Introduction to Wireless Communications

Lab 1-1 Research Wireless Data Communications

Objectives

Students in this section will be able to identify some of the technologies that will be used throughout the course. By understanding a variety of wireless technologies and the data and routing a short paragraph describing one of them, you will be able to strengthen a bridge through the gap.

After comparing answers, you will be able to:

- 1. List some of the different technologies described in the course book.
- 2. Select several that describe the required technology that they apply to.

Materials Required

- 1. Computer with Internet access.
- 2. Web browser (e.g., Firefox) and the technology of your choice to read the text of this lab document.

Estimated completion time:

50 minutes

Activity

1. Read the technical facts about each of the wireless paragraphs described in the course book in the table below. Select the most that will describe the table and select an answer concerning a technology of your choice. "Technology" will also be used.
