Terrorism and Transnational Security Threats in West Africa: Adebayo E. Adeyemi PhD, 2015-09-18 While it could be arguably stated that West Africa has achieved remarkable and sustainable progress in the areas of democratic governance and economic growth the subregion over the past few years has been challenged by terrorism and other transnational security threats Innocent civilians are continuously killed security operatives and providers of humanitarian assistance are targeted and properties and infrastructures are wantonly destroyed thus culminating in significant displacement of people and acute poverty If these developments are not carefully and timely addressed they are capable of eroding progress so far recorded It is against this background that this book examines the different manifestations of terrorism and related transnational security challenges in West Africa with a view to exploring the internal and external sources and drivers of instability establishing the linkages between terrorism and transnational threats and reviewing the various steps taken in recent time to strengthen the subregions capacity to prevent and address the menace of terrorism and other security challenges and make necessary policy recommendations based on comprehensive best practices *The International*
