2017-11-30 Effective administration of libraries is a crucial part of delivering library services to the public To develop and implement best practices librarians must be aware and informed of the recent advances in library administration Library Science and Administration Concepts Methodologies Tools

and Applications is a comprehensive reference source for the latest scholarly material on trends techniques and management of libraries and examines the benefits and challenges of library administration Highlighting a range of pertinent topics such as digital libraries information sciences and academic libraries this multi volume book is ideally designed for academicians researchers practitioners and librarians seeking current research on library science and administration **Understanding User Acceptance of Digital Libraries** James Y.L. Thong,2014 Digital library research efforts originating from library and information scientists have focused on the technical development While millions of dollars have been spent on building usable digital libraries previous research indicates that potential users may still not use them This study contributes to understanding user acceptance of digital libraries by utilizing the technology acceptance model TAM Three system interface characteristics three organizational context variables and three individual differences are identified as critical external variables that have impact on adoption intention through perceived usefulness and perceived ease of use of the digital library Data was collected from 397 users of an award winning digital library The findings show that both perceived usefulness and perceived ease of use are determinants of user acceptance of digital libraries In addition interface characteristics and individual differences affect perceived ease of use while organizational context influences both perceived ease of use and perceived usefulness of digital libraries **Annual Review of Information Science & Technology** Blaise Cronin,2006-10 ARIST published annually since 1966 is a landmark publication within the information science community It surveys the landscape of information science and technology providing an analytical authoritative and accessible overview of recent trends and significant developments The range of topics varies considerably reflecting the dynamism of the discipline and the diversity of theoretical and applied perspectives While ARIST continues to cover key topics associated with classical information science e g bibliometrics information retrieval editor Blaise Cronin is selectively expanding its footprint in an effort to connect information science more tightly with cognate academic and professional communities **Digital Library Use** Ann Peterson-Kemp,Nancy A. Van House,Barbara P. Battenfield,2003-10-10 Viewing digital libraries as sociotechnical systems networks of people and technology interacting with society The contributors to this volume view digital libraries DLs from a social as well as technological perspective They see DLs as sociotechnical systems networks of technology information artifacts and people and practices interacting with the larger world of work and society As Bruce Schatz observes in his foreword for a digital library to be useful the users the documents and the information system must be in harmony The contributors begin by asking how we evaluate DLs how we can understand them in order to build better DLs but they move beyond these basic concerns to explore how DLs make a difference in people s lives and their social worlds and what studying DLs might tell us about information knowledge and social and cognitive processes The chapters using both empirical and analytical methods examine the social impact of DLs and also the web of social and material relations in which DLs are embedded these far ranging social worlds include such disparate groups as community activists environmental

researchers middle school children and computer system designers Topics Documents and society the real boundaries of a library without walls the ecologies of digital libraries usability and evaluation information and institutional change transparency as a product of the convergence of social practices and information artifacts and collaborative knowledge construction in digital libraries *Digitisation Perspectives* R. Rikowski,2011-07-22 This book examines various views and perspectives on digitisation Topics covered include electronic theses search engine technology digitisation in Africa citation indexing reference services the Scholarly Publishing and Academic Resources Coalition new media and scholarly publishing The final chapter explores virtual libraries and poses some interesting questions for possible futures The book will be of particular interest to information professionals educators librarians academics and I T and knowledge experts **The Digital Challenge for Libraries** Ralph Blanchard,2005 Public and university libraries are at a crossroads hard pressed by competition from Internet search engines declining budgets and changes in popular culture Libraries must respond aggressively Otherwise they will be marginalized by the impact of digital technology on their traditional customer base Author Ralph Blanchard drawing on twenty years of experience as an information services entrepreneur argues that it is irresponsible for librarians to simply turn academic tasks over to search engines as many do Instead libraries should expand digital services and using the tactics and strategies of successful for profit information service businesses reconnect with their customers by promoting themselves as 21st Century information experts Topics in this wide ranging study include The library as a service business Change risk and unintended consequences The Internet search engine business model Problems with students using search engines The evolution of ambient information Music and information technology Millennials as library customers Hiring and training library information workers Push and viral marketing strategies for libraries The Digital Challenge for Libraries calls for new initiatives by librarians and for a rekindling of interest in the vital role libraries play in an informed prosperous and democratic society Digital Libraries Kuo Hung Huang,2011-04-04 Digital library is commonly seen as a type of information retrieval system which stores and accesses digital content remotely via computer networks However the vision of digital libraries is not limited to technology or management but user experience This book is an attempt to share the practical experiences of solutions to the operation of digital libraries To indicate interdisciplinary routes towards successful applications the chapters in this book explore the implication of digital libraries from the perspectives of design operation and promotion Without common agreement on a broadly accepted model of digital libraries authors from diverse fields seek to develop theories and empirical investigations that to advance our understanding of digital libraries International and Comparative Studies in Information and Library Science Yan Quan Liu,Xiaojun Cheng,2007-11-13 Comparative studies in information and library science published in the past ten years have reflected a broad spectrum of backgrounds interests and issues But until now services between different countries have never been gathered or organized into a single source As demand from researchers students directors and practitioners for literature in

