The dollar is in trouble It has fallen against other currencies for the past three years and now its orderly retreat could well become a rout This spells potential disaster for the American economy and potential riches for a few smart investors In *The Coming Collapse of the Dollar and How to Profit from It* financial gurus James Turk and John Rubino show how the dollar arrived at this precipice why it will plunge and how you can profit from the resulting financial crisis The U S today is the world s biggest debtor nation printing money with abandon to sustain the illusion of prosperity The federal government owes 7 trillion and its debt is soaring As a society we owe more than 37 trillion or about 500 000 per family of four Our trade deficit with other countries is staggering and to finance this mountain of debt we re flooding the world with dollars The inevitable result The dollar will decline until it is displaced as the world s dominant currency Precious metals will soar in value and gold will reclaim its monetary role at the center of the global financial system Traditionally a haven during times of uncertainty gold has risen dramatically since 2001 By the fall of 2004 it was up by nearly 50% at over 400 an ounce But this is just the beginning James Turk a leading gold authority and the founder of GoldMoney com and veteran financial writer John Rubino show readers how to capitalize on gold s dramatic climb In *The Coming Collapse of the Dollar* Turk and Rubino reveal which stocks and bonds will falter as the dollar declines and why that decline is virtually inevitable They offer strategies for using gold coins gold stocks gold based digital currencies and other hard assets to create a profitable portfolio And they explain how to make the most of your gold and other precious metal holdings identifying the opportunities and pitfalls of buying gold mining stocks and the mutual funds that invest in them America s debt binge has put its economy at grave risk The value of the dollar is falling many stocks are once again wildly overvalued and bonds tied to an ever diminishing dollar are a disaster waiting to happen By investing in gold and other hard assets Turk and Rubino explain how you can protect yourself from these dangers *The Coming Collapse of the Dollar and How to Profit from It* is a must read for every investor whatever the size of his or her portfolio For more information visit www.dollarcollapse.com
