Richie, 2012-05-22 Illuminates the threats Black women face and the lack of substantive public policy towards gendered violence Black women in marginalized communities are uniquely at risk of battering rape sexual harassment stalking and incest Through the compelling stories of Black women who have been most affected by racism persistent poverty class inequality limited access to support resources or institutions Beth E Richie shows that the threat of violence to Black women has never been more serious demonstrating how conservative legal social political and economic policies have impacted activism in the U S based movement to end violence against women Richie argues that Black women face particular peril because of the ways that race and culture have not figured centrally enough in the analysis of the causes and consequences of gender violence As a result the extent of physical sexual and other forms of violence in the lives of Black women the various forms it takes and the contexts within which it occurs are minimized at best and frequently ignored Arrested Justice brings issues of sexuality class age and criminalization into focus right alongside of questions of public policy and gender violence resulting in a compelling critique a passionate re framing of stories and a call to action for change Revitalizing Victimization Theory Travis C. Pratt, Jillian J. Turanovic, 2021-04-09 Revitalizing Victimization Theory Revisions Applications

and New Directions revises some of the major perspectives in victimization theory applies theoretical perspectives to the victimization of vulnerable populations and carves out new theoretical territory that is clearly needed but has yet to be developed With the exception of a handful of isolated works in the mid twentieth century theory and research on victimization did not come into its own until the late 1970s with the articulation of lifestyle and routine activity theories Research conducted within this tradition continues to be an important part of the overall criminological enterprise and a large body of empirical knowledge has been generated Nevertheless theoretical advances in the study of victimization have largely stalled within the field of criminology Indeed little in the way of new theoretical headway has been made in well over a decade This is an ideal time to revitalize victimization theory and this volume does just that It is an ambitious project that will hopefully reignite the kinds of theoretical discussions that once held the attention of the field The work included here will shape the future of victimization theory and research in years to come This volume should be of interest to a wide range of criminologists and have the potential to be used in graduate seminars and upper level undergraduate courses
