Understanding Religious Pluralism Perspectives From Religious Studies And Theology:

Understanding Religious Pluralism Peter C. Phan, Jonathan Ray, 2014-08-01 Our contemporary world is fast becoming religiously diverse in a variety of ways Thanks to globalization and migration to mention only two current worldwide trends people of diverse and sometimes mutually hostile faiths are now sharing neighborhoods and encountering one another's religious traditions on a daily basis For scholars in religious studies and theology the issue to be examined is whether religious diversity is merely the result of historical development and social interaction or whether it is inherent in the object of belief part of the very structure of faith and our attempts to understand and express it The essays in this volume range from explorations of the impact of religious diversity on religious studies to examples of interfaith encounter and dialogue and current debates on Christian theology of religion These essays examine not only the theoretical issues posed by religious pluralism to the study of religion and Christian theology but also concrete cases in which religious pluralism has been a bone of contention Together they open up new vistas for further conversation on the nature and development of religious pluralism

Dag,2017-04-21 Theologians have had to increasingly engage with beliefs and practises outside of their own traditions The resultant theology of religions is however often formulated in isolation from the religions they are describing This book provides a comparison of the development of theology of religions in Western Christianity and its application in anIslamic context It also shows the parallels between some specific forms of theology of religions i e exclusivism inclusivism or pluralism in both Islamic and Christian traditions The arguments of Christian and Muslim theologians including the specific contributions of Rowan Williams and Jerusha Lamptey are examined in order to reveal the interconnections and contradictions of their pluralist exclusivist and inclusivist approaches This provides a rounded picture of Christian Muslim understanding of religious others and prepares the ground for a stronger and more sophisticated Islamic theology of religions This is vital reading for those studying theology of religions comparative theology and interfaith relations

Christian Theology in the Age of Migration Peter C. Phan,2020-01-13 We are living in the Age of Migration and migration has a profound impact on all aspects of society and on religious institutions While there is significant research on migration in the social sciences little study has been done to understand the impact of migration on Christianity This book investigates this important topic and the ramifications for Christian theology and ethics It begins with anthropological and sociological perspectives on the mutual impact between migration and Christianity followed by a re reading of certain events in the Hebrew Scripture the New Testament and Church history to highlight the central role of migration in the formation of Israel and Christianity Then follow attempts to reinterpret in the light of migration the basic Christian beliefs regarding God Christ and church The next part studies how migration raises new issues for Christian ethics such as human dignity and human rights state rights social justice and solidarity and ecological justice The last part explores what is known as Practical Theology by examining the implications of migration for issues such as liturgy and worship spirituality architecture and education

John Hick's Pluralist Philosophy of World Religions Paul R. Eddy,2015-06-22 According to John Hick s model of religious pluralism all the world s great religions present equally valid ways of understanding and responding to the same ultimate Reality This book offers an exposition of and critical response to Hick s model Following an introductory chapter that surveys dominant approaches to religious diversity the rise and development of Hick s pluralist interpretation of religions is traced Finally a critical assessment of Hick s mature pluralist model is offered The conclusion Hick s model is ultimately unsuccessful in overcoming the pluralist s most difficult conceptual problem namely providing an adequate account of the fact that the world s religions understand the divine Reality in often contradictory ways Ultimately Hick s own solution threatens two of his long cherished goals a robust religious realism and a tradition neutral religious pluralism

Crucified Wisdom S. Mark Heim,2018-12-04 Winner of the Frederick Streng Book Award for Excellence in Buddhist Christian Studies This work provides the first systematic discussion of the Bodhisattva path and its importance for constructive Christian theology *Crucified Wisdom* examines specific Buddhist traditions texts and practices not as

phenomena whose existence requires an apologetic justification but as wells of tested wisdom that invite theological insight With the increasing participation of Christians in Buddhist practice many are seeking a deeper understanding of the way the teachings of the two traditions might interface Christ and the Bodhisattva are often compared superficially in Buddhist Christian discussion This text combines a rich exposition of the Bodhisattva path using ntideva s classic work the Bodicary vat ra and subsequent Tibetan commentators with detailed reflection on its implications for Christian faith and practice Author S Mark Heim lays out root tensions constituted by basic Buddhist teachings on the one hand and Christian teachings on the other and the ways in which the Bodhisattva or Christ embody and resolve the resulting paradoxes in their respective traditions An important contribution to the field of comparative theology in general and to the area of Buddhist Christian studies in particular Crucified Wisdom proposes that Christian theology can take direct instruction from Mah y na Buddhism in two respects deepening its understanding of our creaturely nature through no self insights and revising its vision of divine immanence in dialogue with teachings of emptiness Heim argues that Christians may affirm the importance of novelty in history the enduring significance of human persons and the Trinitarian reality of God even as they learn to value less familiar nondual dimensions of Christ s incarnation human redemption and the divine life Crucified Wisdom focuses on questions of reconciliation and atonement in Christian theology and explores the varying interpretations of the crucifixion of Jesus in Buddhist Christian discussion The Bodhisattva path is central for major contemporary Buddhist voices such as the Dalai Lama and Th ch Nh t Hanh who figure prominently as conversation partners in the text This work will be of particular value for those interested in dual belonging in connection to these traditions **Circling the Elephant** John J.