this field continues to grow the need for a focused book on international and comparative librarianship has become more evident Authors Yan Quan Liu and Xiaojun Cheng address this gap as it pertains to Asian nations This contributed volume International and Comparative Studies in Information and Library Science A Focus on the United States and Asian Countries addresses such issues as research methodologies information policy professional education information organization as well as school academic and public libraries The book also features a comprehensive bibliography of related articles books proceedings and other publications in both English and Chinese In addition this volume features four appendixes that include lists of the curriculum journal titles conferences and websites relating to international and comparative librarianship available at the time of publication

Introduction to Digital Libraries Gobinda G. Chowdhury, Sudatta Chowdhury, 2003 This book presents a holistic view of the new digital library scene it is an essential guide to good digital practice and techniques back cover

Recent Developments in the Design, Construction, and Evaluation of Digital Libraries: Case Studies Cool, Colleen, 2013-02-28 It is no secret that the world of libraries has rapidly evolved into an environment which will soon be largely digitized However this digital shift has brought with it a unique set of challenges and issues for scholars and librarians to handle Recent Developments in the Design Construction and Evaluation of Digital Libraries not only addresses the challenges with digital libraries but it also describes the recent developments in the design construction and evaluation of these libraries in various environments This cutting edge resource compiles research from a wide array of specialists into a unified and comprehensive manner Librarians researchers scholars and professionals in this field will find the reference source beneficial in order to deepen their understanding of this continually growing field

Digital Libraries and Digitization Gurdev Singh, 2011 The development of new information technology has created an interest in the development of digital libraries This book provides an overview of the various concepts of digital libraries It covers a wide range of topics related to digital libraries from historical developments to the process of digitization It also offers information on how to do digitization including such topics as e resources digital library services preservation process of digitization e journals e books networks consortia etc The book based on library science research in India will be helpful to those who deal with archiving digitization and preservation of library materials those who are concerned with modernization and digitization of library resources and those who are involved in organizing and establishing digital libraries A special feature of the book is that it consists of a Glossary of words frequently used for digitization and digital libraries Diagrams are given wherever necessary to understand the concepts clearly

Multimedia Information Collection in Digital Libraries V.K. Suraj, 2005-03 In the information age digital media have significantly impacted our lives and overloaded information systems worldwide As the needs and expectations of library users change in the digital environment libraries are trying to find the best ways to define their user communities understand what they value and evolve digital library collections and services to meet their demands Digital libraries are large collections of multimedia information that are usually created with the purpose

of supporting learning or knowledge acquisition They have extended access to many types of collection from all points o the globe These collections include film and video archives news material oral histories museum images and digitized special collections In this book an attempt has been made to synthesise all aspects of digital library collections It enables the readers to understand the process of electronic dissemination of information the emerging trends in digital libraries and the changing responsibilities of library professionals The book will be useful to practicing librarians information scientists teachers and students of library and information scientists teachers and students of library and information science and to those concerned with the digitisation of library resources

User Studies for Digital Library Development Milena Dobрева, Andy O'Dwyer, Pierluigi Feliciati, 2012-06-22 This landmark text captures a global cross section of leading voices and provides a clear and coherent overview of the user studies domain and user issues in digital libraries As the information environment becomes increasingly electronic digital libraries have proliferated but the focus has often been on innovations in technology and not the user Although user needs have become a popular concept in practice the users are rarely consulted in the development of services Research and analysis of users is essential to fine tune the content and approach of digital libraries to the diverging requirements and expectations of incredibly varied communities and to ensure libraries are effective accessible and sustainable in the long term Key topics include what is the place of user studies in digital libraries and what are the basic user study methods explaining user centric studies information behaviour and user experience studies exploring user study methods such as surveys questionnaires expert evaluation methods eye tracking deep log analysis personae and ethnographic studies critical issues around user studies such as evaluation of digital libraries digital preservation social media the shift to mobile devices and ethics user studies in specific types of institutions libraries archives museums audiovisual collections and art collections the most popular questions and what to do next Readership Information professionals involved in supporting developing or designing digital library services researchers wanting to address the user dimension in their work and students on LIS and computer science courses who want to understand the importance of the user in information services