Thatamanil,2020-06-02 Christian theologians have for some decades affirmed that they have no monopoly on encounters with God or ultimate reality and that other religions also have access to religious truth and transformation If that is the case the time has come for Christians not only to learn about but also from their religious neighbors Circling the Elephant affirms that the best way to be truly open to the mystery of the infinite is to move away from defensive postures of religious isolationism and self sufficiency and to move in vulnerability and openness toward the mystery of the neighbor Employing the ancient Indian allegory of the elephant and blind folded men John J Thatamanil argues for the integration of three often separated theological projects theologies of religious diversity the work of accounting for why there are so many different understandings of the elephant comparative theology the venture of walking over to a different side of the elephant and constructive theology the endeavor of re describing the elephant in light of the other two tasks Circling the Elephant also offers an analysis of why we have fallen short in the past Interreligious learning has been obstructed by problematic ideas about religion and religions Thatamanil argues while also pointing out the troubling resonances between reified notions of religion and race He contests these notions and offers a new theory of the religious that makes interreligious learning both possible and desirable Christians have much to learn from their religious neighbors even about such central features of

Christian theology as Christ and the Trinity This book envisions religious diversity as a promise not a problem and proposes a new theology of religious diversity that opens the door to robust interreligious learning and Christian transformation through encountering the other

Perspectives on theology of religions Jaco Beyers, Piet J. van der Merwe, Wilhelmina Magdalena Shaw, Ronald Allen Baatsen, Johannes Janse van Rensburg, Tessa Freeman, 2017-11-23 In the public theology discourse the concept public square has become significant In today's multicultural and globalised world it is inevitable that people with different religious affiliations will encounter one another in the public square Public theology cannot but become theology of religions Scholars in the field of religion studies are compelled to reflect theologically on the relevance of religiosity in the postmodern secular world The term theology of religions refers to the academic inquiry into the relationship between religions The collected essays constitute such an inquiry In the end it is not so much about the encounter of religions but rather of people Religion is no longer regarded as a monolithic body of beliefs and practices The authors concede that the concept religion is too fluid to be delineated precisely The book's approach to the relationship between religions i.e. theology of religions reflects how the authors understand the origin and nature of religion a theology of religion in the singular This book focuses more on theology of religions plural than on theology of religion singular The main objective of the book is to present a variety of perspectives on how theology of religions manifested in different contexts This includes historical i.e. Luther's theology of religions and the Roman Catholic position on other religions as taken by Vatican II as well as cultural and religious perspectives In the first chapter the editor gives a brief overview of the development of the discipline of theology of religions The postmodern era is characterised by an almost non-foundational approach The second chapter traces the development of the discipline in the Roman Catholic tradition in particular This contribution is based on the insights of P J van der Merwe 1944-2014 who as researcher and Head of the Department of Science of Religion and Missiology at the University of Pretoria developed a specific theological position on non-Christian religions A whole generation of theologians was trained in this school of thought He passed away in 2014 and this publication pays tribute to his life's work on religions and their relations The contributions that follow are the culmination of the research of postgraduate students at the University of Pretoria The third chapter presents a perspective on the Reformation with a particular focus on Martin Luther In this year of the quincentenary anniversary of the Reformation

the legacy of Reformed belief is highlighted The fourth chapter describes the relationship between Christianity and Islam from the perspective of a willingness to embrace The fifth chapter analyses the relation between Christianity Judaism and Islam from the perspective of intergroup threat theory A model for theology of religions in a South African context is developed in the sixth and final chapter This scholarly book pays tribute to the academic contribution of P J van der Merwe mentor of the authors of these multifaceted reflections on theology of religions The target audience is specialists in the field of religion studies The distinctive contribution of the book is the innovative perspectives on the relationship between Islam and Christianity in both the Roman Catholic and Protestant contexts Creation and Religious Pluralism David

Cheetham,2020-08-21 In the well worn debates about religious pluralism and the theology of religions there have been many different rubrics used to account for comprehend or engage with the religious other This book is chiefly a work of Christian theology and seeks to bring the doctrine of creation and the theology of religions into dialogue and in so doing it comes at things from a different direction than other works It contains an extensive exploration of the doctrine of creation and asks how it might intervene distinctively in these discourses to produce a new conceptual and practical topography It will consider inter religious engagement from the perspective of the doctrine of creatio ex nihilo that forms the dominant view in the Jewish Christian and Islamic traditions The book pays close consideration to anthropology i e creaturehood the quotidian and wisdom the idea of sabbath human action and work and vivifying the immanent through a consideration of some representative phenomenologists The book will develop these ideas in a more practical direction by considering sacraments and rituals in the public sphere as well as attempting to describe the kind of creational politics that might bring traditions into dialogue Whilst these themes challenge more conventional ways of considering relations between religions such themes because they are different from concerns commonly found in the literature can also be profitably engaged with across the spectrum of opinion i e exclusivist or pluralist etc Thus whilst the position adopted in this work is creatio ex nihilo part of the motivation is to review the ways in which this focus helps to broaden rather than limit the discussion Religious Pluralism

and the Modern World S. Sugirtharajah,2011-12-13 A fascinating collection of essays by leading scholars in the field engage with the idea of religious pluralism mooted by John Hick to offer incisive insights on religious pluralism and related themes and to address practical aspects such as interreligious spirituality and worship in a multi faith context *Pluralisation of Theologies at European Universities* Wolfram Weiße,Julia Ipgrave,Oddbjørn Leirvik,Muna Tatari,2020 This publication assumes that the modern context of plurality requires universities and higher education to support studying plural religious traditions in depth giving due consideration to plural religious and secular perspectives and providing opportunities for interaction between them There are various ways to realise these aims Success may be supported or hindered by various structures and concepts prevalent in universities or by different schools of thought on the nature of religions on their relation to each other and on their place in society Religions and theologies can be studied in parallel in cooperation in dialogue or

through integrative approaches The differing theoretical positions and contextual conditions institutional social political within which inter religious learning takes place are an important focus of this publication both for the possibilities they open up and the limitations they pose This publication builds on the presentations and discussions of scholars participating at a conference at the University of Hamburg in December 2018 with some additional contributions from others in the field who were unable to attend in person

Religious Pluralism and Pragmatist Theology Jan-Olav Henriksen, 2019-07-22 Inspired by pragmatism this book addresses religious plurality with the aim of bringing forth how it may be approached constructively by Christian theology Accordingly not doctrine but practices are focussed in its analyses of interreligious topics Henriksen argues that engagement with the diversity of religious traditions should be grounded in openness towards the other and resistance against making others similar to oneself Accordingly the book presents a theological approach where interaction between religious practitioners is considered a benefit and a necessity for the positive future of religious traditions It will be of interest to anyone who is interested in the understanding of religious pluralism from the point of view of Christian theology

Theology and the Religions Viggo Mortensen, 2003 The academic study of religion is undergoing great changes in response to globalization Just as sociologists now find it necessary to think in terms of multiculturalism so religion scholars and theologians today must work in the context of multireligiosity Globalization is leading not only to multiethnic societies but also to plurality in religions and worldviews Theology and the Religions A Dialogue offers the first sustained analysis of the trend toward multireligiosity and its implications for the study of religion Drawing on the resources of cultural analysis religious studies and theology an international slate of scholars explores the relation of multiculturalism and multireligiosity the need for interreligious dialogue and the possibilities for a theology of religions This groundbreaking work is supported by case studies of various religious traditions in diverse cultures from around the world Special attention is paid to Christian theological reflection however since as a global religion Christianity is particularly challenged by multireligiosity Offering an engaging wide angle view of religion worldwide Theology and the Religions makes a vital contribution to our understanding of the forces shaping the future of religious and social life Contributors Kajsa Ahlstrand Theodor Ahrens Jan Martin Berentsen Ulrich Dehn Helene Egnell Marianne C Qvortrup Fibiger Patrik Friedlund Virginia Garrard Burnett Geomon K George Elisabeth Gerle Friedrich Wilhelm Graf Hans Hauge Ulf Hedetoft S Mark Heim Chris Hower Klaus Hock Michael Ipgrave Andrew J Kirk Lene K hle Volker K ster Aasulv Lande Oddbjorn Leirvik Ole Skjerve k Madsen Hiromasa Mase Mogens S Mogensen Viggo Mortensen Johannes Nissen Klaus N rnberger Caleb Oladipo Tinu Ruparell Risto Saarinen Lamin Sanneh Olaf Schumann Notto R Thelle Joachim Track V tor Westhelle H S Wilson

Religious Pluralism Giuseppe Giordan, Enzo Pace, 2014-07-08 This volume illustrates both theoretically and empirically the differences between religious diversity and religious pluralism It highlights how the factual situation of cultural and religious diversity may lead to individual social and political choices of organized and recognized pluralism In the process both individual and collective identities are redefined
